American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, January 2, 1880.

1879-'80.

The year 1879 has passed into history, to take its place among the most remarkable in the annals of our country's wonderful material prosperity, while 1880 opens upon the brightest prospects for its continuance this generation has seen. Crops, universally and unusually abundant throughout the United States, following bountiful crops for two previous years, together with simultaneous short crops in Europe, following two successive years of shortage, were the primary causes of this change. These three years furnish the most remarkable coincidence of the kind within memory, and hence the results we have seen. It is a coincidence which may never happen again, and probably never will to so general an extent. Yet it cannot be denied that the prospects for a continuance of this exceptional prosperity during 1880, are brighter than those of a year ago for 1879. The necessary conditions were then but partially developed, while now they are guaranteed by the simple momentum of the recovery of all our industries, which must continue to carry prosperity into another year, as a balance wheel carries the machinery of a mill for a time, even when the motive power has been completely exhausted. Hence, should ordinary, or average crops only, be grown in 1880, this year's acceleration of our industrial forces will carry the country prosperously through the coming year, and nothing but absolutely bad crops can reverse the machinery of a prosperous era now fully developed in the United States.

The secondary cause of this change in the condition of our country, is the natural though slow recovery from a protracted and equally general and exceptional depression, which began here and extended to the commercial world. Hence this country must be the first to recover, other things being equal. In other words the season of retrenchment and repairs had expired by the limitation of natural laws, when it must inevitably have given place to the era of extension and renewal. The wear and tear of seven years required replacement with new material throughout all departments of life and industry, both useful and ornamental. The machinery of business, and the clothing and furniture of the people had worn out, and they were compelled to buy new. This work of substitution is not yet completed, and when it is, real estate and houses will have to be renovated, improved and enlarged.

The former process has caused the advance in all kinds of personal property, which has been seen the past year. The latter process will cause a similar advance in real estate the coming year, unless suddenly checked by some national calamity, such as poor crops or political disturbances. Then, with both real and personal property restored to their normal conditions, our prosperity will be fully recovered, the basis of values will become fixed, and the country will have entered upon what is justly believed by many to be the most prosperous decade in its wonderful history. The growth of the country has overtaken that of the railroads, and they must henceforth earn more for the agricultural and commercial community and for their stockholders. Thus much for the general prosperity of the country for the past and coming years, which the agricultural interests were of course the first to feel, and the railroad interests next; after which all other interests must naturally follow these two most important in the industrial composition of a country which surpasses all others in these respects.

Now let us, in the interests of conservatism and safety, look at the possible shady side of the coming year's prospects, as liable to affect these two interests, first, should the most probable contingency to the present prosperity happen—namely, bad crops at home and good crops abroad. In such event, the agricultural classes would at once stop their purchases for extensions and renewals, and, according to the extent of the damage, might even curtail their ordinary expenses for repairs and replacement. This would at once react on the merchant, from him to the manufacturer, from him to the producer of raw material, by curtailment of production, and then to the laborer. Next, the railroads would feel it, in diminished traffic from and to the agricultural sections, thus decreasing their earnings. It would then react upon the manufacturers of railroad supplies, next upon the iron and coal interests (and in turn upon the coal roads,) then upon the employes of these interests and upon stockholders generally in all corporations, in reduced dividends, and finally upon the value of these properties, as represented by their stocks. Thus, with all our flattering prospects for 1880, we are liable to see the whole machinery of recovery and prosperity, so lately set in motion, reversed and running backward again,

though it cannot by any possibility land us as far down as we were before we rose.

Speculators, railroad managers, manufacturers, merchants, farmers, the middle and laboring classes should all bear this in mind, and not so set their canvas to the wind, and so increase their expenses of business or living that they cannot at any time take in their sails and reduce these expenses without leaving them liable to embarrassment, forced realizations and possibly panic, should we happen to have poor crops the coming year and Europe an abundance. The country can well afford to delay further expansion until our prosperity is fixed upon a more normal and substantial basis.

American Railroad Prospects.

American railroad prospects continue cheering, upon the whole. Cheaper money, abundant crops, reviving trade, growing population—all these elements of national prosperity are exerting a powerful influence for good upon the railroad interest of the United States. The effect of cheaper rates of interest upon capital must be very great. So considerable, indeed, has the accumulation of capital become in the Great Republic that the 5 per cent United States Refunding Loan of 1871 is to be in its turn refunded into 4 per cent bonds in 1881—which year will also witness the extinction of the last 6 per cent bonds issued by the American Treasury. A proposal is even expected to be submitted to the United States Congress for the issue of United States 3½ per cent bonds.

In presence of such circumstances as these, it is tolerably clear that no American railroad company possessing a shred of respectability or credit need in future give more than 5 per cent per annum upon its bonds. We should not be surprised, indeed, to see such companies as the New York Central, the Pennsylvania, the Baltimore and Ohio, the Chicago and Northwestern, or the Central Pacific with a large amount of bonds afloat at 4 or 4½ per cent per annum. The effect of this upon the stocks of such companies as these would be very great in the course of a few years. Hitherto, bonds have too often swallowed up stocks; now, stocks appear to have a chance of returning the compliment and swallowing up bonds, or, at any rate, of reducing them to their proper level and position. The bondholders or debentureholders of a company should be its creditors and not its masters, and this is the *role* which fortune appears to be assigning, upon the whole, to American railroad bondholders.

The great railroad companies of the United States are also profiting materially from the extremely abundant crops of wheat, cotton, and maize with which nature has blessed the Republic in 1879. Never probably have such crops of wheat and maize been coaxed out of the soil of the United States as those secured this year. Never has Jonathan rejoiced in such fabulous abundance, and to make matters still better for him, Europe and Great Britain have suffered from a harvest of such an indifferent character that a better price than usual is now being obtained for American wheat upon European and British markets. As American wheat cannot be made available for foreign consumption until it is brought down to the seaboard, a lucrative and considerable traffic is being obtained by the great American lines this winter from the movement of grain. During the last four months, the revenue of the great lines centering at Chicago—such as the Chicago and Northwestern; the Chicago, Burlington and Quincy, and the Chicago, Milwaukee and St. Paul—has especially benefitted from this cause.

The revival of trade throughout the United States—an almost necessary consequence of cheap money and abundant crops—has an obvious tendency to increase the prosperity of American railroads. So obvious, indeed, is this tendency that we need not farther insist upon it. Then the census of the population which will be taken in 1880 is expected to exhibit an aggregate of nearly 50,000,000 souls; and, of course, the denser the population of the American Union becomes, the better for the American railroad interest. Even now, considering the enormous area of the United States, their population must be regarded as comparatively scanty; still the colonization and settlement of the immense territory of the American Republic is advancing with rapid strides, and lines which are comparatively profitless now may be expected to become valuable properties in the course of the next 10 or 20 years.

A great deal, of course, depends upon sound and honorable management. However inherently good a company may be, unless there is honor and prudence at head-quarters there can never be dividends for the shareholders. Wild competition, watering of stock, extravagant extensions, ill-considered amalgamations, and unprofitable leases will damage the prospects of the soundest railway property on this side of the Atlantic, and must have the same consequences also in the United States or in any other country in which they are permitted to produce their pernicious fruits.—[Herapath's Railway (and Commercial) Journal.

American Steel Rails.

The American Iron and Steel Association, to show the good character of American Steel rails, has published the statistics kept by the Pennsylvania Railroad of the life of steel rails in a series of tables. Table 1 shows that of 92,671 tons of American steel rails laid on the Pennsylvania Railroad west of Philadelphia between 1868 and 1878 only 6-26 per cent. have been removed. Table 2 shows that of 47,208 tons of rails made by the Pennsylvania Steel Company and laid on the Pennsylvania Railroad between Philadelphia and Pittsburg from 1868 to 1878 only 5.38 per cent. have been removed; and of 6,629 tons laid down from 1875 to 1878 not one rail has been taken up. Table 3 shows that of 16,037 tons of American steel rails laid on the Pennsylvania Railroad between Philadelphia and New York from 1873 to 1878 less than one-fifth of 1 per cent. have been removed. Table 4 shows that of 14,552 tons of English steel rails laid on the Pennsylvania Railroad west of Philadelphia from 1864 to 1871 16.27 per cent. have been removed. The general statement is made that the English steel rails first laid down have worn better than those laid down afterwards, and that the quality of the American steel rails has steadily improved; also that the American steel that has worn out has worn faster than the English steel, or, in other words, that the poor American steel was poorer than the poor English. But it is at the same time declared that the best American steel is better than the best English. On the Philadelphia, Wilmington, and Baltimore Railroad, the great route of travel between the North and Washington, the report is made that the American steel rails have worn fully as well as the foreign steel rails laid down at the same time.

Quicksilver Mining Co.

The validity of the preferred stock of the Quicksilver Mining Company was affirmed in September by the Court of Appeals. This stock, amounting to $4,291,800, is entitled to 7 per cent interest out of the net earnings of the company since 1870. In a recent hearing, under this decree, to determine the number of back dividends now due, the secretary of the company testified that the earnings had been as follows:

1870	$220,590 46	1875	$112 895 59
1871	108.223 07	1876	350,230 34
1872	307,657 95	1877	255,517 66
1873	323,966 29	1878	55,119 50
1874	357,575 67		
Total			$2,091,776 53

This is an average for the nine years of about 5⅛ per cent on the preferred stock. During a great part of the time, however, the company paid interest upon $1,500 000 of bonded debt, and without this payment it would have earned more than 7 per cent on the preferred stock. The funded debt has since been paid, and the company has now no debts of any kind.

The decision of the Court of Appeals is final. A distinct suit was brought in the United States Court by a non-resident, but if brought to trial it is believed that the decision will be in accordance with that of the highest court of the State.

A suit was begun in the Supreme Court on the 24th ult. against the company for the recovery of the back dividends on the preferred stock. The company in 1870 issued this stock, agreeing to pay, from the earnings of the company, interest at the rate of 7 per cent, on May 1, 1871, and annually thereafter. The present suit has been brought in behalf of owners of the preferred stock of record on that date and on May 1 of every year since its issue, upon the ground that the company was indebted to them at such times 7 per cent of such amount as it had earned.

Tehauntepec Railroad.

Martin Van Broecklin, late chief engineer of the Metropolitan Elevated Railway, William J. McAlpine, and Mr. Scott, of the engineers, who are to superintend the construction of the interoceanic railway from the Atlantic to the Pacific, at the Isthmus of Tehauntepec, sailed on the 27th ult. on the new Havana steamship City of Alexandria. Upon reaching Vera Cruz they will take a coast wise steamer for Minititlan, on the Goatzacoalos River, and expect to find on their arrival a force already at work near the mouth of the river.

The length of the road from ocean to ocean will be about 150 miles, the Atlantic terminus to be in about latitude 16° north. The first 100 miles from the Atlantic side will be through an undulating country, well watered and wooded, and free from all tropical fevers. With the exception of about twenty-five miles on the Pacific side, there will be no engineering difficulties to encounter. No tunnelling will be required. By the terms of the contract the first forty miles of the road are to be completed by October next, and it is expected that three years will pass before the entire road is in operation. The labor will be mostly performed by negroes brought

from Jamaica and New Orleans, but native and Chinese labor will be utilized as far as possible. Mr. McAlpine and Mr. Van Brocklin propose to make a complete reconnoisance of the entire line of road between the termini, going over the ground on horseback and camping out.

Richmond and Alleghany Railroad.

At a meeting of the stockholders of the Richmond and Alleghany Railroad Company, held at Richmond, Va., on the 22d ult., the following gentlemen were elected directors: John C. New, Indianapolis; Cyrus H. McCormick, Chicago; Hugh McCullough, New York; J. H. Bartholemew, Hartford, Conn.; James B. Houston, New York; Samuel Shethar, New York; James G. Blaine, Augusta, Me.; John P. Jones, Nevada; Henry Miller, Columbus, Ohio; H. C. Parsons, Richmond. Hon. John C. New will be president of the company. The Richmond Dispatch says it is understood that Mr. H. C. Parsons will be vice president, and Mr. H. D. Whitcomb consulting engineer. The road extends from Richmond to Clifton Forge, connecting at that point with the Chesapeake and Ohio Railroad, which is now in process of construction westward to Cincinnati. This new connection is to be pushed forward rapidly, and it is claimed for it that it gives a route to the seaboard the maximum grade of which is less than thirty feet to the mile through the whole distance from Cincinnati to deep water.

Is the Santa Fe to adopt the 32d Parallel Route?

The suit between the Atchison, Topeka and Santa Fe and the Denver and Rio Grande Railroad Companies for right of way through the Arkansas River Canyon, which was decided last fall in favor of the latter, is likely to be renewed again over the disputed right of way in the valley of the Rio Grande, where both roads have strong engineering and surveying parties upon the ground, both endeavoring to get their route staked out ahead of the other from Albuquerque to Mesilla, a distance of 240 miles, when the line of the Southern Pacific is reached. From this it is inferred that the 32d parallel route is to be adopted by the Santa Fe people in preference to the more difficult and mountainous route by the 35th parallel. The distance will be but a trifle more by the 32d parallel, as the undulations and detours are sufficiently less to make the route about equal in length while less expensive to build.

Boston Dividends.

The dividends and interest payable in Boston in January aggregate $13,649,734, of which the railroads pay $1,874,375 and manufacturing companies $888,240 for dividends, for interest on bonds $10,511,764, and for miscellaneous $380,355. In the railroad dividends the changes are not very material. The Boston and Lowell increases from 1 to 2 per cent ($10 per share of $500), and the Providence and Worcester 2½ to 3 per cent. The Burlington and Missouri and Republican Valley make extra dividends of 2½ per cent "from sales of unpledged lands." The Granite Railway resumes after a lapse of some years. The Old Colony having passed two dividends to pay losses by the accident of October 8, 1878, resumes, and will pay 3 per cent January 1. The manufacturing interest is looking better, as indicated by the net profits. Ætna increases from 3 to 5 per cent, Androscoggin 3 to 4, Atlantic 3 to 4, Douglass Axe 0 to 2, Dwight 4 to 4, Manchester 5 to 6, Newmarket 3 to 5, Pacific 8 to 10, Salmon Falls 2 to 3 per cent, and Washington resumes after passing twice. Waumback reduces from 4 to 3 per cent. The Middlesex has paid four dividends within the year—4 per cent March 1, 6 per cent June 23, 4 per cent October 1, and 5 per cent December 22.

British Trade and Social Statistics.

Geo. Badeau, United States consul general at London, has transmitted to the Department of State two annual reports, one showing the trade of London and one showing the trade of the United Kingdom. A study of these reports, says Gen. Badeau, discloses the fact that a change for the better has recently occurred in the trade of the United Kingdom, indicated by a renewed American demand for British manufactures, especially of scrap and railroad iron; a distinct increase in the last few months of exports generally; rising prices in the wholesale markets, and a decided change in the return of railroad traffic. The total number of emigrants in 1878 was 112,902; one-half to the United States, one-third to Australia and New Zealand, and one-tenth to British North America. The total number of poor in receipt of relief on the 1st of January, 1879, in the United Kingdom was 98,694. There was an increase in Ireland and a decrease in Scotland. In the primary schools there was an increase of 30,000 pupils in 1878. The total expenditures for schools by the government was $13,667,020.

☞ The Pennsylvania Railroad Company have determined to pay off and cancel their first mortgage bonds due December 31st, 1880, $5,000,000; their first mortgage navy yard bonds due January 1st, 1881, $1,000,000, and Philadelphia and Erie first mortgage bonds due April 1st, 1881, $5,000,000. Holders may exchange their bonds at par and accruing interest to maturity for the company's consolidated mortgage 5 per cent gold 40 years' sinking fund at 98½ and accruing interest to the same date. The bonds, which may be had in either registered or coupon form, are free from taxation by the United States and State of Pennsylvania, and have principal and interest payable in gold.

☞ The Attorney General of Pennsylvania has decided that the loans and bonded indebtedness of corporations are liable to the tax of four mills imposed by the revenue law, and that it is the duty of the officers to deduct the tax from the interest due on such loans and pay it into the State treasury, unless the bonds are held by non-resident holders, whom, the Supreme Court has decided, are exempt from taxation. Under this decision the revenues of the State will be largely increased.

☞ By the extension of the Pawtuxet Valley (R. I.) Railroad from the village of River Point to the village of Pontiac, which the directors are confident will be open with the beginning of the new year, the business of the north branch of the Pawtuxet, instead of seeking a union with the New York and New England Road at River Point, as now, is brought down to Pontiac, and thence over the newly constructed Pontiac branch to the Stonington Road at Auburn. The new route will be equipped and operated by the Stonington Railroad Company, under a five years' lease.

Houston and Texas Central Railway.

The Houston and Texas Central Railway furnishes the following comparative statement of earnings and expenses for the months of November, 1878 and 1879:

	1878.	1879.
Earnings	$408 182 62	$429,803 46
Exp. (including taxes)	147,186 86	158,321 70
Net	$260,995 76	$271,481 76
Inc. in gross earnings (5.31 per cent).		$21,670 84
* Increase in expenses, (7.60 per cent)		11,184 84
Gain in net earnings, (4 per cent)		$10,468 00

* Ten thousand one hundred and twenty-three dollars is for excess of new rolling stock, steel rails, and cross ties.

Grand Trunk Railway of Canada.

The gross receipts, working expenses, and net profit of this road for the month of October, 1879, was as follows:

	1879.	1878.
Gross receipts	£193,435	£181,976
Working expenses	126,766	125,516
Net profit	£66,669	£56,460

—showing an increase in receipts of £11,459, in expenses of £1,250, and in net profits of £10,209.

The aggregate for four months from July 1 to Oct. 31, 1879, was as follows:

	1879.	1878.
Gross receipts	£641,358	£619,899
Working expenses	470 098	467,245
Net profit	£171,260	£152,654

—showing an increase in earnings of £21 459, in expenses of £2,853, and in net profit of £18,606.

☞ The directors of the Boston, Hoosac Tunnel and Western Railroad Company, elected on the 23d ult., are: Wm. L. Burt, Boston, Mass; Frederick L. Ames, North Easton, Mass.; F. Gordon Dexter, Beverly, Mass.; George R. Blanchard, New York, N. Y.; Elish Atkins, Boston, Mass.; Oliver Ames, North Easton, Mass.; John B. Alley, Lynn, Mass.; John W. Candler, Brookline, Mass.; Solomon S. Gethrie, Buffalo, N. Y.; Geo. I. Post, Fairhaven, N. Y., A. A. Gaddis, Boston, Mass.; Coe F. Young, Honesdale, Penn., John R. Brewer, Hingham, Mass. With the exception of Oliver Ames, who takes the place of ex-Gov. Claflin, the board will remain the same as the old one.

☞ Six cargoes, with 6,954 tons of iron ore, pig iron and old rails, entered at the Baltimore custom house on the 24th ult. The ore came from Algeria and Ella in the Mediterranean; the pig iron and rails from Great Britain.

☞ Albert B. Chandler has been elected President of the Atlantic and Pacific Telegraph Co., in place of Gen. Thomas T. Eckert resigned.

☞ The survey has been commenced for a railroad between Sea Girt and Point Pleasant for a railroad, to form a junction of the Freehold and Jamesburg Railroad with the Central New Jersey at Sea Girt. The proposed line is to cost $200,000.

Pennsylvania Railroad.

The following statement of the business of all lines of the Pennsylvania Railroad Company east of Pittsburg and Erie for November, 1879, as compared with the same month in 1878, shows:

An increase in gross earnings of..... $135,896
An increase in expenses of..... 179,697

A decrease in net earnings of..... $43,801

The eleven months of 1879, as compared with the same period of 1878, show:

An increase in gross earnings of..... $2,184,916
An increase in expenses of..... 1,645,237

An increase in net earnings of..... $489,679

All lines west of Pittsburg and Erie for the eleven months of 1879 show a surplus over liabilities of $1,868,215, being a gain over the same period in 1878 of $847,207.

Statement of the Public Debt of the United States, December 1, 1879.

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $13,520,246 44; balance of interest paid by United States, $30,192,204 14.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 29, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Columbus, Chicago and Indiana Central Railway.

In the United States Supreme Court at Washington on the 24th ult., Associate Justice Harlan handed down his decision in the case of the Columbus, Chicago and Indiana Central Railway Company. The decision makes the rental due by the Pennsylvania Railroad Company about $2,600,000. Referring to this decision, the Philadelphia Evening Telegraph says:

"Justice Harlan has heard and decided the case as a judge of the Circuit Court for the seventh circuit, and not as a justice of the Supreme Court. His decision of the case, is therefore, not final; and upon inquiring at the Pennsylvania railroad office here it was ascertained that not only had this adverse decree been anticipated, but that it had been arranged at once to carry an appeal to the United States Supreme Court for a definitive adjustment of the issues between the two roads. It was further stated by the officers that the party involved in this litigation is not, strictly speaking, the Pennsylvania Railroad Company, but the Pennsylvania Company, a corporation originated by the former for the purpose of operating its leased lines west of Pittsburg. It is difficult to separate the identity of the two companies, for the officers of one are the directors of the other, except to say that they are bodies having distinct functions."

American Railroad Journal.

Financial and Commercial Review of the Year.

WEDNESDAY EVENING, December 31, 1879.

The markets of the past week have all been of a Holiday character, with a small volume of business and no material change in prices, though on the Stock Exchange there has been an advance of 2@3 per cent., which was partially lost at the close. The money market has worked closer at 7 per cent. and 1-10@1-16 bonus by reason in part of the amount of about $5,000,000 shipped to Chicago by Mr. Keene to pay for the wheat and lard to be delivered to him in that market on January contracts, and in part by the withdrawals from January disbursements, estimated at about $50,000,000. The last bank statement shows the effects of this drain upon them in a surplus reserve of only $212,350. This is due to the wholly unusual movement of money to the interior at this time of the year, instead of which some $85,000,000 before sent ought now to be returning except for the speculation noted.

Produce markets have been about steady until near the close, when they weakened in anticipation of heavy January deliveries on contract of the bulk of the enormous stocks of nearly all kinds held on speculation. In reviewing very briefly the course of the different markets and the condition of the different interests covered by this column, the stock market naturally comes first in volume of transactions and enhancement of values. Without exception the past year has been the greatest in stocks since the organization of the New York Stock Exchange, and far eclipses 1876, its counterpart, and the next greatest year

in stocks. The results, however, are far different to the country and are a measure of its combined prosperity and bull speculation, as 1876 was a guage of its depression and bear speculation. As a result the banks have had a good year, and are paying good dividends, with few losses to charge to profit and loss, and the brokers have had a golden harvest.

The money market has been a more important factor than usual in Wall street and throughout the country. Commencing with the first of 1879, resumption of specie payments was effected and has been successfully carried to the end of the year without a hitch or a hindrance, thus removing the hitherto uncertain basis of values. Hence with the close of the year the country is safely past this experimental test, as it was regarded by many. The most important auxiliary in the consummation of this result was the enormous importation of specie, such as the country has never seen, and may never see again, amounting to about $85,000,000 for the year. This was due to crops the most abundant at home and the most deficient abroad before known, and hence, not withstanding our large increase of imports of merchandize and especially of iron, Europe has been compelled to pay us gold for breadstuffs. Hence our exports of food supplies have been on an unprecedented scale. From these conditions it naturally follows that the agricultural interests of this country are in an unusually prosperous condition, and able to buy of both necessaries and luxuries of life to replace the depletion of the past few years. This in turn has set the textile and other manufactories of the country all into active motion; and the manufacturing interests have, therefore, had a good year with another before them. This renewal of industrial pursuits has increased the demand for raw material and labor, and hence the producers of all commodities from the earth or from the products thereof have had an active and prosperous year, and the laboring classes employment that was steady though not highly remunerative, as wages and real estate are always the last to rise as well as to fall. The effect of all these other forces, however, is beginning to be felt by these two interests, and another year will no doubt produce materially beneficial results. All these influences, thus put in motion naturally created such increased traffic in the transportation interests of the country that they were found unprepared, after six years of retrenchment, to accommodate this immense increase. Hence, after running for the first half of the year at the lowest rates of freight ever known, the railroads and shipping interests found themselves suddenly the masters of the situation, and from ruinous competition for traffic enough for half their carrying capacity, they found themselves in August overwhelmed with more freight than they could move. New rolling stock was then ordered by the railroads, until all the manufacturers of railroad supplies in the country found themselves contracted ahead in their productive capacity far into 1880. This in turn led to increasing their productive facilities, and forthwith the iron interests sprang into such activity as had not been seen in nearly ten years until most every idle furnace was started and we were compelled to import from Great Britain 400,000 tons more than for last year. Then the building industries followed the iron revival and the coal interests followed both until the whole industrial machinery of the country was not only set in motion, but taxed to its utmost to supply these demands, except coal and provisions the production of which has been lately curtailed. But coal and provisions were the only important articles that were produced in excess of demand. But speculation in these as in other staples of commerce set in and helped out legitimate demand and tent up prices of both in about the same proportion as for other articles.

The same was true of Cotton and most other staples of commerce, while the unusual demand for breadstuffs led to a great combination to control the stocks of the country, which are now held as other export staples are and have been for two months past above export markets. This has resulted in immense accumulations at the interior, and especially at seaboard points, until the storage capacities of the country are taxed to hold them. On the other hand the ocean shipping interests have suffered severely by this locking up, until rates of ocean freights have run down to the lowest points known in years under a heavy accumulation of tonnage which had been called here from all parts of the world by the high rates of freight and active demand for accommodation all through the autumn months. The railroads do not yet appear to feel the effects of this lock out of the speculators, because most of the latter are in the East and are bringing their stocks to the seaboard where costs of storage, insurance and interest are less than at interior points. This completes the more important interests of the country, and includes all but the fire insurance and mining interests, which appear to be about the only ones left out in the general prosperity. While everything speculative and non-speculative has been "booming," mining stocks—the most speculative of all—have seen the worst depression known in their history.

This has been due to special causes arising in the new constitution of California, designed to kill out stock speculation by stopping after January 1st, 1880, the dealings in stocks on margins. The great speculators and risk investors thus were the only buyers of the immense amounts held in California on margin, and they concluded to so run the mines, which they controlled, as to get these stocks at the lowest possible prices, and they have succeeded. After January 15th, therefore, this interest is promised a revival, and the market for the past week seems to indicate better times. Losses of the Fire Insurance companies have been very great the past year on low rates, aggregating in the United States and Canada over $83,000,000, against $20,000,000 last year.

The closing quotations on Wednesday were: Adams Express, 105⅛@106; American Express 57⅛@58⅛; Atlantic and Pacific Telegraph, 42⅛@43; Canada Southern, 66@66⅛; Central of New Jersey, 80¾@81; Chesapeake and Ohio, 18⅛@19; do. 1st pref., 28¼@29⅛; do. 2d pref., 22@23⅛; Chicago, Burlington and Quincy, 125@127; Chicago and Alton, 99⅛@100; do. pref., 120@125; Chicago and Northwestern, 90¾@90⅞; do. pref., 105¼@105⅛; Chicago, Milwaukee and St. Paul, 75¼@75¾; do. pref., 100@100⅛; Chicago, Rock Island and Pacific, 147¾@148½; Chicago, St. Paul and Minneapolis, 47@47⅛; Columbus, Chicago and Ind. Cent., 20⅛@20¾; Delaware and Hudson Canal, 74@75; Delaware, Lackawanna and Western, 83¾@83⅞; Erie, 42¾@42⅞; do. pref., 69@70; Hannibal and St. Joseph, 33⅛@34; do. pref., 63⅛@64; Illinois Central, 99¼@99⅛; Kansas Pacific, 84@87; Lake Shore and Michigan Southern, 100@100¼; Michigan Central, 89¼@89⅛; Morris and Essex, 102@102¼; Manhattan Railway, 54@54¼; Metropolitan Elevated, 119½@121; New York Elevated, 124⅛@126; N. Y. Central and Hudson River, ——@129⅛; New York and Harlem, 154@159; Northern Pacific, 32¾@32¼; do. pref., 56⅛@57; Ohio and Miss, 28⅞@29; do. pref., 57¼@58; Pacific Mail, 87¼@87¾; Panama, 167@170; Philadelphia and Reading, 71¾@71⅞; Quicksilver, 20@21; do. pref., 61¾@62⅛; St. Louis and San Francisco, 40⅞@41; do. pref., 49¼@50; do. 1st pref., 67@69; Union Pacific, 84⅞@85¼; U. S. Express, 48¼@49; Wells-Fargo Express, 104¾@105¼; Western Union Telegraph, 102⅛@102⅜; Wabash, St. Louis and Pacific, 42¼@42⅛; do. pref., 64¾@65.

The following quotations of sales of Railway and other securities, for the week, are in addition to those given elsewhere in our columns:

Philadelphia, Wilmington and Baltimore Railroad.

We have been favored with a copy of the 42d Annual Report of this Company, being for the fiscal year ending October 31, 1879, which is to be presented to the Annual Meeting of the Stockholders on the 12th inst. From this we learn that the earnings for the year of the Main Stem, Southern Division and Port Deposit Branch, are as follows: Passenger receipts, $1,541,049 95 ; freights receipts, $1,176,081 15 ; express receipts $64,834 64; mail receipts, $49,043 33 ; rents, $18,910 71 ; total $2,849,919 78. The expenditures amounted to $1,567,742 41, and two dividends of four per cent. each were paid during the year, amounting to $925,600, leaving a surplus to credit of the revenue for the year of $245,689 56. The passenger receipts in 1879 were less by 1.90 per cent. than in 1878, and the freight receipts more by 23.55 per cent. than in 1878, the increase being due partly to increased fruit traffic from the Delaware railroad and partly to the general revival of trade. The real estate of the company at Canton, Baltimore, is being rapidly improved, and the exchange of traffic between steamers and cars has been much facilitated by the building of a wharf. Mention is also made of the proposed transfer of the passenger and baggage cars of the Baltimore and Ohio railroad between Canton and Locust Point by means of a large ferryboat, which will be ready for use early next summer. Many improvements have been made along the line of road, such as the substitution of iron bridges for wooden ones, of stone ballast for gravel, of steel rails for iron rails, and the building of additional locomotives and freight cars. Appended to the report is a comparative statement of the fruit traffic of the road for thirteen years ended October 31, 1879, showing that during that time there have been carried 42,407 carloads peaches and 6,606 carloads berries, yielding a total revenue of $2,810,871 04.

Chesapeake and Ohio Railway.

At the annual meeting of the Chesapeake and Ohio Railway Company, held in Richmond, Va., on the 30th ult., 202,000 shares of stock being represented, the following board of directors was elected : C. P. Huntington, A. S. Hatch, A. A. Low, Elias S. Higgins, John Castree, Jesse Hoyt, A. E. Orr, Ezra Wheeler and Edward T. Tournier, all of New York, and William C. Wickham and John Echols of Virginia.

The report of President Huntington is encouraging, and speaks with confidence of the early completion of the western extensions of the road, and also of its extension to such a point on the waters of the Chesapeake as examination shall prove to possess the best water and harbor facilities. Vice President Wickham's report shows that the total earnings for the past fiscal year were $1,891,542 ; the operating expenses, $1,507,333 ; the earnings over the operating expenses, $384,209.

☞ The gross earnings of the Philadelphia and Erie Railroad for the month of November, 1879, were $273,167 98, the expenses $162,718 56, and the net earnings $110,449 42.

Burlington and Missouri River Railroad.

The earnings, expenses, etc., of the Burlington and Missouri River Railroad for the month of October were as follows:

	1878.	1879.
Gross earnings	$307,581	$346,432
Expenses	53,369	53,809
Net earnings	$249,212	$292,623

—showing an increase in earnings of $38,851, with a decrease in expenses of $4,560, making the increase in net earnings $43,411.

From January 1, to October 31, the earnings, expenses, etc., were:

	1878.	1879.
Gross earnings	$1,553,677	$1,793,702
Expenses	503,642	574,433
Net earnings	$1,050,035	$1,219,269

—showing an increase in earnings of $240,025, in expenses of $70,791, and in net earnings of $169,234.

New York, Lake Erie and Western R. R.

The earnings of this road for the years ending September 30, 1878 and 1879, including all branches and leased lines, have been as follows:

	1878.	1879.
From passengers	$3,070,121 02	$3,118 943 75
" freights	9,808.010 32	9 049,269 62
" coal	2,106,479 40	3,184,211 37
" express	366,025 49	321,033 98
" mails	170,778 63	162,569 24
" rents	27,557 96	25,511 57
" miscellaneous	96,005 27	80,483 05
	$15,644,978 09	$15,942,022 58
Expenses, viz:		
Conducting transp.	$4,364 879 32	$4,623,862 92
Motive power	3,025,243 15	3,213,384 27
Maintenance of way	2,064,992 16	2,158,931 46
Maintenance of cars	763,272 90	784,913 30
General expenses	417,976 14	393,607 00
	$10,635,863 67	$11,174,698 95
Allotted to—	1878.	1879.
Passenger transp	$2,376,049 58	$2,377 461 72
Freight transp.	8,259,814 09	8,797,237 23
	$10,635,863 67	$11,174,698 95
Net earnings	$5,009,114 42	$4,767,323 63

There was a decrease in earnings from general freights $758,740 70; from express, $44,991 51; from mails, $8,209 39; from rents, $2,046 39; and from miscellaneous, $15,522 22; while there was an increase from coal of $1,077,731 97; and from passengers of $48,822 73—making the total increase in earnings $297,044 49, or 1.9 per cent The increase in working expenses (of which $1,412 14 is allotted to passenger transportation, and $537,423 14 to freight transportation) amounted to $538,835 28, or 5.07 per cent, making the decrease in net earnings $241,790 79, or 4 8 per cent.

Net earnings from traffic	$4,767,323 63
To which add earnings from other sources, including $24,183 44, net profit growing out of the transactions of the Receiver of the Erie Railway	437,445 97
	$5,204,769 60
From which deduct interest on funded debt, rentals of leased lines, and other charges	3,888,664 75
Leaving a net profit from the operations of the year of	$1,316,104 85

This amount, together with $2,036,109 22, received during the year from the assessments paid on the stock of the Erie Railway Co., has been applied to the improvement of the road and property. The President, in his report, says:

The increase in earnings is not in proportion to the increased business done, owing to the low rates prevalent during the year; neither is the increase in expenses in proportion to such business, owing to the decreased cost of operating per unit of traffic.

The freight carried, as compared with 1878, shows an increase of 28 per cent, whilst the increase in the earnings therefrom was but 2.7 per cent.

The ratio of expenses to earnings increased from 68 per cent in 1878 to 70 per cent in 1879.

The cost per ton per mile for moving freight was but 0.56 of a cent, being less than ever before known in the history of the road.

If the average rates for the transportation of freight for the year 1879 had been equal to those of 1878, the earnings, calculated on coal and merchandise separately, would have been $2,621,583 59 more than was realized.

The rates of 1878 were regarded as extremely low, indeed, lower than any one had reason to suppose would again prevail for any considerable period of time. But during the greater part of 1879 a much less average rate was forced upon us; and, consequently, notwithstanding the fact that we did a largely increased business, our earnings were but slightly augmented.

These remarks apply to the general freight business of the company. But the carrying of coal is so large an item in our transportation that the disorganization in that business, and the extremely low rates at which we had to handle it, operated very unfavorably upon our earnings, and was one the leading factors in producing the results of the year.

There is every reason for believing that the differences which have existed between the coal companies will soon be satisfactorily and finally adjusted, and that, hereafter, that branch of business will be placed upon a more permanent and profitable basis.

It is believed that the arrangements now made for the establishment of rates upon general freight, and for the adjustment of differences which may arise between the various companies, will result in the fixing of prices for transporting freight upon such a basis as will be permanent, and more satisfactory to the railroads as well as to the public.

If these reasonable anticipations are realized, even without an increase of traffic and without any further economies in operating the road, your board feels fully justified in expressing the opinion that the company will be able to meet its fixed charges and other obligations. With the improvements, however, which have been and are being made, fully completed, there is no reason to doubt that for the future we will have a largely increased traffic, and that the road can be operated at a largely reduced percentage of expenses.

CAPITAL STOCK.

The capital stock of this company, fixed by its articles of association, is as follows:

Common stock	$78,000,000
Preferred stock	8,536,900
	$86,536,900

Under the plan of reorganization, forming part of its articles of association, the capital stock of this company was to be issued in exchange, at par, for stock of the Erie Railway Co., provided that the holders of such last-named stock should assent to such plan by paying an assessment upon their shares.

Up to the 30th September, 1879, these assessments had been paid upon the following amounts of stock:

Common stock	$77,107 700
Preferred stock	8,146,700
	$82,254,400

Of this, there has been issued in exchange for stock of the Erie Railway Co.:

Common stock	$24,997,100
Preferred stock	2,151,700
	$27,148,800

And there is held, waiting exchange:

Common stock	$52,110,600
Preferred stock	5,995,000
	$58,105,600

There are still outstanding 3,902 shares of preferred and 8,923 shares of common stock, making a total of 12,825 shares, the holders of which have failed to pay their assessment, or otherwise assent within the terms prescribed.

FUNDED DEBT.

The property of the Erie Railway was purchased by this company, subject to all pre-existing mortgages or liens to that upon which the sale was made, and it has to provide for all such in the same way and to the same extent that it would have to do had they been created by it.

Hence, it became necessary during the year to deal with the second mortgage bonds, which, by the terms thereof, matured and became payable September 1, 1879. These amounted to $2,174,000, and bore interest at the rate of seven per cent per annum. The company proposed to the holders to extend the mortgage for a term of forty years, reducing the rate of interest to five per cent per annum, which proposition has been acceded to by holders to the extent of $2,109,000. We have no reason to doubt that the few outstanding will accept the same arrangement, in which event the reduction in interest will amount to $43,480 per annum. Such holders as do not assent to the proposed extension will be paid the principal of their bonds, and to that extent the lien of this mortgage will be reduced.

At the date of the last report, $460,000 of the first consolidated mortgage bonds were outstanding, the holders thereof not having assented to the plan of reorganization. Of this number, $217,000 have assented during the present year, which involves the issuing for the coupons on these bonds, first consolidated funded coupon bonds, thus increasing the amount of such coupons from $3,615,444 40 to $3,688 001 01, upon which latter amount the entire interest has been charged for the year.

Since our last report the holders of all the second consolidated mortgage bonds, as well as of the convertible bonds, have assented to the plan of reorganization. Of the new second consolidated mortgage bonds of $25,000,000 the amount outstanding has, therefore, increased from $24,180,000 to $24,400,000, and the second consolidated funded coupon bonds have increased from $8,520,651 29 to $8,597,400, on which latter amount the interest has been charged for the year.

The funded debt as now ascertained (upon the supposition that the entire issue of the second mortgage bonds will be extended), is as follows:

First Mort bonds (N. Y. & Erie)	$2,482,000 00
Second Mort. bonds " ..	2,174,000 00
Third Mort. bonds " ..	4,852,000 00
Fourth Mort. bonds " ..	2,937,000 00
Fifth Mort. bonds " ..	709,500 00
Buffalo Branch Mort. bonds (N. Y. & Erie)	182,600 00
Consolidated Mort. bonds (Erie Railway)	16,656,000 00
First consolidated mort. funded coupon bonds (N. Y. L. E. & W. R. R)	3,688,001 10
New second consolidated mort. bonds (N. Y., L. E. & W. R. R.)	24,400,000 00
Second consolidated funded coupon bonds (N. Y., L. E. & W. R. R.)	8,597,400 00
Total, as far as ascertained, to Sept. 30, 1879	$66,678,501 10

The above does not include the income bonds, amounting to $508,008, which have been and are to be issued to parties who have assented to the plan of reorganization by paying six dollars per share on the common, and three dollars per share on the preferred stock of the Erie Railway Co. Neither does it include the prior lien bonds, amounting to $2,500,000, which have not yet been issued, and which we are hopeful it will not be necessary to issue.

ASSESSMENT FUND.

The assessment paid upon the stock, as stated in our last report, amounted to $3,416,678, the entire amount of which, less that retained by the London Trustees for the payment of the expense attending the collection of and accounting for such assessment, and otherwise conducting the reorganization plan, was deposited by the trustees with the Farmers' Loan and Trust Co. subject to the order of this company.

Of this amount this company received during 1878.....	$328 008 96
During 1879.....	2,036 109 22
Total amount received.....	$2,364,118 18

And has applied to the payment of improvements to the road and its equipment, $2,263,218 75 as follows:

On account of third rail previous to September 30, 1878.....	$205,624 70	
In the year ending September 30, 1878..	1,001,804 50	
Second track.....	491,860 28	
Thirty eight locomoti'es	313,500 00	
Two car floats.....	25,880 00	
Engine house and machine shop, Buffalo.	67,071 05	
Engine house, Bergen.	19 698 30	
Grain Elevator, Buffalo	89,870 00	
Ship Basin and Docks, Jersey City.....	17,909 93	
Miscellaneous.....	29,999 99	
		2,263,218 75
Balance on hand, Sept. 30, 1879		$100 899 43

THIRD RAIL.

The laying of the third rail was completed December 24, 1878, by which means we have a standard gauge of 4 feet 8½ inches between Jersey City and Buffalo and the International and Suspension Bridges.

SECOND TRACK.

There have been laid 65 additional miles of second track, thus giving us an unbroken line of double track from Jersey City to Burns, a distance of 839¼ miles. Forty additional miles of second track will be speedily laid, and, with this done, the road will be entirely double tracked from Jersey City to Buffalo, with the exception of seven miles on the Buffalo Division, the grading for which will be completed and the track laid early in the spring.

EQUIPMENT.

The agreement with the Car Trust of New York and others for equipment, provides that the title to the cars vests in the respective companies until the final payment.

The amount which has been paid on this account up to September 30, 1879, is $160,645 85, as appears in the balance sheet accompanying the report of the Auditor.

In addition to the cars which have been heretofore purchased through the agency of the Car Trust, arrangements have been made to purchase 3,000 additional cars, they being greatly needed to accommodate the constantly increasing demands of the traffic of the road.

The necessities of the company for a largely increased equipment were manifest to every one having occasion to examine and consider the question. In the absence of cars of our own we had to rely largely upon those of other companies for the doing of the through business over our road, for the use of which cars we had to pay the customary mileage. To have purchased the number needed would have required a larger amount of cash capital than we were able to command. Hence, the resort to the Car Trust system, by which we were able to extend the time for payment over periods of five years, and in quarterly installments.

The wisdom of owning our equipment and of procuring it through the medium of the Car Trust is amply vindicated by the important fact that although we have had the benefit of these cars for but a comparatively short period, yet the debit balance against us on account of car mileage due to other companies has been already greatly reduced, and this reduction will continue in the ratio in which we further add to the number of our own car equipment.

The saving in this particular item of mileage will go largely toward paying for the cars purchased.

BRANCH LINES.

The lease of the Erie and Genesee Valley Rail road was abandoned by this company, and will not be resumed unless terms more equitable and just can be agreed upon.

The loss arising from the operation of the branch lines was reduced during the year $75,750 66.

The earnings and expenses of these lines are included in the general statement of the earnings and expenses of the main line.

Whilst there is a loss in operating these lines, as shown by the accounts, yet, if considered, as they should be, in connection with the main line, and with the traffic derived from them which the main line could not otherwise control, they are profitable to the company.

NEW ENGLAND CONNECTION.

There has been much more delay in the completion and opening of the Boston, Hoosac Tunnel and Western Road than was anticipated at the date of the last report. That company has been subjected to a long and tedious litigation, every means possible having been resorted to for preventing its securing the necessary rights of way and the necessary crossings of other and competing lines of road.

These legal impediments have all been overcome, however, and the company is now in possession of the entire line. The road will be opened for business during the current year.

This connection will be of great value to us. It supplies a want which this company and its predecessors have always experienced. It gives us access to all New England and will enable us to control a large traffic which heretofore we have had to decline. It will also enable us to bring from New England for distribution on the line of our own and connecting roads large quantities of manufactured fabrics.

In every respect it must add largely to our revenue and business.

TRAFFIC ARRANGEMENTS.

The most beneficial results may be expected from the experience of the past two years. It has been fully demonstrated that no one line can realize any permanent advantage by undertaking to secure to itself, by means of reduced rates and other inducements, traffic not legitimately belonging to it and beyond the proportion properly due to it. Temporary advantages may be gained, but they are always followed by retaliatory measures, which, in the end, prove disastrous not only to the railroad but to the commercial and business interests of the country.

Permanency in prices and regularity in the movement of traffic are as important to the public as to the roads, for upon them depend business arrangements and contracts all over the country.

These facts, and many others bearing upon the subject, have led to serious inquiry as to the best remedy for the evils of competition so long existing, and the result of such consideration is the arrangement which has been made between the trunk lines for a division of traffic, west bound, from all the seaboard cities, and the appointment of a Board of Arbitration to adjust and settle all questions as to such traffic or the rates thereon.

Since this arrangement has gone into effect, rates have assumed a degree of permanency not heretofore known, and since the appointment of the Board of Arbitration the differences and difficulties between the different lines have been harmonized and adjusted before the relations of the roads were seriously jeopardized or disturbed.

The public have been well served, and no complaints, so far as your board is advised, have been made with reference to the traffic covered by the arrangement, nor the rates for carrying the same.

The results of the experience with the westbound business have been so satisfactory that the subject has been taken up by the entire system of western roads, and they are moving rapidly in the direction of inaugurating a similar arrangement for a division of traffic, and the referring to the same Board of Arbitration of all questions of difference which may arise between them.

The length of the road from Jersey City to Dunkirk is 460 miles; from Hornellsville to Buffalo, 91 miles; branches, 377 miles—total length of road and branches, 928 miles.

Between Jersey City and Buffalo there were, at the close of the fiscal year, 362⅛ miles of double track, and 59⅛ miles of single main track—equivalent to 784⅛ miles of single track, of which 727⅛ miles are laid with steel rails, and 57 miles with iron rails. Between Hornellsville and Dunkirk, 77 miles of main track are laid with steel, and 52 miles with iron.

Of the 91 miles between Hornellsville and Buffalo, 44 miles are double track, leaving 47 miles of single track, the grading for 40 miles of which is in progress, and track will be laid as soon as the grading is completed; the remaining 7 miles will be filled in next year. The line has been relocated at two points on this division for the distance of two miles and four miles respectively, whereby the ruling grades will be reduced from 44 to 30 feet to a mile westward, and from 49 to 26 feet to a mile eastward, except each side of Attica, where for a distance of 2⅛ miles westward the ruling grade is 48 feet, and for 3 miles eastward it is 45 feet, and where it will be necessary to use pushers.

Of the 377 miles of branches (all with single track) 8 miles are laid with steel and 369 miles with iron. Since the close of the fiscal year the 12⅛ miles of unfinished second track of the Delaware division has been completed.

The total number of miles in main track and branches is 1,292, of which 812⅛ miles are laid with steel, and 479⅛ miles with iron.

In addition to the 65 miles of second track laid during the year, 23⅛ miles of side tracks were laid, and a third rail added in 385 miles of main track and 111⅛ miles of side track.

The third rail was completed to Jersey City in December, 1878, thus giving a continuous standard gauge of 4 ft. 8½ in. from Jersey City to Buffalo and International and Suspension Bridges.

The total number of miles laid with third rail on the 30th of September, 1879, was on main line: main track, 653.11; side tracks, 158.17; and on branches: main track, 206.20; side track, 71.06—total, 1 083 54, of which 840 miles are steel, and 243.54 miles are iron.

An undivided half of very valuable wharf property on Buffalo Creek has been acquired, and is

jointly owned by this company and the Lehigh Valley Railroad Company; and one half ownership of the Buffalo Creek Railroad has been bought, by the acquisition of which the company has access to its own and other extensive wharf and warehouse property on Buffalo Creek.

During the year 43 consolidation locomotives were added, and 14 condemned and broken up—making the total number added, 29. The total number of locomotives on the road at the close of the year was 504, of which 430 were broad gauge and 74 4 ft. 8½ in. gauge. As many as 80 new locomotives should be constructed to make good those that should be condemned, and at least 20 should be added to the present number.

The number of cars on the road is as follows: 229 first class passenger, 68 second class and emigrant, 3 inspection, 3 pay, 93 baggage, express and mail, 44 milk, 9,105 box freight, 355 box stock, 833 slat stock, 277 oil tank, 591 flat, 1812 gondola, 569 gondola dump, 3,363 8-wheel and 2,382 4-wheel coal, 56 8-wheel and 175 4 wheel caboose, 166 gravel, and 27 derrick and tool.

The number of miles run by trains is as follows: passenger, 3,192,618; freight, 8,467,847; switching, 2,301,504; other, 212,554—total, 14,-174,523, an increase over the previous year of 1,-457,940.

Number of passengers carried, 4,894,527; do. carried one mile, 149,115,718, an increase of 8,-788,969. Tons of freight carried, 3,802,314; tons of coal, 4,410,327—total tons, 8,212,641. Tons of freight and coal carried one mile, 1,569,222,417, an increase of 344,458,699.

Earnings per passenger per mile, 2.091 cents; expenses, 1.594 cents—net earnings, 0.497 cent. Earnings per ton per mile freight, 0 85 cent; do. coal, 0.64 cent—on all freight 0.780 cent; expenses, 0.561 cent—net earnings, 0.219 cent.

CONDENSED BALANCE SHEET, Sept. 30, 1879.

Construction—Main line	$548,381 19
Third rail—General account	228 344 40
Equipment	70,470 09
Real estate	124,926 80
Amounts expended out of the special fund for:

Morgan, Cortlandt Parker, John Frederick Pierson, Homer Ramsdell, Henry G. Stebbins, William L. Strong, J. Lowber Welsh.

General Manager.—ROBERT HARRIS.

Auditor.—S. LITTLE.

Boston, Hoosac Tunnel and Western R. R.

The Boston Journal, in noticing the formal opening of this road which took place at North Adams, Mass., on the 22d ult., says:

The project of building a secure and more direct railroad from the Tunnel to the Hudson River has long been looked upon as one likely to be undertaken. It is now but little more than two years since the organization was formed which has resulted in the construction of the road, the opening of which was yesterday celebrated. This road was organized with a capital of $10,000,000, and in November, 1877, awarded the first contract—for the construction of the iron bridge over the Hudson River at Mechanicville, and as at present completed, it extends from Mechanicville, N. Y., to North Adams, Mass., a distance of 45.98 miles. The stations and distances from Mechanicville are as follows:

	Miles.	Miles.
To Reynolds	4.37	4.37
Schaghticoke	4.57	9.94
Valley Falls	1.48	10.42
Johnsonville	2.93	12.35
Buskirk	4.88	18 23
Eagle Bridge	1.91	20.14
Hathaway	2.85	23.00
Hoosick Falls	1.81	24.81
Hoosick	3.31	28.12
Petersburgh Junction	1.90	30.02
Vermont State line (no station)	2.50	32.52
North Pownal	1.80	34.32
Pownal	2.65	36.97
Massachusetts State line	2.06	39.03
Williamstown	2.45	41.48
Blackinton	1.75	43.23
North Adams	2.75	45.98

None but the best of materials have been used, and no expense has been spared in making the new line to the Tunnel a safe one for travel. All the culverts and cattle guards are mainly constructed of marble, quarried at West Rutland, and of the best of iron. The rails are of steel, and were made at the Rensselaer works.

All the bridges, nine in number, are substantial iron structures, and were manufactured by the Phœnix Iron Company, of Phœnixville, Penn. These bridges are located over the Hoosac River in Vermont, one over the Walloomsac, one each at Valley Falls, Johnsonville, Schaghticoke, Tomhannock and two at Mechanicville. One of those at Mechanicville is 2,000 feet long and 70 feet above the bed of the river. It crosses two highways and the Champlain Canal. The structure at Tomhannock is on the site of the terrible accident on the Albany and Vermont road about twenty years ago.

On the 1st day of October, 1879, the Boston, Hoosac Tunnel and Western Railway Company had expended $2,400,000. The equipment of the road consists of 8 powerful locomotives, 10 first-class combination coaches, 500 first-class box cars, 150 stock cars, 100 coal cars, 42 flats, 66 construction cars, 5 cabooses, 1 tool car and 1 derrick car. Two passenger trains will be run daily, and connections made for Boston, Troy and Albany.

Employing the Rensselaer and Saratoga line from Mechanicville to Schenectady, and the Albany and Susquehanna thence to Binghamton, the new road taps the Erie. It has a 20-year contract with the Delaware and Hudson Canal Company, which controls the Albany and Susquehanna and the Rensselaer and Saratoga lines. The new road also has traffic arrangements for four years with the Fitchburg Railroad Company, which in turn controls the Massachusetts State or Tunnel route. Thus Boston has three trunk lines to the West, the Boston and Albany, the Troy and Boston and the Boston, Hoosac Tunnel and Western Railroads.

Philadelphia and Reading Railroad.

The Philadelphia and Reading Railroad Company have given orders for the construction, at the shops in Reading of 1,400 cars for the company's use, to consist of 400 coal cars and 1,000 freight cars. From every indication a very heavy coal traffic is anticipated. Additional rolling mills, forges, furnaces and other industries are getting into operation all along the company's lines, and the full resources of the road are required to meet them. The demand for coal for manufacturing purposes is reported to be largely in excess of that which is wanted for domestic uses at this time, a fact which is highly gratifying and encouraging to the general business community in that section.

☞ The Governing Committee of the New York Stock Exchange have admitted to the list the Columbus, Chicago and Indiana Central 7 per cent income bonds of 1870, $10,000,000. To be placed under the head of "income bonds," and to be a good delivery only after registry by the Gallatin National Bank; also the Iowa City and Western Railway Company first mortgage 7 per cent bonds, $456,000, guaranteed by the Burlington, Cedar Rapids and Northern Railway Company. To be placed on the regular list under the heading of Burlington, Cedar Rapids and Northern Railway bonds; also the Climax Mining Company, situated on Fryer Hill, Lake County, Col., Hon. David A. Wells, President; capital stock, 200,000 shares at $2 per share.

☞ In admitting the stock of the Climax Mining Company to the list of the New York Stock Exchange, the Governing Committee say that they express no opinion in regard to the amount of capitalization or the market price at which it should be quoted. They favored its admission because, first, after careful examination by counsel its title was found to be sound; second, it has

been regularly incorporated, and all the provisions of the laws of the States in which the property is located have been complied with; third, it appears to be a legitimate enterprise, as developments have been carried to such a point as to give reasonable assurance of continuance.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending December 20, as reported by the several carrying companies amounted to 509,855 tons, against 369,466 tons, the corresponding week last year, an increase of 140,389 tons. The total amount of anthracite mined for the year is 25,716,136 tons, against 16,674,902 for the same period last year, an increase of 9,041,234 tons. The quantity of bituminous coal sent to market for the week amounted to 54,256 tons, against 56,833 tons in corresponding week last year, a decrease of 2,577 tons. The total amount of bituminous mined for the year is 3,585,329 tons, against 3,319,423 tons for corresponding period last year, an increase of 215,906 tons. The total tonnage of all kinds of coal for the week is 564,111 tons, against 426,299 tons in corresponding week last year, an increase of 137,812 tons, and the total tonnage for the coal year is 29,260,937 tons, against 19,994,324 tons to same date last year, an increase of 9,266,613 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of December was 158,014 tons, of which 119,137 tons were coal, and 38,077 tons coke. The total tonnage for the year thus far has been 5,877,769 tons, of which 4,594,336 tons were coal and 1,283,433 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending December 20th were 51,094 tons, and for the year to that date 1,645,109 tons—11,285 tons less than in the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 43,141 tons, for the year 996,594 tons, an increase of 117,712 tons, as compared with 1878. The shipments to the Chesapeake and Ohio Canal for the week were 4,898 tons, for the year 499,052 tons, a decrease of 110,153 tons compared with last year. The shipments to the Pennsylvania Railroad were for the week 3,055 tons, for the year 149,463 tons, an increase of 3,725 tons as compared with 1878.—*Phila. Ledger, Dec.* 29.

☞ The Cincinnati Price Current says that arrangements have been completed for the construction of a road to be known as the Baltimore, Pittsburg and Chicago Railroad, which will run from Beaver, Pa., on the Pittsburg and Lake Erie Railroad to Chicago Junction on the Baltimore and Ohio Railroad, about 150 miles. This, in connection with the Baltimore and Ohio, will form a direct line from Pittsburg to Chicago. It is said that the Baltimore and Ohio Railroad is the principal promoter of this new line, and will use it in competition with the Pittsburg, Fort Wayne and Chicago to and from Pittsburg.

☞ The gross earnings of the Boston and New York Air Line Railroad for November were $22,220, the operating expenses $8,498, and the net earnings $18,722. The net earnings of the three months ending with November are stated at $45,549.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails**, and of any required weight and pattern.

The investigation of frauds on Railway Companies a specialty.

☞ A horse railroad corporation was organized at Fall River Mass., on the 24th ult., the directors being Cook Borden, Foster H. Stafford, Franklin P. Osboro, Isaac P. Francis, Samuel V. Biffins, H. K. Braley, George F. Mellen.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, Dec. 18, 1879.

DIVIDEND NO. 4.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Friday, January 2, prox., at the office of the company. Transfer books will close on Saturday, December 27, and reopen Saturday, January 3, 1880.

Statement of the financial condition of the company:

Cash capital		$100,000 00
November 1, 1879, balance surplus acc't.		32,566 80
December 1, 1879, net earnings for month of November	$26,733 85	
Less cash to construction acc't, new furnaces, ore sheds, etc.	8,648 85	
		18,085 00
		$150,651 80
Dividend of 7½ cents per Share, 200,000 Shares		15,000 00
Leaving cash balance December 1, 1879.		$135,651 80

W. B. ALLEN, Assistant Secretary.

OFFICE OF THE LEADVILLE MINING COMPANY, No. 57 BROADWAY, NEW YORK, Dec. 25, 1879.

DIVIDEND NO. 7.

THE BOARD OF DIRECTORS HAVE THIS day declared Dividend No. 7, of 1¼ Per Cent (15 cents per share) on the capital stock ($2,000,000) of this Company, out of the earnings for the month of December, payable at the office of the Company on and after January 10, 1880. Transfer-books will close January 5, and reopen January 12, 1880.

J. S. LOCKWOOD, Secretary.

OFFICE OF THE CENTRAL PACIFIC RAILROAD CO., No. 9 NASSAU-ST., NEW YORK, Dec. 27, 1879.

THE COUPONS OF THE FIRST MORTGAGE BONDS of the CENTRAL PACIFIC RAILROAD COMPANY, the WESTERN PACIFIC RAILROAD COMPANY, and the CALIFORNIA AND OREGON RAILROAD COMPANY, due January 1, 1880, will be paid in gold at the office of FISK & HATCH, No. 5 Nassau-st.

Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P. HUNTINGTON, Vice-President.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, Dec. 16, 1879.

A QUARTERLY DIVIDEND OF (2½ Per Cent) two and one-half per cent upon the capital stock of this company will be paid on and after the 2d day of January next, at the Central Trust Company, 15 Nassau-st., New York, to the stockholders of record on the 22d inst. The transfer books will be closed at 3 o'clock p. m. on the 22d inst., and reopened on the morning of the 3d of January next.

JOHN E. BODY, Treasurer.

METROPOLITAN ELEVATED RAILWAY COMPANY, No. 71 BROADWAY, NEW YORK, Dec. 16, 1879.

THE COUPONS OF THE HALF-YEARLY INTEREST on the First Mortgage Bonds of this company will be paid on and after the 2d January next at the Central Trust Company, 15 Nassau-st., New York. JOHN E. BODY, Treasurer.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

HARLAN A. PIERCE, Editor.

New York, Friday, January 9, 1880.

Product of Our Mines for 1879.

We are indebted to Messrs. Wells, Fargo & Co., for their annual statement of the product of the mines of the United States west of the Missouri River, British Columbia and West Coast of Mexico, which, as usual, is carefully compiled by the Superintendent of their San Francisco office, Mr. John J. Valentine. This is regarded as authority upon mining matters, and as Messrs. Wells, Fargo & Co. have become the New York transfer agents of a large number of mines the past year, they have made this year's report unusually complete. From this we learn that after all the talk of reduced product of our mines for 1879, there is only a deficit of $5,805,000. The falling off has been confined to the Pacific Coast mines, and especially to those of Nevada which have no doubt been worked more for development and less for dividends the past year, than usual, owing to the condition of the San Francisco mining stock market, in view of the new constitution which went into force in California on the 1st of January.

This deficit was $13,184,000 in Nevada, the product being $8,831,000 in 1879, against $21,295,000 in 1878, while Colorado shows over $8,000,000 increase, owing to the rich discoveries in Leadville. Dakota shows an increase of nearly $1,000,000; Utah a falling off of nearly $600,000, and California of $713,000. The Eureka district yielded nearly $6.000,000 against nearly $7,000,000 for 1878. The yield is divided into $32,539,000 gold, $38,623,000 silver and $4,185,000 lead. Some reports place the Leadville district at $1,000,000 more, Considering the management of all mines in San Francisco have been interested through the mining stock market to keep the production of the Pacific mines as low as possible, we see no cause to regard our mining industries as on the decline. Rather we should look for a decided increase in the product for 1880 under the circumstances, and also for much higher prices for stocks on such increased products together with the general enhancement of all values which has already reached everything but mining stocks and would have long ago affected them but for the assiduously circulated reports that the great Comstock mines had run out. Hence there will no doubt be seen in 1880 a bull year in mining stocks that will counterbalance the terribly bear year of 1879. That California with her new constitution may get less advantage than usual from such a boom will not prevent the effect being felt East. Indeed the East can but profit by it.

When it is considered that the two bonanza mines, Consolidated Virginia and California have yielded far more ($108,702,500) than all the other mines of the country put together, it is not strange that some uninformed people should fear they are run out. We have it on the authority both of miners and contractors who have worked in those mines, and lately from there, that the deeper they go the richer the ore and the wider the vein, which in Consolidated Virginia is in the form of a wedge of which the point only has been taken out. With the Sutro Tunnel connection all made and ventilation for cooling the lower and richer levels, it would not be at all surprising to see these mines resume their old dividends.

Railroading Reduced to a Science.

We are indebted for the following facts to a railroad official whose connections with the New York Central and Hudson River Railroad are such as to give him an intimate knowledge of the practical management of that property. From these it will be seen that railroading is fast being reduced to a practical science by Mr. Vanderbilt, as well as by Col. Scott, who was the first railroad president in this country, we believe, to employ scientific experts in the practical management of railroads. The series of experiments by which the results below enumerated were obtained and said facts demonstrated, were commenced under Commodore Vanderbilt, when he laid the two extra tracks, making the first four track road in the world, the basis of these experiments.

Under the old two track system the New York Central with its heavy traffic had the maximum switching expenses, which is well understood among railroad men to be the greatest pertaining to the maintenance of a double track road. With four tracks this expense is reduced to the minimum, as well as that for maintaining the track and road bed. This is upon the recognized principle in railroading, that the most economically maintained and operated road is a single track road running only one train from one end of the road to the other and back without switching or switches. Every additional train running in opposite directions requires an additional switch, with additional expense for attendance and maintenance. Hence, the New York Central, with its 20 passenger and 30 freight

trains daily, is run much cheaper on what is practically four single track roads, than formerly on its double tracks. There is now no switching or delay by switching and passing of trains from one end of the four tracks to the other, except to local freight trains which gather up and distribute all local freight between the larger stations without hindrance to the through trains which are run with the same engine from Buffalo to Albany or New York at the case may be, without stopping, except for fuel and water. Under the present system, adopted in 1875 or 1876, an engine is kept fired and running until it needs repairs, and not cooled off as formerly while the engineer slept. Now three sets of engineers and firemen are assigned to one engine for each 24 hours, or eight hours each. A locomotive is sent to the shops only once for repairs, it being found cheaper to sell and build new, than repair the second time. In this way the rolling stock of the road is idle (except for want of business) only when under repairs, and is never delayed by waiting for other trains to meet and pass, with the men who run them. It has been demonstrated also, that upon this road even, with its straight tracks, 15 miles per hour for a freight train is the most profitable speed, as above that the increase in wear and tear is greater than the saving in time.

As to the cost of attending and maintaining its tracks, the expense with four as compared with two tracks is as 1 to 8; that is, one move to 8 miles of track now against one man to 1 mile of track formerly. Thus, with man than double the capacity it is able to maintain and attend four tracks for one quarter the former cost of two tracks. This expense was formerly $750,000 per year or $250,000 more than the present interest on the cost of the two extra tracks. The results upon the traffic of the New York Central for the first nine months after the opening of these extra tracks were that it hauled 75,000 more loaded freight cars and 750,000 tons more of freight than for the same time the preceding year, notwithstanding it included the period of the fierce railroad war of 1876 when their was a scarcity of freight for the trunk lines. It was also then asserted by the officers of the company that the road earned its 8 per cent dividends which were daily ascertained and set aside, to the dividend fund, notwithstanding what were then called "ruinously low rates of freight." From the foregoing it will be seen what a few years of scientific and practical experiment produced in economy of railroad management and also what may yet be done in the same direction.

☞ **The gross earnings of the Central Railroad of Georgia for the fiscal year ending August 31, 1879, were $2,824,546 62, the expenses $1,616,301 11, and the net earnings $1,208,245 51—showing an increase over the previous year in gross earnings of $102,922 57, in expenses of $17,936 73, and in net earnings of $84,934 84.**

Montreal's New Railroad to the Northwest.

The recent decision of the Government of the Dominion to subsidize a railroad from Lake Nepissing to Sault St. Marie, taken in connection with the several connecting roads that are likely to reach Lake Nepissing as soon as the Sault is reached by the proposed connection from both the Northern and Canadian Pacific Railroads along the south shore of Lake Superior, promises to have an important bearing upon the prosperity of this city and the several lines of railroad that connect us with the St. Lawrence River.

The action of the Canadian Government will undoubtedly result in the construction of a railroad over the most difficult and unsettled part of the proposed new line from Montreal to the "Great Northwest," or from Lake Nepissing to the outlet of Lake Superior. While Montreal can be depended upon to extend her present railroads to Lake Nepissing from the East, the demand for an outlet from the rapidly growing Northwest, with its newly constructed railroad systems, is calling for an additional and independent connection, which will result in the building of a railroad that will connect the roads of the Northwest with the Sault St. Marie.

When we consider that the great wheat fields of Minnesota, Dakota, Montana and Manitoba, and the future large populations of those regions, will be brought five or six hundred miles nearer Montreal and Boston than by the present circuitous route by way of Chicago, we can begin to realize the benefit we are likely to secure upon the completion of the new and independent route from the Northwest, which, under the spur of the prevailing mania for building new roads, will doubtless soon be undertaken and finished. With this connection completed there would undoubtedly be a large increase in the through traffic over our northern connections to Montreal and Ogdensburg. At present these connections are working at a disadvantage in competition with the other trunk lines to the West, owing to their increased distance. But with Montreal's new route to the Northwest in operation, the advantage, so far as that region is concerned, would be with the northern roads.

During the season of navigation from Montreal we could not, perhaps, expect to compete with that port in the export trade. But with the St. Lawrence closed up by ice for half the year, there would be no good reason why our winter commerce should not receive an important stimulus via our northern railroads.

It is now some twenty-five years since we had here in Boston a grand celebration upon the opening of the railroad through to Canada. At this celebration were present the President of the United States, the Governor General of Canada, and other distinguished officials. It can hardly be said now that the brilliant promises of that time, as regards our trade with Canada and the West, have been fulfilled. But with the recent additions to the single connection with Canada that we thus made so much of, in a festive way, it would seem as if our merchants and capitalists would be advancing, not only their own interests, but those of Boston generally, if they took hold and aided the capitalists and business men of Canada and the Northwest in the construction of the new outlets from the Northwest to Montreal and a connection with our own northern railroads. The investment would certainly result as advantageously to the best interest of this section of the country as will a large large share of the capital now so freely invested in the wilds of the Western regions. —[Boston Journal.

Calumet and Hecla Mining Co.

At a special meeting of the Calumet and Hecla Mining Company of Michigan, held in Boston on the 30th ult., 74,991 shares, out of a total of 80,000 shares, being represented, it was voted to increase the stock of the company to $2,500,000, represented by 100,000 shares, an increase of 20,000 shares. The 20,000 shares representing the increase of the capital stock it was voted should be issued to stockholders of record at the close of the business year, December 31, 1879, in proportion to the number of shares held by each stockholder at that date; no certificates of fractions of a share to be issued, and the proportion of dividend belonging to such fractions to be paid only to stockholders in whose names such fractions stand upon the books of the company Dec. 31, 1879, the fraction of shares not converted into whole shares on or before February 16 next to be advertised and sold at auction in accordance with the laws of Michigan.

It was voted that certificates of new stock be ready for delivery on the 16th day of February; that certificates of old stock be sent to the Treasurer to be stamped as required by the law of Michigan, and that no dividend be paid stockholders until the old certificates held by them have been so stamped. The old certificates of stock can be sent to the office of the company to be stamped on and after Jan. 2, 1880.

At a subsequent meeting of the directors it was voted that a dividend of $5 per share be declared, payable on 100,000 shares, on the 16th of February, at the office of the company.

		$95,639 56
Balance to credit of Revenue Account, October 31, 1879, was	$662,099 35	
That account was charged during the year as follows, viz:		
For worthless accounts	$1,528 75	
For estimated depreciation of International Exhibition stock	2,520 00	
For estimated depreciation of our account with Wilmington S. Boat Line	15,000 00	
	19,048 75	
		643 050 60
Leaving amount to credit of Revenue Account, October 31, 1879.		$738,690 16
Add balance to credit of Renewal Fund		147,376 64
Total surplus		$886,066 80

The earnings, operating expenses, taxes and interest, as compared with those of 1878, show as follows, viz:

Passenger receipts in 1879 were less by 1.90 per cent than in 1878.

Freight receipts in 1879 were more by 23.55 per cent than in 1878.

Gross receipts in 1879 were more by 7.12 per cent than in 1878.

Net earnings in 1879 were more by 18.86 per cent than in 1878.

Operating expenses in 1879 were more by 0.19 per cent than in 1878.

Taxes in 1879 were less by 0.41 per cent than in 1878.

Interest paid (less interest received) in 1879, was less by 3.11 per cent than in 1878. The report says:

The decrease in passenger receipts, as compared with those of 1878, occurred during the first nine months of the year, and the receipts of the last quarter were much in excess of those of the same quarter in 1878.

The increase in freight receipts was partly due to increased fruit traffic from the Delaware Railroad, and partly to the general revival of trade. Much of our through traffic yielded very low rates.

In view of the probable outlay required for additions and improvements in 1880, not fairly chargeable to operating expenses, your directors have set aside from the net earnings of the past year, and placed to the credit of the renewal fund, the sum of $150,000.

The iron draw needed to complete the change of the Susquehanna Bridge from wood to iron has been contracted for, and will be placed in position probably during this month, or in February.

The work of substituting stone ballast for the gravel hitherto used, to which allusion was made in the annual report for 1878, has gone on steadily, and on the 31st October, 1879, there were twenty-five miles of your road laid in stone ballast. As hitherto, the cost of this improvement has been charged to renewal fund.

The net earnings of the Delaware Railroad were slightly in excess of the rental; and, as shown above, this excess was added to the receipts of this company, in conformity with the award of referees set forth in our annual report for 1878.

The usual annual deposit of $16,000 was placed in the care of the Trustees of the Sinking Fund, provided to pay the bonds which fall due in the year 1900.

The improvement of the real estate of the company at Canton, Baltimore, is going on. A wharf has been built by this company for the accommodation of the passenger and freight steamers of the Baltimore Steam Packet Company, and our tracks extended to and upon it. By this arrangement the exchange of traffic between steamers and cars has been much facilitated.

In view of the inconvenience and loss of time suffered in transferring passenger cars through Baltimore by horsepower en route to and from the Baltimore and Ohio Railroad Station, in Baltimore, an agreement has been made with that company, under which the transfer is to be made by water between Canton and Locust Point, by means of a ferry-boat large enough to take a full train of passenger cars, or twenty-seven freight cars. This boat, to be owned jointly by the two railroad companies, is on the stocks, and will be ready for use early next summer. When ready, this boat will not only transfer the passenger cars across Baltimore harbor, but also the freight cars, which have for some years past been transferred over the same route by means of tugs and barges.

A ferry wharf on the company's land at Canton has been contracted for, and it will probably be completed before the ferry-boat is ready.

The well-known policy of the officers of this company in respect to the maintenance of the value of your property has been fully carried out during the past year. The substitution of iron bridges for wooden ones, of stone ballast for gravel, of new locomotives of large size for old ones of less weight and power, of steel rails for iron rails, and other general improvement of the property has gone steadily on, and a large number of freight cars have been added to the equipment besides. The cost of such work has either been charged to operating expenses, or to net earnings of previous years, represented by the renewal fund.

The company have 76 locomotives. The car equipment consists of 113 passenger, 4 parlor, 16 smoking and baggage, 17 baggage, 8 baggage and mail, 18 express, 4 milk, 1 pay, 734 house, 79 stock, 324 platform, 50 lime, 14 dump, 47 lumber, and 15 tool, construction, etc., cars.

The number of miles run by engines over the Philadelphia, Wilmington and Baltimore Railroad, including service on Port Deposit Branch, was 1,640,649. Miles run on Delaware Division, between Wilmington and Delmar, 402,432.

Railroads in Mexico.

The United States Consul at Manzanilla, Mexico, reports to the Government at Washington that the Federal Government at Mexico has authorized the state government of Colima to construct a broad gauge railroad from the port of Manzanilla to the city of Colima, a distance of ninety miles. The Federal Government will pay a subsidy of $12,875 per mile, guaranteed by 8 per cent on the import duties. The Government will pay the subsidy as soon as each mile is completed. The timber for the sleepers and other uses may be cut free of charge, and all the articles imported for the road will be free of duty. No bonds will be required of the contracting party. The route is nearly level, and was surveyed by General Rosecrans. The subsidy will pay at least 75 per cent of the cost of the road, which may be extended to the city of Mexico, and can be made to connect the Atlantic and Pacific oceans. The state of Colima will assign the franchise to an American company.

Statement of the Public Debt of the United States, January 1, 1880.

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $13,520,474 19; balance of interest paid by United States, $30,191,976 39.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Finances of Michigan.

From the report of the Treasurer of the State of Michigan, recently issued, we learn that the receipts into the Treasury during the year ending September 30, 1879, (including $400,340 35 on hand at the commencement of the year,) amounted to $2,626,153 12, and the cash payments to $2,019,855 59—leaving a balance on hand September 30, 1879, of $606,267 53. The demands against the State treasury then due and those maturing on or before January 1, 1880, amounted to $362,241 16.

The following amounts are held in trust for the purposes named:

Sinking fund.....	$604,020 18
Canal fund.....	49,561 54
Primary school interest fund.....	93,015 58
Sundry deposits.....	3,136 08
	$749,733 38

These amounts combined make the total demands against the treasury $1,081,974 54; while the balance in the treasury to pay these demands is $606,267 53. This state of affairs is brought about, the treasurer says, by the fact that legislatures have heretofore made appropriations without levying a sufficient tax to meet them.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, January 8, 1880.

The past week has been one of disappointment in both the stock and produce markets to those who had hoped for or anticipated a "boom" after the first of January. The causes are not so apparent upon the surface, because the great factor in the expected upward movement—easy money—has been at work since the first few days' disbursements. Certainly it has been no lack of money, nor has it been high rates for the same that prevented the "boom," for 6 per cent has been the street, as well as legal, rate since January 1st, with occasional commissions of 1 16@1-64 against 7 per cent. prior thereto and occasionally a commission. Beside these heavy disbursements, the extraordinary and late flow of money westward, has set eastward at last and thus increased the supply of money here for a bull speculation. Evidently then there are some ulterior or speculative causes for this halt in the upward movement begun in stocks and in most speculative articles before the 1st inst., in anticipation of a large advance thereafter. We judge from all we learn that these causes are chiefly speculative, and that stocks do not go up because the large operators for some reason are not ready. On January 2nd, the market advanced generally on outside buying in part for investment of January dividends, but largely in anticipation of a rise. On the 3d the market opened buoyant, but before noon the reports reached the street that Gould and Sage, assisted by Vanderbilt, were locking up money. Therefore stocks fell off most of this year's advance but

soon rallied on no apparent stringency in money. The belief then gained that these great operators were either short of high priced stocks, or not ready for a January advance, and since then the speculation has halted, awaiting these magnates' movements and pleasure. Dealings have consequently been very light and prices about stationary. What the designs of these masters of the street may be, it is impossible to say. This is about all that can be said of stocks, the most active of which have been Iron Mountain, which was marked by the knowing ones of the Street for 60 on increased earnings, especially on iron tonnage, but its merchandise traffic shows much greater gains. Erie was booked for a rise, on what, no one knew, and Pacific Mail do., on the Canal construction traffic prospects. Wabash was also another card for 50, and Lake Shore for considerably more than par, while most of the Gould, Vanderbilt and Granger stocks were given out for an advance. Mobile and Ohio, Marietta and Cincinnati were also going up largely on increased business, and possibly some new and advantageous connections. All these "points" have proved, thus far, delusive, but may be good yet, as there is no doubt merit in some of them, although their friends advise waiting till the market is more settled before buying.

The Syndicate are said to have accepted their option of another 100,000 shares of New York Central and Hudson River stock from Vanderbilt at 120, which was included in their first agreement for 250,000 shares, which do not yet appear, in foreign Exchanges or elsewhere, to have been disposed of. What the Syndicate want of another 100,000 shares when they have still 150,000 on hand, unsold, is past finding out, and the true "inwardness" of this strange transaction remains as much in the fog as ever. As to talk of new lines and combinations the only thing of importance has been a rumor that Gould would build a line parallel to the Lake Shore from Toledo to Buffalo, unless the latter comes to his terms on traffic. But how is this, if the sale above alluded to was a bona fide transaction to let the Wabash people into the control of Central and its lines, among which Lake Shore was the chief objective point, to give the Wabash an outlet to Buffalo?

Government and railroad bonds have been in active demand for investment at generally strong er prices. The Government has asked again for proposals to sell $5,000,000 of the 1880 and 1881 bonds, and over $7,000,000 were offered of which the amount called for were within the specified limit of 102⅔@104¼ for 6s respectively, and 103⅜ for 5s of 1881. Foreign Exchange has been quiet and without material change until near the close, when it was ½ higher.

The course of the Philadelphia stock market the past year is conveniently compiled for reference by Messrs. John H. Davis & Co., whose well known house, Glendinning, Davis & Co., is in that city. Messrs. Amerman & Burwell, 16 Broad street, inform us that their latest installment of $500,000 7 per cent. first mortgage bonds of the St. Louis, Hannibal and Keokuk Railroad are being taken more freely by investors since January 1st. The road is said to be gaining more than its interest now. The amount of specie in the country is placed at $125,000,000 more than a year ago, of which, as stated in our last, about $85,000,000 was imported and the balance taken from our mines, whose total product however is much larger, as shown in editorial columns. The bills before Congress and the Legislature of this State, and those yet to be presented, have no doubt some effect on the stock market to account for its dullness. Congress has postponed action on the Inter State Commerce bill until the leading railroad interests can be heard. There is also in preparation a complete recodification of the railroad laws of this State, which will soon be presented to the Legislature for adoption, and probably by the Railroad Investigating Committee itself, as embodying the remedies it thinks needful to correct the abuses it has found to exist. The last bank statement showed a rising average reserve.

Imports of specie were almost nominal at about $500,000, while exports fell off nearly one-half to about $4,000,000 in consequence of the continued speculation in export staples. In the past few days, however, the grain combination has broken up, partially, under the unloading of several members thereof, who have now turned around and gone "short" of the market, it is said, while the balance of the clique let the market take its course apparently willing a "short" interest should be created. Meanwhile shippers are spectators.

Provisions have remained in the "Slough of Despond" from which, not even Keene seemed willing or interested to raise them, although he is said to have taken in all his January lard as well as grain, and paid for it with the money sent from here last week—$5,000,000—noted in our last. This was necessitated by the action of the large packers in Chicago, who with large grain dealers control the Chicago banks, which refused Keene his usual accommodation, in order to help the packers break the market for hogs by letting down the product which Keene is supposed to hold up.

Cotton has also been less active and more "mixed" with less defined lines of speculation.

Mining stocks have recovered sharply, since the 1st of January, in San Francisco, bearing out the theory advanced in our last, that the season of depression has given place with New Year to a bull market. Hence the Pacific stocks here have all been on the advance, while our Eastern mines have been stronger in sympathy. The dividend mines appear again in our monthly dividend column as usual, so far as yet announced.

The iron market has continued excited and advancing for pig and rails, both of foreign and home production, and it is difficult to buy either in this or to contract ahead at any price, as the manufacturers are filling all their old contracts at a loss on present rates of some $10 per ton. Freight engagements were made for some 9,000 tons of rails from Cardiff, Wales, for Portland, Oregon, but it is not known whether for the Northern Pacific or Oregon roads. The demand now is largely from new roads and for extension of old lines, more than from old roads for repairs. The advance for the week has been $2@2.50 per ton. The Pennsylvania Railroad is said to have extended to the American Union Telegraph Company—Gould's line—the same privileges as to the Western Union along its lines, and this has been used to depress Western Union Telegraph.

The closing quotations on Thursday were: Adams Express, 107@108; American Express, 57¼@58; Atlantic and Pacific Telegraph, 39⅜@40; Canada Southern, 69@69½; Central of New Jersey, 81⅛@81¼; Chesapeake and Ohio, 19½@20; do. 1st pref., 31¼@32; do. 2d pref., 22@24½; Chicago, Burlington and Quincy, 141¼@143; Chicago and Alton, 107@108; do. pref., 118@—; Chicago and Northwestern, 91⅜@91½; do. pref., 107@107½; Chicago, Milwaukee and St. Paul, 77⅞@78; do. pref., 102@102¼; Chicago, Rock Island and Pacific, 152@152½; Cleveland, Columbus, Cincinnati and Ind., 81@82; Columbus, Chicago and Ind. Credit Valley Railway.

The Credit Valley Railway, which is now practically completed, will when furnished with rolling stock, be a new competitor with the Great Western, Grand Trunk and Toronto, Grey and Bruce Railways for the traffic between Toronto and such points as Ingersoll, Orangeville and Elora, the present termini of this road and its branches. The main line of the road from Toronto to Ingersoll, is 96 miles in length; the Orangeville branch 35 miles long from Streetsville; and the Elora branch, which is a continuation of this branch from Church's Falls, is 27 miles long; making a total completed of 158 miles. The cost per mile, exclusive of rolling stock, is $20,000. The report of the Government Engineer says that the work is superior to that of most of the railways recently constructed. Its steepest grades (53 feet to the mile) are sloping eastward, which is the direction the heaviest traffic takes. The largest bridge is at Galt, over the Grand River. This structure consists of five spans, 150 feet each, and is about 80 feet above the water. This is said to be the largest iron bridge in the Province, and it reflects much credit upon its builders, the Toronto Bridge Company.

The Iron Trade of 1879.

Extracts from the forthcoming annual review of the Bulletin of the American Iron and Steel Association, given in another column, show the most gratifying, and to a great extent, most unexpected recovery in the great iron industries of the country ever known. The results exceed the estimates of the same authority a year ago—the hom eproduction exceeding anything in the history of the trade. The importation of iron ore has also been five times greater than ever before, while that of pig iron, steel rails and old rails has been upon a very large scale, representing the excess of demand over home supplies. These facts have been largely foreshadowed in our columns from week to week.

☞ The managers of the Sunday Creek Valley and Ohio Central Railroads, which have just been consolidated, have decided to put the Sunday Creek Valley branch between the coal fields and Columbus in operation at once with a full equipment.

New York and Brooklyn Bridge.

At the monthly meeting of the Trustees of the New York Bridge Company held on the 5th inst., the Executive Committee reported that the amount required to complete the bridge is as follows:

Estimated cost of the bridge, Feb. 1 1879		$13,708,026 60
Expended at that date		10,103,553 54
Amount required Feb. 1, 1879		$3,604,473 06
Expended since that date up to Dec. 1	$1,006,262 04	
Cash on hand and receivable from two cities at this date.	596,676 04	
		1,602,938 08
Remaining to be provided for,		$2,001,534 98
Add for rise in land, materials, and labor 10 per cent since Feb. 1, 1879		$200,153 49
Add for contingencies		48,311 53
Grand total to be provided for		$2,250,000 00

This is subject to a reduction of an estimated credit to the bridge for gores and pieces of land left in purchases, amounting to $125,000.

In this connection, the committee submitted the draft of a bill for presentation to the Legislature, calling for an appropriation from New York of $750,000 and from Brooklyn of $1,500,000, for completing and opening the bridge to public travel. The bill directs the Controllers of the two cities to borrow this money and to pay the interest upon it until the completion of the bridge and its opening. It also relieves the trustees from paying, after Jan. 1, 1880, the interest on the bonds issued by the two cities under the provisions of Chapter 300 of the Laws of 1875, and places this responsibility upon the cities themselves. The second section of the bill authorizes the trustees to dispose at public sale such gores or pieces of land which they have acquired, but now consider unnecessary. On motion of J. S. T. Stranahan, the bill was approved unanimously.

The financial condition of the bridge up to December 31, 1879, was reported as follows: Cash receipts, $11,332,257 26; cash expenditures, $11,216,431 93; cash balance in bank, $115,825 33. The cash liabilities amount to $76,839 55.

An important report was submitted by Trustee Isaac Newton, who was requested to test seven of the suspenders of the bridge in the machine in the United States Arsenal, at Watertown, Mass. The tested suspenders were chosen at random from those made for the bridge. The object of these tests was to ascertain the efficiency of the mode of securing the suspenders to the parts by which they are attached, respectively, to the main cables and to the suspended superstructures. These suspenders are attached to a wrought iron fixture at one of their ends and to a casting at the other end, by being inserted into conical sockets 8¾ inches in diameter at the base of the cone. At the other end the diameter is just sufficient to allow the suspender to be passed through. The suspenders are secured in these sockets by spreading the wires which compose the rope, and then driving in the voids tapering pins of wrought iron; the projecting wires are turned over, and the cavities filled with lead.

The tests seem to show that turning over the wires and filling the cavities with lead do not add to the strength of the fastening. The length of the tested suspenders ranged from 18 feet 9½ inches to 24 feet 3 inches. The strain to which they were subjected varied from 141,000 pounds to 184,000 pounds. In none of the tests was the full strength of the suspender ropes themselves brought out, and in no case did the suspender pull out of its socket. The maximum stress that can be brought on any suspender from the weight of the structure alone or the dead load, as it is termed, is 8,200 pounds, and from the movable, or rolling load, 13,125 pounds, making a total of 21,325 pounds. The mean breaking strain of the seven suspenders which were tried were a trifle over 168,000 pounds, or over seven times the strain which they will ever be required to stand. If the lowest breaking strain of the seven tests—141,000 pounds—be taken, the factor of safety will be about seven. Mr. Newton's report was received and ordered on file.

Finances of the State of New York.

EXTRACTS FROM THE MESSAGE OF THE GOVERNOR

The finances of the State are reported to be in a satisfactory condition. The operations of the last fiscal year and the general condition of the State treasury, on the 30th of September, 1879, are shown by the following statement:

Aggregate balances in the Treasury of all the funds Oct. 1, 1878		$4,293,883 54
Aggregate receipts during the fiscal year ending Sept. 30, 1879.		12,852,944 88
		$17,146,828 42
Deduct payments during the year.		12,628,472 01
Balance in the Treasury, Sept. 30, 1879		$4,518,356 41
The amount of receipts into the Treasury on account of the General Fund revenue, during the year ending Sept. 30, 1879	$7,101,964 40	
The payments	7,191,533 60	
Apparent deficiency, Sept. 30, 1879		$89 569 20

SUPPLEMENTARY STATEMENT.

Balance due from County Treasurers, Sept. 30, 1879, on State tax of 1878		$147,984 66
Add amount paid on account of 1879, appropriations included in tax levy of last year, payable in State Treasury in April and May, 1880		835,352 18
		$983,336 84
Deduct apparent deficiency of the revenue, September 30, 1879, as shown in preceding statement	$89 569 20	
Also balances of 1878, appropriations unpaid and in force Sept. 30, 1879	274,725 59	
Also balance of 1879, appropriation for New Capitol, not included in tax levy	217,763 56	
		582,058 35
Actual surplus Sept. 30, 1879		$401,278 49

DEBT.

On the 30th Sept., 1878, the total funded debt was $9,154,054 87, classified as follows:

General fund	$122,694 87
Canal	9,020,360 00
Bounty	11,000 00
	$9,154,054 87

On the 30th of Sept. 1879, the total funded debt was $9,122,054 87, classified as follows:

General fund	$122,694 87
Canal	8,988,360 00
Bounty	11,000 00
	$9,122,054 87

The General Fund State debt is all paid, and the item of $122,694 87, included above, represents the amount required to yield, at the rate of 6 per cent the sum necessary to pay the Indian annuities. The balance of $11,000 Bounty Debt for which funds are provided, had not been presented for redemption at the close of the fiscal year. A balance of $1,451,628 48 in the Canal Sinking Fund, leaves the amount of that debt unprovided for, September 30, 1879, at $7,536,731 52.

The State debt on the 30th Sept. 1878, after deducting unapplied balance of the Sinking Funds, amounted to		$8,130,726 69
On the 30th Sept. 1879 (including $122,694 87), to		7,659,426 39
Showing net contributions to the Sinking Fund of		$471,300 30
The actual reduction of the debt during the same period by cancellation being		$32,000 00

TAXATION.

For the fiscal year 1879, the tax levy was at the rate of 2.863 mills, which is expected to produce the sum of $7,690,416 34, while that of the previous year, being at the rate of 2.9 mills, produced the sum of $7,941,297 94.

CANALS.

The aggregate receipts of the canals from tolls and all miscellaneous sources for the fiscal year ending Sept. 30, 1879, were $921,252 81, being less than the preceding year by $67,898 54. The total expenses for ordinary repairs, superintendence and collection of tolls were $751,774 82, or $12,025 85 more than the year previous. The surplus revenues were $169,477 99, showing a decrease, as compared with the preceding year, of $79,424 39.

The constitutional requirements in regard to the canal debt for the year are as follows:

For interest on canal debt	$540,822 00
For sinking fund for the extinguishment of the debt	450,000 00
Total	$990,822 00
Surplus revenues applied	169,477 99
Deficiency to be provided for by taxation	$821,344 01
Expenses for extraordinary repairs & damages paid from taxes the past year were	139,478 43
Total amount contributed by the tax payers on account of the canals for the year	$960,822 44

RAILROAD TRANSPORTATION.

For several years there has been an increasing interest in the subject of railroad transportation. The relations of railroads to the public are of vast importance and demand careful examination by the Legislature. In its inter State aspect the subject can only be treated by Congress. But the internal interests of the people of this State, comprising one-tenth of the population of the Union, must depend upon local legislation. Responding to popular sentiment, the last Assembly appointed a special committee to investigate the management of the railroads, with instructions to report to the next Legislature. The members of the committee have devoted themselves assiduously to this duty, and will, in due time, present their conclusions for your consideration.

The question of railroad transportation affects directly or indirectly every industrial and commercial interest; and the public have the right to demand that freight tariffs shall be uniform for

like service, without discrimination as between citizens or communities, and that they shall also have all reasonable publicity. This should be secured by just and practical regulations.

EMIGRATION.

The whole number of passengers from foreign ports landed in New York from January 1 to December 1, 1879, was 167,665, of whom 39 560 were citizens, or persons who had previously been in the United States, and 128,105 were aliens. The number of steerage passengers landed at Castle Garden was 127,271, being an increase of 50,726 over the preceding year, and largely in excess of any year since 1873. It is expected that emigration next season will show a corresponding increase.

Of the appropriation of $170,000 made by the Legislature for the maintenance of the State Emigrant institutions for the year beginning May 1, 1879, there have been expended $103,295.14, leaving $66,708.87 for the remaining five months of the year.

BANKS.

On the 1st of October last, 73 banks of discount and deposit were doing business under the laws of the State, with an aggregate capital of $19,353,-200.

The number of saving banks reporting July 1, 1879, was 131, of which twelve were closing and not receiving new deposits.

The total assets were	$341,368,686
Due depositors	304,692,339
Surplus	36,326,929
Number of depositors	827,852

The increase in the several items for the last preceding six months was:

Assets	$7,131,375
Deposits	5,617,700
Surplus	1,773,667
Number of depositors	17,835

The improvement thus shown in the condition of the savings banks is encouraging, as contrasted with the frequent disasters of the past few years.

There were on July 1, eight trust companies with an aggregate capital of	$6,851,875
Assets	66,240,568
Liabilities, exclusive of capital	53,855,629
Surplus	5,533,063
Four mortgage and guaranty companies with an aggregate capital of	4,525 500
Surplus	1,024,551

INSURANCE.

There are doing business in this State 178 fire insurance companies classified as follows: New York, 89; other States, 68; foreign, 21; having, in total assets, $139,093,601; liabilities, including capital stock, $98 558.223; net surplus $40,535,-377.

While these companies present this financial showing, there is much cause for solicitude in the fact that the losses and expenditures during the last six months exceed the gross earnings by $4,361,188; also that the previous surplus has been diminished by $3,051,051; and of the eighty three New York companies only ten have kept up their surplus. Such facts strongly indicate that the companies are either insuring at too low rates, or they are conducting business in an expensive and hazardous manner.

There are at present fifteen life insurance companies organized and doing business under the laws of this State, with aggregate assets of $206,-552,630; liabilities, $174,793,438; surplus to policy-holders, $31,759,292; and nineteen other State companies with assets of $197,526,513; liabilities, $164,792,287; surplus, $32,734,226. Seventeen marine insurance companies are also in operation (eight of which are organized under the laws of New York), with assets amounting to $21,000,000, and a net surplus of $2,700,000.

The laws of 1853 require foreign fire and life insurance companies to deposit securities in the Insurance Department of the State; but as no such requirement is made of marine companies, the question arises for the Legislature to determine whether or not there is substantial reason for any exception in their case.

PILOTAGE.

The laws relating to pilotage in the harbor of New York cause much complaint from those engaged in commerce. It is represented that the legal charge for piloting a large steamship in and out of the port is larger than the wages of the captain for the round European trip. If this be true, a remedy is surely needed. The growing competition of other seaports for our vast foreign trade renders it imperative that the commerce of New York shall be relieved of all unnecessary burdens. The future prosperity of the State is largely dependent upon the continuance of our commercial supremacy, and no private interest should be permitted to interfere with that great object.

LOCAL INDEBTEDNESS.

Serious embarrassment exists in different sections of the State on account of the large amount of town indebtedness incurred for the most part in aid of railroad enterprises. In some instances towns are being depopulated in consequence of the high rate of taxation rendered necessary to pay the interest on their bonds. The value of property is also depreciating; and looking forward to the maturity of the debt, the prospect becomes still more discouraging. The only remedy seems to be in refunding the indebtedness, so as to reduce the rate of interest. This, however, requires an improved credit; and it is very desirable that some measure be devised, if possible, to enable the towns to accomplish this object.

Brooklyn Elevated Railroad.

Work on the Brooklyn Elevated Railroad is steadily advancing at various points along the route from Fulton Ferry to East New York. Except for about a half mile, from Main street to North Elliott place in Park avenue, and in Grand avenue, near Park avenue, the foundations are all laid to Broadway and Ralph avenue. The iron superstructure has been erected at all points where the route crosses the one laid out for the Kings County Elevated Railway. Most of the columns are up in Water street, near Fulton Ferry, and workmen are employed in putting up girders at Water and Main streets. At Lexington and Nostrand avenues five spans have been put up. At several other points beginnings have been made. In appearance the structure is a combination of two of the styles to be seen in this city. The columns are open, with lattice braces, as are those in the structure in Third avenue, while the longitudinal girders are placed upon the cross girders inside of the line of columns, like those in the road in Second avenue.

☞ The gross earnings of the Ogdensburg and Lake Champlain Railroad for eight months to December 1, 1879, were $369,520 87, the expenses $260,855 18, and the net earnings $108.665 69. Gross earnings for eight months to December 1, 1878, $380,626 53; expense for same period $283,-518 71; net earnings $97,107 82. The above shows a loss in gross earnings this year of $11.-105 66 and a reduction in expenses of $22,663 53. The reduction of expenses is in consequence of a smaller quantity of rails having been put in the track this year than last.

☞ The gross earnings of the Texas and Pacific Railway company for seven months ending December 31, 1879, were $1,622,170 76, the expenses $732,598 89, and the net earnings $889,-571 87—showing an increase in gross earnings over 1878 of $227,630 86, with a decrease in expenses of $108,669 96, making the increase in net earnings $336,300 82. The percentage of expenses to gross earnings was in 1879 45.16; in 1878, 60.32.

☞ A contract for the construction of the Texas and Pacific Railway from Fort Worth to El Paso, a distance of 750 miles, was signed on the 30th ult. The price paid is understood to be $20,000 a mile in first mortgage bonds of the company.

OFFICE OF THE ONTARIO SILVER MINING CO., 31 BROAD ST., NEW YORK, Jan. 5, 1880.

DIVIDEND NO. 51.

THE REGULAR MONTHLY DIVIDEND OF FIFTY CENTS per share has been declared for December, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 15th inst. Transfer books close on the 10th inst.

H. B. PARSONS, Assistant Secretary.

NEW YORK, January 2, 1880.

THE STANDARD CONSOLIDATED MINING COMPANY, have this day declared their regular monthly dividend of

FIFTY CENTS PER SHARE,

payable January 12th, at the Agency of the Nevada Bank, No. 62 Wall-st., New York.

Transfer-books close on the 5th inst., and re-open on the 12th inst.

M. R. COOK, Vice-President.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of December, were:

ENTERED FOR CONSUMPTION.

	1878.	1879.
Manufactures of wool...	$455,048	$869,921
" cotton...	968,313	1,176,038
" silk.....	968 833	1,297,807
" flax.....	529,509	797,847
Miscellaneous dry goods.	317,778	483,887
Total.....	$3,236,481	$4,625,500

WITHDRAWN FROM WAREHOUSE.

	1878.	1879.
Manufactures of wool....	$207,412	$378,961
" cotton ..	177,816	396,281
" silk .....,	132 259	185,004
" flax	225,988	298,012
Miscellaneous dry goods.	86,376	129,709
Total	$829,851	$1,287,967
Add entered for consump	3,236,481	4,625,500
Thrown upon market....	$4,066,332	$5,913,467

ENTERED FOR WAREHOUSING.

	1878.	1879.
Manufactures of wool ..	$342,699	$275,712
" cotton...	249,475	365,180
" silk.....	271,282	290,775
" flax.....	272.649	316,398
Miscellaneous dry goods	87,122	145,897
Total,.....	$1,224,227	$1,393,962
Add entered for consump	3,236,481	4,625,500
Total entered at the port,	$5,460,481	$6,019,462

The following will show the relative proportion of the different classes of fabric:

	1878.	1879.
Manufactures of wool...	$17,956,938	$20,773,785
" cotton ..	15,491,523	18,813,862
" silk.....	22,046,631	29,129,588
" flax.....	12,152,893	14,706,100
Miscellaneous dry goods	7,215,212	8,126,265
Total	$74,863,197	$91,549,000

The imports of foreign dry goods at New York for each month of the years 1878 and 1879, were as follows:

	1878.	1879.
January	$7,012,106	$5,987,719
February	11,438,421	12,589,363
March	7,075,648	8,613,592
April.....	5 205,458	6,037,243
May,.....	3,320,953	4,487,202
June	3,766,637	4,846,955
July.....	5,347,370	7,985,348
August	10,047,274	11,817,521
September.	6,647,749	9,781,789
October	5,326,421	6,876,726
November.....	5,214,452	6,506,680
December	4,460,708	6,019,462
Total.....	$74,863,197	$91,549,600

The value of foreign dry goods entered directly for consumption at the port of New York, is as follows:

	1878.	1879.
January	$5,043,826	$4,761,995
February	8,769,220	10,065,148
March	5,497,994	6,757,608
April.....	3,989,263	4,709,395
May	2,575,160	3,682,940
June	2.265,126	3,798,184
July	4,116 399	6,439,796
August	7,817,692	9,624,358
September	5,344,866	7,918,048
October	4,275,513	5,393,154
November	3,881,679	5,078,136
December	3,236,481	4,625,500
Total	$57,218,219	$72,854,262

The value of foreign dry goods withdrawn from warehouse at the port of New York, is as follows:

	1878.	1879.
January	$1,918,467	$1,344,191
February	2,710,417	2,363,842
March	2,022 838	1,827,933
April.....	1,401,152	1,436,984
May	901,324	974,020
June	860,427	995,527
July	873,671	1,045,034
August.....	2,544,635	2,103,652
September	1,959,628	1,990,491
October	1,173,628	1,335,601
November	1,153,829	1,423,491
December	829,851	1,287,967
Total	$18,349,367	$18,128,233

The value of foreign dry goods entered for warehousing at the port of New York, is as follows:

	1878.	1879.
January	$1,968,280	$1,225,724
February	2,669,201	2,524,215
March	1,577,654	1,855,984
April	1,216,195	1,327,848
May	745 793	804,262
June	1,101,511	1,048,771
July	1,230.971	1,545,552
August	2,229,582	2,193,163
September	1,302,883	1,863,741
October	1,050,908	1,483,572
November	1.332,773	1 428,544
December.	1,224,227	1,393,962
Total.....	$17,649,978	$18,695,338

The total imports of foreign dry goods at New York from 1849, compare as follows:

Year.	Value.	Year.	Value.
1849.....	$44,435,571	1865.....	$91,965,138
1850.....	60,106,375	1866	126,222,855
1851.....	62,846,731	1867	86,263,643
1852.....	64,654,144	1868	80,905,834
1853.....	93,704,211	1869	94,725,417
1854.....	80,842,936	1870	109,498,523

1864.....	71,589,752		

American Iron Trade for 1879.

The Bulletin of the American Iron and Steel Association will, in its forthcoming number, contain a review of the iron trade for the year 1879. It says:

The year which has just closed was a most remarkable year in the history of the iron trade of this country. When complete statistics are received it will be found that we made more pig-iron, more bar-iron, more nails and more steel than in any previous year. The advance in prices during the year was also without precedent. To speak more specifically, the percentage of increase in prices in all lines, except perhaps in crucible steel was greater in 1879 than in any preceding year, if allowance be made for the premium on gold during the war, the advance in 1879 being on a gold basis of values. The importations of pig-iron, old rails and new iron and steel rails during the year were unexpectedly large, recalling our experience before the panic of 1873, while our importations of iron-ore were not only exceptional in their magnitude, but phenomenal, amounting to about five times as many tons as were ever before imported in one year. But the most remarkable fact in connection with the history of the American iron trade for 1879, remains to be stated. Notwithstanding all the activity that has been mentioned, the demand for pig iron, iron and steel rails, and iron ore was not met, and many orders have been carried over to the New Year which consumers sought in vain to have filled in 1879. The business embraced in the orders which were necessarily deferred to the New Year amounts to a very large percentage of the actual consumption of the old year.

Such a sudden and powerful stimulus to the demand for iron and steel and ore, following a period of great depression, was not expected by any of our manufacturers, and to the excitement caused by the suddenness of this demand the rapid advance in prices is mainly due. In the following table we give the prices at Philadelphia and in Pennsylvania of various iron and steel products on the 1st of January, 1879, and the 1st of January, 1880, with the percentage of increase in the intervening year. The prices are fair average quotations:

	Jan. 1. 1879.	Jan. 1. 1880.	Percentage of Increase.
No. 1 Anthracite foundry pig-iron in Philadelphia	$17 00	$35 00	106
Best refined bar-iron in Philadelphia	42 56	71 68	68
Bessemer steel rails at the works in Pennsylvania	42 00	70 00	67
Best iron rails in Philadelphia	34 00	57 00	68
Cut nails by the keg in Philadelphia	2 10	4 25	102
Old iron rails in Philadelphia	19 00	36 00	89
No. 1 wrought scrap in Philadelphia	20 00	34 00	70

The estimates of the production in 1879 show a total of 1,650,000 tons, against 1,156,631 tons in 1878, viz:

	1878. Gross tons.	1879. Gross tons.
Pig iron and old iron:		
Production of pig iron	2,301,215	2,800,000
Importation of pig iron	66,503	275,000
Importation of old rails and other old iron	5,558	175,000
Total	2,373,276	3,250,000
Rails:		
Production of iron rails	288,294	450,000
Production of steel rails	499,817	650,000
Importation of iron and steel rails	9	60,000
Total	788,120	1,160,000
Iron ores:		
Lake Superior production	1,125,231	1,350,000
Importation	31,400	300,000
Total	1,156,631	1,650,000

The year 1879 was also remarkable for the new impulse which it gave to the building of railroads. About 4,000 miles were built during the year, against 2,747 miles in 1878, 2,177 miles in 1877, 2,657 miles in 1876, 1,758 miles in 1875. The mileage of 1879 was equal to that of 1873, which was 4,069 miles. The greatest mileage in any one year was in 1871, when 7,608 miles were built. The increased demand for rails for new roads in 1879 was one of the leading causes of the revival in the American iron trade, but a more potent cause was the sudden demand last spring by existing roads for rails, cars and locomotives, to meet the requirements of increased transportation of agricultural products and to compensate for the wear and tear of the hard times. The railway officials not only missed their opportunity to buy rails at low prices, but they precipitated by the suddenness and magnitude of their demands last summer and excited condi-

tion of the market which still continues, and which all thoughtful business men deprecate.

The business of building iron ships did not improve in 1879, owing partly to the lack of encouragement by the general government and partly to the high prices for iron and other materials. The New York elevated railways, which gave to the iron trade of the country a much needed lift in 1878, were still further extended in 1879. The manufacture of steel-wire fencing was greatly extended during the year, about 20,000 tons of steel being consumed in this new industry. There was a large demand during the year for iron pipes and tanks for the Bradford and other oil regions.

The large importation during 1879 of pig iron, old iron, iron and steel rails, and iron ores will attract attention and are worthy of the most serious consideration. One incident of these importations should not be overlooked—they occurred mainly in the last six months of the year, and are therefore all the more suggestive. They should teach our manufacturers that the English policy of piling up iron in bad times to be prepared for good times is a safe policy to follow.

More furnaces and mills will be running in 1880 than in 1879, and, as a consequence, our iron and steel production in the new year will be greater than in the old year. After the 1st of April it will be fully equal to the demand in all lines. Whether prices will remain as high as they are, or go still higher, no man can find out, nor whether we will build more railroads in 1880 than in 1879. It seems certain that our importations of iron ore in 1880 will be larger than in 1879, large contracts having already been made. Probably 500,000 tons will be important in 1880.

☞ The surplus earnings of the Louisville and Nashville Railroad Company, after paying the charges—interest and sinking fund included—for the six months ending December 31, 1879, amounted to $434,780 out of which a dividend of three per cent has been declared, payable in February, 1880, and the remainder, about $165,000, has been carried to the reserve fund.

☞ The suit of the St. Louis, Alton and Terre Haute Railroad Company against Samuel J. Tilden, Chas. Butler, Russell Sage and Robt. Bayard, the former purchasing committee of the company, has been discontinued, Russell Sage and Robert Bayard having paid to the company $100,000 each, and Samuel J. Tilden $200,000 for himself and Charles Butler.

☞ It is reported that the Grand Trunk Railway Co. have acquired, or are about acquiring, the International Railway, with a view of completing their road and forming a connection with the New Brunswick Railway, thus making an air line to the Maritime Provinces and offering serious competition to the Intercolonial Railway.

☞ The Ontario Silver Mining Company has declared its fifty-first dividend, for the month of December, payable at the office of Wells-Fargo & Co. January 15. The product of the company for December was $154,286 91.

☞ The Standard Consolidated Mining Company has declared its regular monthly dividend of fifty cents per share, payable January 12, at the agency of the Nevada Bank, No. 62 Wall st., New York.

The Coal Trade.

We have only partial returns of the coal shipments during the week ending December 27. So far as reported the week's shipments were 270,199 tons of anthracite and 58 924 tons of bituminous, bringing up the total tonnage for the year to 25,986,335 tons of anthracite and 3,594,253 tons of bituminous, a total tonnage for the year, so far as reported, of 29 580,588 tons of both kinds of coal, compared with 19,994,324 tons to the same date last year, an increase of 9,586,264 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of December was 157,730 tons, of which 121,164 tons were coal, and 36,566 tons coke. The total tonnage for the year thus far has been 6,035,499 tons, of which 4,715,500 tons were coal and 1,319,999 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region during the nine days ended December 31 were 57,894 tons. Total shipments for the year 1,702,993 tons, an increase of 52,361 tons over the previous year. Shipments on Baltimore and Ohio Railroad for nine days, 50,874 tons, for the year 1,047,468 tons, an increase of 151,905 tons, over the previous year. Canal shipments for nine days, 684 tons; for the year, 499,736 tons, 109,469 tons less than last year. Pennsylvania Railroad shipments for nine days, 6,325 tons; for the year, 155,789 tons, an increase of 9,925 tons over the previous year.—*Phila. Ledger, Jan.* 5.

☞ The Worcester Spy says the directors of the Boston, Barre and Gardner Railroad Co gave up their lease of the Monadnock Railroad Saturda , and the directors of the Cheshire Railroad immediately leased the road at a rental of $12,000 per annum for the first five years, and $18,000 per annum for the next five. The new lease will take effect at once. The terms of the Boston, Barre and Gardner lease were $15,000 per annum until April 1, 1880, and then $18,000 per annum for the remainder of the lease, which was made to continue for 99 years.

☞ The Cairo and Vincennes railroad was sold at Springfield, Ill., on the 5th inst., in pursuance of a decree of the United States Court. It was purchased by Joseph W. Drexel and C. E. Tracy, of New York, trustees for the bondholders, for the sum of $2,000,000, the purchasers assuming the liabilities for receiver's certificates and claims allowed upon intervening petitions for labor and supplies furnished.

☞ The New York, New Haven and Hartford Railroad Co. is refitting its freight cars with a self-acting coupler, by which cars can be uncoupled from on the top by means of a connecting rod or from the side by a lever, without the necessity of a train hand stepping between the cars.

☞ The earnings of the Central Pacific Rail road Company for the month of December, 1879, were $1,311,000; December, 1878, $1,432,917. For the year 1879, $17,098,730; for the year 1878, $17,607,451.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern. Also Speigel and Ferro Manganese.

NEW YORK, BOSTON, PHILADELPHIA & CHICAGO

31 and 33 Pine St., New York.

Money carefully invested for Capitalists, Trustees of Estates, Savings Banks, Insurance Companies and other investors.

Special attention given to Financial Negotiations for Railroad Companies. Will act as Stock Transfer Agent and Trustee for Bondholders, pay coupons, etc. etc.

Financial Negotiations conducted or States, Counties, Towns and Cities.

JOHN C. SHORT, President.
GEO. W. DEBEVOISE, Vice President.
WM. P. WATSON, Secretary and Treasurer.

FIRST MORTGAGE

FORTY-YEAR

7 Per Cent. BONDS

(Convertible) of the

ST. LOUIS, HANNIBAL AND KEOKUK RAILWAY COMPANY,

PRINCIPAL PAYABLE Oct. 1. 1917,

at the agency of the company in the City of New York. Interest payable April 1 and Oct. 1 at the same place.

THESE BONDS are secured by a FIRST MORTGAGE on the ROAD, EQUIPMENT, PROPERTY, and FRANCHISES of the company (limited to $12,000 per mile), and convertible into stock at the option of the holder.

$1,300,000 CASH, equal to more than one-half the total cost of the road, has already been EXPENDED in construction and equipment. A LARGE PORTION of the ROAD is NOW in OPERATION, and the BALANCE WILL BE COMPLETED WITHIN SIX MONTHS.

Copies of the mortgage may be examined and full information had at the office of the undersigned, by whom the above bonds are offered for sale at 90 and accrued interest, the right being reserved to advance the price without notice.

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry. which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

HARLAN A. PIERCE, Editor.

New York, Friday, January 16, 1880.

The True Cause of Vanderbilt's Sale.

On the first announcement of the sale by Mr. Vanderbilt of 250,000 shares of New York Central stock to the Gould Syndicate, we asked, in our issue of November 28th, in these words, "in what corner has Gould caught Vanderbilt that he could thus compel him to part with almost half his holdings of New York Central, by which he controls all his other lines?" "It is fair to assume that this was not a matter of choice with Vanderbilt, in parting with the absolute ownership of a controlling interest in the New York Central." In a subsequent issue, December 5th, we said as follows: "To us there appears to be but one answer consistent with the facts—if the Central's dividends are to be kept at 8 per cent." "Our belief is that they cannot long be so kept, and that hence Vanderbilt got out of half his stock in a way that he can quietly drop the other half, if the Syndicate can make a market for this." We make these quotations that our readers may be able to judge of the correctness of what follows.

We are now in possession of an answer to the question asked, as above, on November 28th, coming from parties inside the arrangement. Upon the completion by Gould of the consolidation of his Western lines, or of the St. Louis, Wabash and Pacific combination, he went directly to Vanderbilt and demanded the sale which was finally made, upon the terms finally agreed to and the admission of his representatives into the New York Central directory, as his price for the Wabash business. He gave Mr. Vanderbilt so many days to decide. During this period the negotiations were conducted, as finally became public, but were broken off by Vanderbilt who kicked against Gould's terms. Mr. Gould then notified him that unless he signed the agreement by the time specified, he would conclude an arrangement, then pending, with the Baltimore and Ohio, and send all the Wabash and Union Pacific business over that line. The result was what the world knows. From this it will be seen who virtually controls New York Central, and can in the future dictate terms to Vanderbilt by the simple withdrawal of the Wabash business. The why and wherefore would remain the same as in the transaction just described, namely, the Central's inability to keep up its 8 per cent dividends, as stated December 5th, without the Wabash business which Gould controls. The taking by the Syndicate last week of the balance of the 250,000 shares therefore has no new significance, as it was a foregone conclusion under the impelling motive of the original agreement. Hence it will be seen that with this stock the Syndicate can manipulate the market for Central shares and through it make a handsome commission which is their share of the spoils in this great transaction, while Gould can at the next election compel Mr. Vanderbilt to put in his men even to the President, or by withdrawing the Wabash business render the Central unable longer to keep up its 8 per cent dividends.

In this light it will be seen of how much value the Syndicate's alleged "investigation" of the condition of the road, had to do with the taking of the optional 100,000 shares last week; and also throw some light on the probable purpose for which this secret "investigation" was made. If it was really to find the true condition of the road, why did they not make it before they took the first 150,000 shares? If they found its condition so satisfactory, why should they keep it secret, when they are about to place these 250,000 shares on the markets of this country and Great Britain. We would advise our London readers to demand the results of this "committee's investigation" over their signatures before buying their stock.

Oregon Railway and Steam Navigation Company's New Road.

We are indebted to the officers of the above company for the following information. The engagement of freight by six ships for 7,500 tons of rails, from Cardiff, Wales, to Portland, Oregon, recently noted in these columns, prove to have been for the Oregon Railway and Navigation Company of Oregon, for the construction of a new road on the line of the Columbia River from Celilo, 150 miles, to a point above Wallula, for the purpose of assisting the boats which are not able to accommodate the increased traffic—owing to the rapid development of the wheat regions of Oregon and Wash. Ter., and to occasional interruption of river navigation by reason of low water. Five thousand tons of these rails, which are new light 35 lb. steel, were bought on a refusal taken early in the Fall at £5 15s., while the balance of 2,700 tons cost £7 10s. This whole shipment will be completed within the next two months. Within two years this line is also to

be extended from Celilo to Portland, 120 miles, for which arrangements are now being made. There are also contemplated feeders to be built beyond Wallula into the wheat regions, in the future, for which, as yet, no definite plans are made.

The rolling stock and equipment of the line is all contracted for here in the East, and the work under construction as well as an additional steamer for this company, which is to take out the rolling stock and equipment as soon as both are completed. This steamer is the Columbia, 2,800 tons, and is being built by Messrs. John Roach & Son, to be a first-class iron screw vessel. The Baldwin Locomotive Works are building five of the locomotives and the Rogers Locomotive Works are building three more. Out of twelve passenger coaches, and three hundred freight cars of all descriptions, the Harlan & Hollingsworth Co. have the contract for the larger number. The Taylor Iron Works and the Ames Co. are also said to be interested in these contracts.

Chicago and Iowa Railroad.

The time for which the Chicago and Iowa Railroad Company was placed in the hands of a receiver, to see if it was (as Mr. Supervisor Reising, of Aurora, claimed) able to earn enough money to pay the accrued and the accruing interest upon its bonded debt, and keep itself in running order, expired on the 31st of December. Mr. Receiver Holcomb has executed the trust reposed in him with consummate ability, and presented to Judge Drummond, under whose appointment he acted, a most pleasing report.

He found the road in bad condition. Track mostly iron, ties bad, and rolling stock in poor repair; in fact, we remember an old engineer said, "It was hard to keep the engines on those two streaks of rust." By dint of good management Mr. Holcomb has, during his administration, had the track completely steel railed, the ties perfected, and the road bed so completely ballasted and graveled, that it is now quite as good as that of the C., B. & Q. R. R. The rolling stock, too, is in excellent and very serviceable condition, and the employes loyal to the company.

An abstract of Mr. Holcomb's report, as given in the court on Monday, is as follows:

He has $211,504 34 on hand; that the amount necessary to pay the accrued interest is $148,500, which leaves a balance of $63,004 34. He had operated the road for twenty-nine consecutive months, the net earnings being $781,913 27, equal to $26,962 63 per month, or $328,950 32 per annum. The annual interest is $140,000, leaving the net earnings per annum, over and above the interest charge, $183,550 42. The taxes due amount to $7,000, while there is in litigation $25,000—tax on the capital stock.

The company also presented a petition to the court, setting forth prior orders by the court, and Mr. Holcomb's compliance therewith, and asking that the road be returned to the hands of its officers.

Judge Drummond said the report was of much importance and should be carefully examined; he therefore referred it to Master in Chancery Bishop, and until he makes report the road will continue in the hands of Receiver Holcomb. The Judge also recommended that the company reorganize itself for business, and be able when the report is accepted to show legally elected officers and have a treasurer under sufficient bonds.

The Directors, (who are F. E. Hinckley, Joseph Reising, Geo. E. Kretsinger, P. B. Shumway, J. K. Barry, D. B. Waterman and A. Lewis), held a meeting in Mr. Hinckley's office. Mr. Lewis, who is also Secretary of the company, offered his resignation as Director, and Hon. R. G. Montony, of this city was chosen to fill the position vacated. Last spring Mr. Hinckley had been elected President. A vote was taken for Treasurer, and Mr. Joseph Reising, of this city, was chosen by four votes against two cast for Mr. W. H. Holcomb. The amount of bond to be given by the Treasurer was fixed at $300,000, and his salary at $1,000. The Directors also manifested much judgment, and a sense of an appreciation of the fitness of thing, by making W. H. Holcomb, now acting as Receiver, General Superintendent of the road and manager of business. The new organization must await the action of the Master in Chancery before any further action can be taken.

The report of the receiver, we understand, besides the $63,000 surplus above mentioned, represented some $28,000 worth of iron on hand, and about $45,000 due from other roads. Beyond amounts mentioned, the road is also liable for $4,000 and several years' interest, to D. B. Waterman, and $4,500 and interest on the judgment obtained by the executor of Wm. Russel. It is also understood that the lawyers who have been employed for the two or three years past to look to the interests of the road, present a bill of about $25,000.—[Aurora (Ills.) Beacon, Jan. 7.

The Coal Trade.

There is the usual apathy in the trade to be expected at this time of the year. The companies which suspended on the 24th of December resumed operations on the 5th inst., and those that were working on short time have increased their output. Many individual operators have not yet started to work, but it is expected that on Monday next the collieries in all the regions will be in operation, though not on full time. If it were not for the large demand for the line trade to supply the furnaces and mills, there would be little encouragement for any of them to resume, but with the present activity in iron and other manufactures there is a constant market for a very large portion of the product of the mines. The trade in domestic coals is not active. Dealers generally are well stocked, and the mild weather that has prevailed during nearly the whole season, is not favorable to a large business in this class of coal.

There is nothing discouraging in the prospects of the trade, however; on the contrary the year 1880 opens with brighter promises than at any similar period for many years. It is not therefore unreasonable to anticipate that there will be a demand for the entire product of the Anthracite regions during the year, and with judicious management remunerative prices can be obtained for the whole of it. The necessity for this management will be more urgent during the first three months of the year, when the demand will be the least. If the large product of this period is forced into the hands of the consumers by a too eager competition, low prices will follow as a matter of course. If the product over and above the quantity required for immediate use is held firmly at a remunerate price, it will find a market, certainly in the spring and summer months, together with the product of that period. In a word, the producers of coal have now an opportunity to get what they have been vainly striving for for years, a fair price for the product of their labor and investment, and it is for themselves to say whether they will throw away the opportunity by intemperate competition. Referring to the figures of the production up to the 31st of December, printed below, it will be seen that the total product was 26,023,733 tons, as against 17,000,176 tons for the year 1878, an increase of 9,023,557 tons.

—[Pottsville Miners' Journal, Jan. 9.

Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of the Cleveland and Pittsburg Railroad Company, held at Cleveland, Ohio, on the 7th inst., the following gentlemen were re-elected directors: August Belmont, Samuel J. Tilden, Charles Lanier, F. T. Walker, New York; B. J. Jones, J. N. McCullough, Pittsburgh; Thomas A. Scott, Wm. Buchnell, Philadelphia; E. M. Ferguson, Cincinnati; R. P. Ranney, James F. Clark, J. V. Painter, Cleveland.

The report of the President, J. N. McCullough, for the year ending November 30, 1879, showed the receipts, besides the income received under the lease, to be $5,580 57, and out of this an expenditure of $182 41. The guaranteed income was $1,214,646 52, and out of it the disbursements for mortgage interest, dividends and sinking fund, which included consolidated mortgage, 1900, construction and equipment bonds, and maintenance of organization, amounted to $1,213,264 27. During the years 1875, 1876 and 1877, 6,283 tons of steel rails were put down. The cases in litigation, with a few unimportant exceptions, are closed, and there is now no existing cause that can jeopardize regular dividends upon the stock of the company. Two thousand additional tons of steel were put into the track the past year, so that there are now 107 miles of track laid with steel, extending from the Woodland avenue crossing in the city of Cleveland, to a point about one half mile east of Industry station, on the River Division, except a small gap east of Alliance of four and one half miles. This will be closed in

another season, and the track on the River Division will be completed with steel to Rochester, thus making a continuous steel track between Cleveland and Pittsburgh. The track equipment and other property of the road are fully maintained by the lessee, and are in excellent condition.

Construction and equipment bonds, to the amount of $127,000 were issued during the year, but the funded debt was increased only $19,000. This result was brought about by the action of the Sinking Funds in retiring and canceling outstanding bonds. From present indications, the income of the property for the year will meet all guarantees—rental, interest and sinking fund installments included.

Monongahela Navigation Co.

At the annual meeting of the stockholders, held in Pittsburg on the 8th inst., the following Board of Managers was elected: Felix R. Brunot, Alexander Bradley, John Harper, N. B. Hogg, M. K. Moorhead, John Moorhead, Wm. Morrison, J. B. Murdoch, M. D., Daniel Wallace and J. B. Sweitzer. J. K. Moorhead was re-elected President, and Wm. Bakewell Treasurer. The report of the President was submitted, as was also the report of the Cargo Inspector, from which we learn that the receipts from coal and slack were $106,158 53; from coke, $4,623 26; from passengers, $5,475 50; from freight, etc., $58,440 13—a total of $174,707 42, against $203,497 30 in 1878, a decrease of $28,780 88.

The total number of bushels of coal shipped in 1879, was 62,015,800. The total number of bushels of coke shipped in 1879 was 3,572,700. The coal and coke receipts for 1878 were $133,703 67, and for 1879, $110,791 79, making a decrease in 1879, of $22,911 88.

The balance sheet of the Treasurer, shows the assets to be $1,256,807 13, the sum of $1,115,452 being placed to construction. The profits for the year were $55,789 68.

Chicago and Eastern Illinois Railroad.

The Chicago Tribune, in a recent article on the leading railroads of Illinois, speaks in the most flattering terms of the success, good management and natural advantages of this road. It has obtained an entrance into Chicago through the desired inlet at a minimum cost, which gives it one of the best paying pieces of road for local travel within twenty miles of Chicago. It penetrates the vast coal fields of Indiana, and not only brings to the city from 1600 to 2,000 tons of fuel daily, but it has cheapened the price. The Tribune says:

The vigor of the present management is a matter of recent but very pleasant history. It took the line formerly known as the Chicago, Danville and Vincennes, rebuilt it almost wholly, put on over 100 miles of new steel rails, increased the rolling stock very largely, and developed a traffic as good in proportion to its years and mileage as is enjoyed by any road in the country. It also obtained its fine entrance into Chicago by making a lease with the Chicago and Western Indiana line, thereby securing in perpetuity an inlet from Dalton, along Stewart avenue, to the very heart of the city. An ample round house and shop are now being built near Thirty-first street, and a fine freight depot is nearly completed corner of Fourteenth and Dearborn. The company also expects to erect a handsome union passenger depot on East Van Buren street, a location which, it is needless to say, cannot be surpassed for convenience or profit in Chicago. The Wabash, and possibly other lines, will join with the Chicago and Eastern Illinois in the use of this depot when finished. It will be curious if one of the newest of Chicago's railways shall be the first to complete a grand union depot after all the talk and efforts that have been put forth in the same direction by the older roads. The officers of the Chicago and Eastern Illinois Company are F. W. Hindekoper, President; A. S. Dunham, Secretary; J. C. Calhoun, Treasurer; Henry Crawford, General Solicitor. The working officials of the line are C. S. Lyford, Superintendent; Robert Forsyth, General Freight Agent; A. S. Dunham, General Passenger Agent; Allen Cook, Master Mechanic. The directors are John U. Brookman, H. B. Hammond and Thomas W. Shannon of New York; C. E. Stevens and Franklin H. Story of Boston; George W. Gill of Worcester, Mass.; E. F. Leonord of Springfield, Ill.: J. G. English of Danville, Ill., and F. W. Hindekoper of Chicago.

St. Paul; Minneapolis and Manitoba Railway.

This is a reorganization and extension of what was formerly the St. Paul and Pacific Railway. The report for the year ending June 30, 1879, covers what is known as the main line, extending from St. Anthony to Breckenbridge, a distance of 207 miles, and the branch line in operation during the time covered by the report, from St. Paul to Sauk Rapids, a distance of 76 miles, both being entirely within Minnesota. The returns, says the St. Paul Pioneer Press, show a steady growth of business and healthy financial condition. The following is a comparative statement of the gross earnings, operating expenses and net earnings for the fiscal years ending June 30, 1878 and 1879:

Gross earnings:	1878.	1879.
Freight	$362,674 10	$723,079 78
Passengers	188,407 64	244,527 83
Mails	7,632 00	6,952 77
Express	10,290 90	12,934 13
Rents, etc.	27,121 90	38,747 86
Totals	$595,826 54	$1,026,242 37
Operating expenses	359,217 45	507,204 62
Net earnings	$236,609 09	$519,037 75

—showing an increase in gross earnings of $430,415 83, with an increase in expenses of $147,987 17, making the increase in net earnings $282,127 66.

New York, Pennsylvania and Ohio R. R.

The Rev. J. Lockington Bates, Rector of Iden Parsonage, Sussex, England, who attended the recent sale under foreclosure of the Atlantic and Great Western Railway on behalf of the English and Dutch bondholders, in conversation with a reporter gave the following details of the plan under which it is intended to reorganize and operate the road:

The bondholders have raised $10,000,000 cash on a new issue of bonds. About half of this sum is to be devoted to paying off prior liens, and the other half to equipping the road. Its weakness hitherto has been that it has always been saddled with obligatory interests far beyond what it could possibly earn, and in consequence its financial condition has always been bad; but in future the obligatory interests will be kept down under $500,000, and interest on the present bonds will only be paid if earned. Only the $8 000,000 of the new prior lien bonds at 6 per cent will be obligatory; consequently there will be no fear of its falling into other hands. The road will be controlled by trustees in London, in whom the majority of the share capital will be vested—precluding the possibility of any one buying up the share capital. There will be no change in the management of the road. The bondholders are satisfied with the present officers, and will retain them. The road will be made standard gauge, and a large number of steel rails will be put down. The rolling stock will also be increased. Much of that now in use is being hired at an enormous rental. All this will be returned to its owners, and the new company will purchase and own all of its rolling stock. The company's name will be changed to the "New York, Pennsylvania and Ohio Railroad Company," because it passes through those three States. It will work in harmony with the New York, Lake Erie and Western Railroad Company, but will be independent of it. Several offers from other companies have been received, but the new organization have determined to make no special connectio with any. Work will be begun on the change of gauge as soon as possible—probably about the middle of next summer.

Riot Claim Bonds.

The Commissioners of Allegheny County, Penn., have placed their entire issue of bonds, amounting to $1,741,000, with which they intended to raise money to meet the riot claims. Of the whole amount, $1,430,090 was taken by the banks, and the remainder, $311,000, by individuals. The bonds were disposed of at par, and without any commission. There will be two series of bonds, of equal amounts, printed, and which will be given out as soon as they are ready. One-half will be made payable on the 1st of January, 1890, but will be redeemable at the option of the county at any time after the 1st of January, 1885. The other half will be made payable on the 1st of January, 1900, but redeemable at the option of the county at any time after the 1st of January, 1890. The rate of interest will be five per cent.

☞ The Sioux City and Nebraska Railroad Company, which is a consolidation of the Sioux City and St. Paul and the Omaha and Northern Nebraska Railroad companies, filed articles of incorporation at Omaha, Neb., Jan. 7. The capital stock is $6,000,000; indebtedness limited to $4,000,000. The connecting link is to be built next summer from Sioux City to Oakland, the terminus of the Omaha and Northern Nebraska Railroad, thus making a through line between Omaha and St. Paul. The officers are: President, Charles H. Bigelow; Vice President, Russell Blakely; Secretary, James H. Drake; Treasurer, Horace Thompson.

☞ Baled manure is now one of the articles of export from Baltimore. A company has started an establishment in South Baltimore, where half a dozen presses, similar to those used for cotton, are at work baling the manure. It is packed for shipment in parcels like bales of hay, and vessel loads are sent to North Carolina, Virginia and other States, while some has been ordered from Cuba. A covering of burlap bagging is put on some of the bales, and when thus prepared they are as neat looking as packages of dry goods. The material is procured on contracts for the stable product of street car companies and others.

☞ The Baltimore and Ohio Railroad Company is extending its system of telegraph lines, having now under construction a line from Parkersburg, W. Va., to Cincinnati, along the line of the Marietta and Cincinnati Railroad; also from Cincinnati to St. Louis, along the line of the Ohio and Mississippi Railway.

☞ The Kansas extension of the St. Louis and San Francisco Railroad made connection with the Atchison, Topeka and Santa Fe Railroad, at Severy, Kan., on the 13th inst. Permanent connection with the latter road will be made at Emporia, Kan., in a short time, when St. Louis will have another through line to Colorado and New Mexico.

☞ At the annual meeting of the stockholders of the New Haven and Northampton Railroad Company, held at New Haven, Conn., on the 7th inst. it was voted to build an extension from Northampton to Turner's Falls, with a branch to the State road at either Shelburne Falls or North Adams, at an estimated cost of $650,000, to be in operation in a year.

Statement of the Public Debt of the United States, January 1, 1880.

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $13,520,474 19; balance of interest paid by United States, $30,191,976 39.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Ontario and Pacific Junction Railway.

The first general meeting of the shareholders of the Ontario and Pacific Junction Railway was held in Toronto on the 5th inst. After the adoption of several by-laws the following gentlemen, who are mostly interested in the railways leading north, were elected. Directors: Hon. Frank Smith, President Northern Railway; Geo. A Cox, President Midland Railway, Peterborough; Ed. Gurney, Vice-President Hamilton and North-Western Railway, Hamilton: James Holden, Managing Director Whitby, Port Perry, and Lindsay Railway, Whitby; Hon. Alex. Morris, M. P. P., Toronto: James D. Edgar, Barrister, Toronto; Adam Brown, Merchant, Hamilton; A. T. Fulton, Director Whitby, Port Perry, and Lindsay Railway, Toronto; Robert Jaffray, Director Midland Railway, Toronto. At a subsequent meeting of the new Board, J. D. Edgar was elected President and Hon. Frank Smith Vice-President of the Company. Andrew Green, Toronto, was appointed Secretary.

☞ The work of locating the bed of the Little Rock, Mississippi River and Texas Railroad was commenced at Little Rock on the 26th ult.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, January 15, 1880.

There has been very little excitement or activity in any of the markets the past week. Wall street has been the most so; and, under continued buying, both of investors and speculators, values have gradually enhanced in spite of what has been supposed to be the desire of the large operators to depress the market still longer. At the close, however, there was really some excitement and activity in the coal shares, led by Jersey Central, on what appeared to be inside buying, upon a rumored heavy increase in earnings for the past year. Other coal shares sympathized. Pacific Mail has been exceptionally strong for no other reason than noted in our last for its predicted rise. The most remarkable advance was in Union Pacific stock and Kansas Pacific bonds on Wednesday on the rumored consolidation of their lines. But as they are practically consolidated now under Gould's management, we do not see why both should go up, unless Mr. Gould has a patent for getting the best end of the bargain for both roads. The Terre Haute shares also jumped up on a rumor that should have put them down—namely, that a new suit is to be commenced against the purchasing committee. Law suits do not usually enhance the value of property for railroads more than for individuals.

Some new fancies have gained favor in the dealings outside the bond list, while the Vanderbilt stocks have, in some cases, shown exceptional weakness, especially telegraph shares. The opposition new American Union Co. is said to be about ready for business, and that its stock

already finding sale privately, Erie, at the close, was, however, the most active, over 100,000 shares selling on Wednesday out of a total of 350,000.

Money has ruled in good demand at 5@6 per cent. until towards the close, when it became easier at 5@7 on call, under continued payment of dividends and interest and inflow from the interior, where the usual supply is not needed, because of the holding back of hogs in the West and the blockaded state of grain warehouses throughout the interior, which, together with the January thaw, stops the movement of grain also.

Exports have shown but a slight increase not withstanding the decline in breadstuffs of 12½@15c. on wheat from the top prices, and in premiums of 15@25c., for the European markets recede as fast as this instead of meeting it, tending to show full supplies there. Yet the value of exports is about the same as a year ago. Imports of gold are now exceptional and of unimportant amounts, for the same reason that exports are light. The imports of goods and iron are heavy, however, the customs duties paid in a single day this week at the New York Custom House being nearly $1,000,000.

Sterling exchange opened higher and advanced on Wednesday to 4.83½ posted rates 60 day bills, and 4.86 for 3 days' sight by Brown Brothers & Co. Later, however, it fell off on more liberal offerings of cable and demand drafts.

Mining stocks have been fairly active through out the list, and Hakill especially so on good reports from the mine. The tendency early in the week was to lower rates on the Pacific mines, and the reverse on Eastern mining shares; but, towards the close, this order was reversed, and the market was rather irregular, although a net gain for the week was established in most cases, as was the case in the stock market.

Government bonds have been active for investment at full rates, while railroad bonds of all kinds have advanced under strong and combined investment and speculation demands. Even State bonds are growing in favor from the scarcity of good railroad investments at or below par.

As noted above, the wheat market has lost bottom for the moment under the selling out of a part, or a partial selling out of the entire combination. This is thought, however, to be but temporary, as the clique still control it. With this all other export staples of food have fallen off.

Cotton has been irregular and inactive for the week past, while exports are very light at current rates.

Iron has continued active at the advance of last week, and the market bare of spot supplies and the manufacturers slow to contract ahead. Large contracts for foreign iron ore have been made, and a large number of vessels chartered for its shipment. Otherwise ocean freights have ruled dull, and without much improvement since early in the week.

Recent developments in the Green Mountain lower tunnel are of great interest and highly encouraging to those who are interested in the property. The vein is assuming a more definite position and character, and he owners feel satisfied that they have the main ore body on which they worked above. We look forward with great interest to the future developments and success of this splendid property. A telegram, dated San Francisco, Jan. 9th, which we saw at the company's office in this city, reads as follows: "Advices from mountain to-day splendid; strike made in lowest level; developments beyond expectation.—Signed, J. PROWATTAIN."

The letter from the Superintendent of the Homestake Mine, dated Jan. 6, reports the incline and vertical shafts now in operation, so that no lack of ore is expected in any kind of weather.

Cyrus J. Lawrence of the old and widely known firm of Lawrence Brothers & Co., has been elected a member of the Governing Committee of the Stock Exchange, in place of Daniel T. Worden, who retires on account of ill health.

The report of the Philadelphia and Reading Railroad and of the Coal and Iron Company will be found in our news columns. The report speaks for itself, and it shows, in some respects, a contrast to that of the Philadelphia, Wilmington and Baltimore, given in our last, which, in turn, showed a marked contrast to the Erie report, published a week before. The net loss on the Reading's operations for the year is $842,000, notwithstanding the advance in coal and the active demand.

The closing quotations on Thursday were: Adams Express, 107@107½; American Express, 58@58¼; Atlantic and Pacific Telegraph, 40⅝@40⅞; Canada Southern, 72⅝@72⅞; Central of New Jersey, 82⅛@82½; Chesapeake and Ohio, 21¾@22; do. 1st pref., 31@33; do. 2d pref., 24@24½; Chicago, Burlington and Quincy, 142@144; Chicago and Alton, 107@108; do. pref., 120@—; Chicago and Northwestern, 91@91¼; do. pref., 107@107¼; Chicago, Milwaukee and St. Paul, 76⅞@77; do. pref., 102¾@103; Chicago, Rock Island and Pacific, 152½@153; Cleveland, Columbus, Cincinnati and Ind., 77½@79; Columbus, Chicago and Indiana Central, 21¼@21⅜; Delaware and Hudson Canal, 75½@77; Delaware, Lackawanna and Western, 85½@85⅝; Erie, 43¼@43⅜; do. pref., 69½@70; Hannibal and St. Joseph, 35¾@36; do. pref., 66@66½; Illinois Central, 102¼@103; Kansas Pacific, 96@97; Lake Shore and Michigan Southern, 100⅝@100¾; Michigan Central, 89½@90¾; Morris and Essex, 104@104½; Manhattan Railway, 52¼@53; Metropolitan Elevated, 118@119; New York Elevated, 125½@126½; N. The Exposition of 1883.

We are glad to see that the managers of our great railroads are taking an interest in the proposed Exposition of 1883, as shown by the enthusiastic meeting at Chickering Hall on Monday evening, which was addressed by President Jewett of the Erie Railroad.

No class of business men are in position to assist such a National enterprise in which the question of transportation, which they control, is the most important, so much as our Railroad Managers. Mr. Jewett is no doubt acting in their behalf as well as that of his own road, in thus taking prominent part in the preliminaries of the Exposition.

We have not space at this time to note the arguments advanced by him in support of this scheme at the time fixed, 1883, and in favor of this city. They are however unanswerable and we hope, as he expressed the wish, there will be no rival committees, hereafter. We are equally sorry however to see politicians like General Hawley of Connecticut attaching themselves to this enterprise as they did to the Philadelphia Exposition, in order to conduct it as a personal political machine, which he tried to do and would have done in 1876 had not the citizens of Philadelphia who were in the management made a square issue with him and checked his purposes. This was not accomplished however until he had actually endangered the success of the affair. The citizens of New York must take the Exposition in hand themselves if they would make it a success as did Philadelphia, and we do not want the dead weight of local or National politicians super added to what will be a severe tax upon our city at least.

☞ The receipt of intelligence at New Orleans of the signing of the contract to complete the Texas and Pacific Railway to El Paso is cause of much pleasure in that city. The road extending from Vicksburg westward to Monroe has passed into strong hands that promise to complete it to Shreveport within a year, so as to connect at that point with the Texas and Pacific, now running beyond Fort Worth. With the New Orleans Pacific extended to Shreveport, and the Morgan Road finished to Houston, New Orleans will have three outlets from Texas and as many connections with the Texas and Pacific.

☞ The earnings of the Chesapeake and Ohio Railway Company for the month of December, 1879, were $185,559, against $186,949 09 for the month of December, 1878—an increase of $48,609 91. For the first quarter of the present fiscal year (October 1 to Dec. 31, 1879) the earnings were $516,958 20, against $464,742 12 for the corresponding period of the previous year—an increase of $52,216 08.

☞ The Cleveland, Columbus, Cincinnati and Indianapolis R. R. Co. have declared a dividend of 2½ per cent, payable on the 1st of February. This is the first dividend since February, 1876, when 8 per cent was paid.

Philadelphia and Reading Railroad.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company held in Philadelphia on the 12th inst., the following gentlemen were unanimously elected to serve for the ensuing year: President, Franklin B. Gowen; Managers, H. Pratt McKean, A. E. Borie, J. B. Lippincott, John Ashhurst, Henry Lewis, and L. V. Williamson; Treasurer, Samuel Bradford; Secretary, David J. Brown.

From the report of the President, which was presented, we learn that the receipts from operation of the road for the years ending November 30, 1878 and 1879 were as follows:

1878.

Travel, 6,876,413, equal to 807,642 through passengers	$1,526,423
Mdse., 2,757,838 11-20 tons	2,690 766
Coal, 5,909,140 4-20 tons	7,206,952
Mail	41,665
Miscellaneous	73,787
Gross receipts	$11,539,593
Gross expenses	7,319,366
Net profits	$4,220,227

1879.

Travel, 7,908,648, equal to 1,064,832 through passengers	$1,994,159
Mdse., 4,177,976 tons	3,827,496
Coal, 2,147,579 15-20 tons	7,166,222
Mail	44,944
Miscellaneous	53,531
Gross receipts	$13,106,352
Gross expenses	8,987,341
Net profits	$4,119,011

		Per Cent.
Travel	Increase, $467,736	—30 6-10
Merchandise	Increase, 1,136,780	—42 2-10
Coal	Decrease, 20,730	—00 3-10
Mail	Increase, 3,279	— 7 9-10
Miscellaneous	Decrease, 20,256	—27 5-10
Gross receipts	Increase, $1,566,759	—13 6-10
Gross expenses	Increase, 1,667,975	—22 8-10
Net profits	Decrease, $101,216	— 2 4-10

Gross expenses, including renewal fund, rents of lateral roads, taxes, &c., in the

Year 1878 were 63 4-10 per cent of gross receipts.

Year 1879 were 68 6 10 per cent of gross receipts.

The receipts and expenses, per passenger and per ton, including renewal fund, rents of laterals, taxes, &c., and based upon coal tonnage of Main Line and branches only, have been as follows:

1878.

Per passenger. Cost,	$0 17 5-10	Rec'd	$0 23 9-10
Mdse. per ton. "	67 3-10	Rec'd	97 6-10
Coal, per ton.. "	89 7-10	Rec'd	1 48 9-10

1879.

Per passenger. Cost,	$0 18 7-10	Rec'd	$0 25 2-10
Mdse. per ton. "	56 6-10	Rec'd	91 6-10
Coal, per ton.. "	81 9-10	Rec'd	1 12 6-10

Including renewal fund, rents of laterals, taxes, &c., and based upon entire coal tonnage of the company, on Main Line, branches, and laterals:

1878.

Per passenger. Cost,	$0 17 5-10	Rec'd	$0 23 9-10
Mdse. per ton. "	67 3-10	Rec'd	97 6-10
Coal, per ton.. "	73 5-10	Rec'd	1 22

1879.

Per passenger. Cost,	$0 17 7-10	Rec'd	$0 25 2-10
Mdse. per ton. "	56 6-10	Rec'd	91 6-10
Coal, per ton.. "	64 2-10	Rec'd	88 2-10

The above statements embrace all expenditures of the company, except interest on the funded debt, and include rents of leased railways, renewal fund and taxes. Excluding all charges other than the proper working expenses of the road, the cost will be as follows:

I. Based upon the coal tonnage of the Main Line and branches only:

1878.

Per passenger. Cost,	$0 13 2-10	Rec'd	$0 23 9-10
Mdse. per ton. "	49 4-10	Rec'd	97 6-10
Coal, per ton.. "	62 5-10	Rec'd	1 48 9-10

1879.

Per passenger. Cost,	$0 12 3-10	Rec'd	$0 25 2-10
Mdse. per ton. "	37 1-10	Rec'd	91 6-10
Coal, per ton.. "	57 8-10	Rec'd	1 12 6-10

II. Based upon the entire coal tonnage of the company, including laterals:

1878.

Per passenger. Cost,	$0 13 2-10	Rec'd	$0 23 9-10
Mdse. per ton. "	49 4-10	Rec'd	97 6-10
Coal, per ton.. "	51 2-10	Rec'd	1 22

1879.

Per passenger. Cost,	$0 12 3-10	Rec'd	$0 25 2-10
Mdse. per ton. "	35 1-10	Rec'd	91 6-10
Coal, per ton.. "	45 3-10	Rec'd	88 2-10

As condensed from the Transportation and Income Account, the result of the year's business may be stated as follows, viz:

Receipts over cost of working the road		$4,119,011 03
Add profit on steam colliers		358,863 33
Add credit balance of Profit and Loss Account		42,751 98
		$4,520,626 34
From which deduct—		
Loss upon the business of the Schuylkill Canal	$334,057 56	
Less profit upon the business of the Schuylkill Canal Transportation Line	33,976 80	
	$300,088 76	
Loss upon the business of the Susquehanna Canal	175,381 46	
		475,462 22
		$4,045,164 12
Interest on bonded debt for the year	$4,624,014 81	
Interest for year on bonds & mortgages	118,427 25	
Debit balance of interest account	366,143 79	
		5,108,585 85
Debit balance for year ending November 30th, 1879, charged to Profit and Loss, and appearing in balance sheet		$1,063,421 73

The above debit balance results from charging full interest and rentals, irrespective of whether the same were payable in cash or in scrip, but of the amounts thus charged there was payable in scrip | $1,725,729 00
From which deduct loss above | 1,063,421 73
Leaving cash surplus earnings for the year | $662,307 27

The cash deficit of the Coal and Iron Company is:

Total interest charges	$1,054,985 99	
Less payable in scrip	121,170 00	
	$933,815 99	
Losses for the year	699,450 85	
	$1,633,266 84	
From which deduct cash surplus of the Railroad Company	662,307 27	
Leaving	$970,959 57	

representing the cash deficit of the operations of the two companies for the year, as against $824,950 94 for the previous year, an increase of $146,008 63.

The floating debt of both companies at the close of the year, including all outstanding wages certificates, was $9,152,909 61 against $6,419,003 38 at the close of the previous year, the latter sum not including the arrears of wages, for which, subsequently to the close of last year, wages certificates were issued.

The increase in the floating debt of $2,733,906 23 is accounted for as follows:

By cash deficit of the year's operations of both companies		$970,959 57
By reduction of arrears of wages, as follows:		
Amount due November 30, 1878	$1,137,934 04	
Am't due Nov. 30, 1879	460,111 87	
		677,822 17
By new railroads the terminal facilities, including connections with the North Penn. Railroad betw'en Nicetown & Tabor Junction, extension of branch at Harrisburg; cash deposit for purchase of Berks County Railroad; elevator wharf at Port Richmond, &c., &c.		368,465 98
By real estate purchas'd		83,647 40
By new barges, &c., built		24,210 44
By collieries purchased & improvements made at furnaces, &c.		330,976 93
By mortgage debts of Coal and Iron Company paid off		201,852 07
By increased amount of materials purchased and on hand		134,173 92
		$2,741,608 48

In view of the greatly improved condition of business, the managers have not hesitated to increase the floating debt for the purchase, erection and completion of such facilities as seemed to them absolutely necessary, and without which the company would have been unable profitably to move the very large tonnage expected in the immediate future. Since the close of the fiscal year, however, an agreement has been made for an advance for one year of 70 per cent, or $3,500,000 upon the $5,000,000 of unissued general mortgage bonds of the company coupled with an option to take the bonds at a price which will yield considerably more than a million dollars additional. A large proportion of this $3,500,000 has already been received since the close of the fiscal year, and applied to the reduction of the floating debt, which, at the close of business on January 10th, 1880, amounts to $6,780,543 of bills payable and call loans, to which must be added $635,015 for outstanding wages certificates, and $301,416 98 for outstanding certificates for materials. If the option of taking the $5,000,000 bonds is exercised it will reduce the floating debt to about $4,509,000, and while there can be but little doubt that the profits of the year 1880 will be sufficient to pay off this balance, it is also confidently believed that the increased earning power and improved credit of the company will, long before the expiration of the year, enable the managers to fund the floating debt upon terms more advantageous to the stockholders than the slower process of payment out of earnings.

The following statement shows the total amount of coupon scrip and income mortgage bonds outstanding at the close of and issued during the ear.

	Debenture and Guarantee Scrip.	General Mortgage Gold $ or £ Scrip.	Perkiomen Mortgage Guarantee Gold $ or £ Scrip.	Total.
Total amount to be issued	$6,134,365 00	$1,771,740 00	$101,250 00	$8,007,355 00
Amount issued to November 30, 1879	$5,689,148 10	$1,738,440 00	$99,180 00	$7,526,768 10
Less received with freight bonds and canceled	3,085 00			3,085 00
	$5,686,118 10	$1,738,440 00	$99,180 00	$7,523,733 10
Converted into income mortgage bonds	2,219,140 00	4,860 00		2,218,000 00
Outstanding November 30, 1879	$3,472,978 10	$1,733,580 00	$99,180 00	$5 305,733 10
Amount of scrip issued during year ending November 30, 1879	$319,740 80	$22,140 00	$2,070 00	$343,950 80
Amount of Income mortgage loan issued during year ending November 30, 1879	$172,000 00			$172,000 00

The balance sheet of the railroad company will show a decrease of $2,300 of the debenture bonds of the company, that amount having been received in accordance with their terms for freight.

The total amount of wages certificates issued during the year was $4,837,090; the total redeemed to date, $4,202,075—and the balance outstanding January 10, 1880, $635,015.

It is not believed that there will be any necessity to issue more of these certificates, as the managers have no reason to doubt their ability to pay wages hereafter promptly in cash.

The comparative traffic of the company for the last three years is shown by the following table:

	1877.	1878.	1879.
Number of passengers	6,674,889	6,376,413	7,908,648
Number tons coal, 2240 lbs	7,255,318	5,909,140	8,147,580
Number ton mdse., 2000 lbs	2,837,648	2,757,839	4,177,976
Number tons Co.'s materials, 2000 lbs	213,981	412,110	631,753

Total tonnage of company (2000 lbs.), including weight of passengers and company's materials:

1876.	1877.	1878.	1879.
10,286,826	11,838,826	10,383,817	14,678,159

Of the various leased lines of railway, the Catawissa Railroad shows an increase of earnings of $18,051 74; the Philadelphia, Germantown and Norristown Branch, an increase of $18,882 66 as compared with the previous year. The workings of the Reading and Columbia Railroad Company, including its leased line to Quarryville, show an increase of $26,522 11. The Perkiomen lease was surrendered, and all ownership or control of that line given up at the time of the lease of the North Pennsylvania Railroad.

The Express department shows a net profit for the year of $59,098 82 as against $52,335 73 for the prior year, an increase of $6763 09.

The Steam Colliers service shows a profit of $358,863 33 for the year, as against $232,425 58 for the previous year, an increase of $126,437 75.

The Canals show a loss, after payments of rents, of $475,462 22, as against a loss of $278,609 30 for the year 1878, the increased loss being partly accounted for by the low rates of coal transportation and partly by the extreme drought during the autumn, which for many weeks seriously interfered with the economical movement of traffic.

The following general income account shows the result of the year's business of the Philadelphia and Reading Coal and Iron Company, of which the following is a condensation:

RECEIPTS.

Coal rents, 997,822 9-20 tons	$179,612 87	
Land rents	22,856 56	
House rents	90,870 26	
Furnaces and iron ore rents	4,070 28	
		$297,509 97
Coal sales, 4,456,343 10 20 tons		9 892,029 94
Iron ore sales, etc., 39,442 19 20 tons		94 134 44
Miscellaneous receipts		29,123 91
Total receipts		$10,312,798 26

EXPENSES.

Taxes on real estate	$112,468 01	
Repairs of houses, etc	32,824 61	
Mining 4,269,929.05 tons, at $1 14.3	4,881,367 91	
Coal purchased, 246,496 12 20 tons	494,880 89	
Royalty leased collieries, 1,144,369 17 20 tons	373,918 52	
Fines on condemned coal	16,903 57	
Expenses mining department	33,448 06	
Paid Philadelphia and Reading Railroad Company for Main Line and lateral tolls, etc., etc.	4,817,912 96	
Freight on boats owned by individuals	85,818 02	
Delaware and Raritan tol's and towing	23,129 58	
Discharging	22,351 07	
Towing	35,727 45	
Railroad tolls, shipping expenses, etc., South Amboy	65,174 60	
Expenses New York Harbor and Port Johnston	19,000 53	
Insurance	3,826 99	
Expenses New York and Eastern offices	44,311 16	
Commissions, allowances and rebates	343,792 80	
Iron ore mining, royalty, etc.	74,718 13	
Expenses Philadelphia office, etc., etc.	137,485 71	
Expenses Pottsville office, storehouses, etc.	9,160 57	
Expenses engineering department	51 105 40	
State tax on coal	152,622 28	
	$11,331,943 32	
Less value of coal added to stock	176,366 53	
		11,155,576 79
Net loss for the year		$842,778 53
From which deduct the credit balance of profit and loss account		143,327 68
Amount charged to profit and loss account		$699,450 85

The coal tonnage of the estates for the year, as compared with the year 1878, was as follows.

	Mined by Company.	Mined by Tenants.	Total.
1879	4,269,929 5 20	1,300,322 8 20	5,570,251 13 20
1878	2,727,608 1 20	1,100,181	3,827,789 1 20
Inc.	1,542,821 4 20	200,141 8 20	1,742,462 12 20

The actual cost of mining and delivering coal into railroad cars for year was $1 14 8 10 cents per ton, as against $1 23 7-10 cents in 1878, and 1 03 9-10 cents in 1877.

The general balance sheet of the Coal and Iron Company is herewith submitted. Of the interest account for the year, $1,054,985 99, the sum of $121,170 was payable in scrip.

☞ The Scale Works of Riehle Bros, Philadelphia, have been running until 9 O'Clock every evening, having large orders for Beams and other weighing apparatus for the Custom Houses at the chief cities throughout the country. They are in receipt of an order for a new design Testing Machine of 150,000 lbs. capacity for the Bethlehem Iron Co. with all the latest improvements, and they report a great demand for their Patent Self Adjusting Railroad Track Scales, and Furnace Charging Scales.

☞ The Atlantic and Great Western Railroad, which was sold at Akron, Ohio, on the 6th inst., by Gen. J. H. Devereux, of Cleveland, Special Master Commissioner, under foreclosure proceedings in the Summit County Court of Common Pleas, and similar courts in Pennsylvania and New York, was bid off by R. G. Rolston and Sam'l A. Strang, of New York, purchasing committee for the English bondholders, under a reorganization scheme, for $6,000,000—its minimum appraisement.

☞ The Homestake Mining Company has declared the regular monthly dividend of Thirty cents per share for December, payable at the office of Wells, Fargo & Co., No. 65 Broadway, on the 26th inst.

The undersigned will transact a general banking and railway commission business under his own name, at No. 30 Pine-st. SAM'L A. STRANG.

Bullion Product of Nevada, 1878-'79.

In the report of the Director of the Mint is a statement of the gross bullion product of all the incorporated mines of the State of Nevada, for the fiscal year ended June 30, 1879, showing the number of tons of ore handled, with the gross value of the metallic product which, recapitulated by counties, is as follows:

	Tons of Ore.	
Elko	16,345	$994,883
Esmeralda	27,279	958,692
Eureka	118,502	4,233,000
Humboldt	16,122	251,311
Lander	7,968	821,864
Lincoln	46,943	808,378
Lyon	109,800	511,599
Nye	31,462	749,737
Ormsby	67,853	464,688
Storey	241,335	8,824,962
White Pine	18,001	686,364
Totals	691,010	$19,305,474

For the fiscal year 1877-'78 the amount of ore treated, (some 940,982 tons) yielded $47,676,864.

The decrease is due to the extent of $26,953,386 from the decreased product of Storey county, as follows:

	Tons.	Value.
1877-'78	592,100	$35,778,348
1878-'79	241,335	8,824,962

Substantially, this decrease occurred through the shrinkage in the product of the Consolidated Virginia and California during the last fiscal year from that of 1877-'78—the California and the Consolidated Virginia having yielded $33,101,000 in 1877-'78 to $7,072,000 in 1878-'79, while the product of Eureka county was $1,751,000 less in 1878-'79 than in 1877-'78. Elko county also fell off. At the same time the total profits in the way of dividends for 1878-'79, footed up $5,485,000. The product of the State, as reported by Mr. John J. Valentine, of Wells, Fargo & Co., for the whole year of 1879 was $21,997,714, which is a falling off of $18,194,235 from the product of 1878.

Atlantic and Gt. Western Railroad.

The sale of this road, which took place at Akron, Ohio, on the 6th inst., under foreclosure proceedings, to the purchasing committee for the English bondholders, is of importance to our railroad interests from the fact that in connection with the New York, Lake Erie and Western Railroad it will form one of our principal connections with the Western and Southwestern States via the Hoosac Tunnel. The road, which was sold for six million dollars, its minimum appraisement, was built during the inflation era by English capitalists, and before the sale was represented by a capital stock of $34,675,000 and a bonded indebtedness of $68,850,000. As its net earnings for the past year show a deficiency of many thousand dollars after paying for rentals, &c., it would seem that the price it brought at the sale was much nearer its true value than its old indebtedness.

The road, which extends from Salamanca, N. Y., to Dayton, Ohio, 387 miles, with branches 34 miles in length, and leased lines 90 miles in length—or 512 miles in all—is now to be taken in hand by the purchasing committee, who have succeeded in raising ten million dollars more of capital, which is to be used in reducing the gauge of the road to that of other eastern roads, supplying it with ample rolling stock and improving its condition generally. Several important connections to Western points are also contemplated. Its track is to be changed to the common gauge by the first of June, when, in connection with the New York, Lake Erie and Western, the Albany and Susquehanna division of the Delaware and Hudson, the Boston, Hoosac Tunnel and Western, and Fitchburg Railroads, we shall have another excellent, all-rail connection from Boston to Western points—the Western connections of the Atlantic and Great Western, to Chicago, St Louis and Cincinnati being first class in every respect.

As our all-rail connections to the West stand at the present time they are at some points under the control of Vanderbilt, but within a few weeks we shall have two distinct and independent connections—one over the lines mentioned above and the other via the Grand Trunk, which will soon have its recently purchased line from Port Huron to Chicago in running order, when its traffic to the West will probably be taken over the new line instead of over the Michigan Central as at present.—[Boston Journal.

Mining Dividends of 1879.

We copy from the Mining Record the following detailed statement, showing the incorporated mines which have paid dividends during 1879:

GOLD MINES.

Name.	No.	Amount.
Amador Consol., Cal	1	$7,500
Bodie Consol., Cal	6	300,000
Empire (Amador), Cal	4	64,000
Excelsior, Cal	9	165,000
Findley (Georgia)	4	8,000
Father De Smet, B. H., Dak.	1	30,000
Green Mountain, Cal	6	37,500
Homestake, B. H., Dak.	12	360,000
Idaho, Cal	12	142,600
Pioneer Gold M. Co., Cal	2	8,000
Plumas National, Cal	6	54,000
Plumas Eureka, Cal	1	60,937
Sierra Buttes, Cal	1	46,875
Standard, Cal	12	600,000
		$1,874,412

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of November, 1879:

	1879. Month.	1879. Year to date.
Gross receipts:		
Railroad traffic	$1,308,658 26	$13,106,852 27
Canal traffic	122,534 64	839,907 12
Steam colliers	79,790 17	674,260 93
Richmond coal barges	20,220 86	169,734 84
Total Railroad Co.	$1,531,203 93	$14,790,255 16
Reading Coal & Iron Company	1,176,403 35	10,312,798 26
Total of all	$2,707,607 28	$25,103,053 42
Tonnage and passengers:		
Tons of coal on railroad	777,694 17	8,147,579 15
Tons of merchandise	490,331 13	4,809,729 07
Passengers carried	675,089	7,908,648
Coal transported by steam colliers	53,423 00	551,775 00
Tons of coal mined:		
By Coal and Iron Co.	368,969 02	4,269,920 05
By tenants	152,321 07	1,300,322 08
Total mined from lands owned and controlled by Co. & from leasehold estates	521,290 09	5,570,251 13

	1878. Month.	1878. Year to date.
Gross receipts:		
Railroad traffic	$1,356,830 64	$11,539,592 80
Canal traffic	219,929 99	1,010,337 39
Steam colliers	87,497 63	574,699 03
Richmond coal barges	18,763 59	111,491 78
Total Railroad Co.	$1,683,021 85	$13,236,121 00
Reading Coal and Iron Co.	1,129,081 86	8,192,077 99
Total of all	$2,812,103 71	$21,428,198 99
Tonnage and passengers:		
Tons of coal on railroad	803,807 17	5,909,140 04
Tons of merchandise	271,141 15	3,169,948 05
Passengers carried	471,192	6,376,413
Coal transported by steam colliers	48,834 00	574,991 00
Tons of coal mined:		
By Coal and Iron Co.	378,590 14	2,727,608 01
By tenants	144,064 15	1,100,181 00
Total mined from lands owned and controlled by Co. and from leasehold estates	522,645 09	3,827,799 01

New York, Ontario and Western Railroad.

The suit of James G. Stephens, Receiver, and others against the New York and Oswego Midland Railroad Company and others has been decided in favor of the plaintiffs, and a deed of the entire property has been executed and delivered by Kenneth G. White, Master in Chancery, to Conrad N. Jordan, Cashier of the Third National Bank, of this City, who represents the bondholders of the defunct corporation and the holders of the Receiver's certificates. The consideration expressed in the deed is $4,600,000—$100,000 of which is cash and $4,500,000 in bonds, Receiver's certificates, and past due coupons. The property thus conveyed consists of the main line, which runs from the city of Oswego to Middletown, Sullivan County; also, the different branches from the main line to Cortland, to New Berlin, to Delhi, to Kingston, and to Ellenville, together with all the lands, tracks, lines, rails, bridges, viaducts, culverts, ways, rights of way, materials, buildings,

ferries, ferry boats, piers, wharves, erections, walls, fixtures, telegraph poles, telegraph wires and appurtenances to telegraphs, privileges, easements, rights under leases, terms and parts of terms, agreements, covenants and contracts of all and every kind, franchise rights and interests, real estate, personal property, choses in action, r ay stations and depots, engine houses and machine shops, locomotives, engines, tenders, cars of every kind, carriages, rolling stock, materials, tools, machinery ; also, all the tolls, incomes, issues, and profits.

The purchasers intend to form a new company under the name of the "New York, Ontario and Western Railroad Company," with a capital of $10,200,000, $200,000 of which is to be cash, to be used to pay the outstanding bonds and Receiver's certificates. The $10,000,000 of stock is to be divided as follows : two million dollars preferred stock to the holders of the Receiver's certificates, the balance, $8,000,000, of common stock to the bondholders.

OFFICE GREEN MOUNTAIN GOLD MINING CO., OF CALIFORNIA, No. 54 BROAD-ST., NEW YORK, January 12, 1880.

DIVIDEND NO. 7.

THE BOARD OF TRUSTEES HAVE THIS DAY declared the seventh monthly dividend of FIVE CENTS PER SHARE on the Capital Stock of this Company for the month of DECEMBER, and an extra dividend of TWO AND A HALF CENTS PER SHARE from the accumulated surplus of the company, both payable on the 26th instant.

Transfer-books close on the 20th and re-open on the 28th of January.

L. D. CORTRIGHT, Secretary.

OFFICE OF THE HOMESTAKE MINING COMPANY, No. 31 BROAD-ST., NEW YORK, Jan. 12, 1880.

DIVIDEND NO. 13.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for December, payable at the office of Wells, Fargo & Co., No. 65 Broadway, on the 26th inst. Transfer-books close on the 20th inst.

H. B. PARSONS, Assistant Secretary.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY, 9 NASSAU STREET, NEW YORK, Jan. 8, 1880. — THREE DOLLARS PER SHARE will be paid on presentation of Dividend Warrant No. 9, on or after February 1, at this office, or at the company's office in San Francisco.

C. P. HUNTINGTON, Vice-President.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM No. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern. Also Speigel and Ferro Manganese.

New York, New England and Western

INVESTMENT CO.

(INCORPORATED.)

Capital Stock, - - - $200,000

NEW YORK, BOSTON, PHILADELPHIA & CHICAGO

31 and 33 Pine St., New York.

Money carefully invested for Capitalists, Trustees of Estates, Savings Banks, Insurance Companies and other investors.

Special attention given to Financial Negotiations for Railroad Companies. Will act as Stock Transfer Agent and Trustee for Bondholders, pay coupons, etc. etc.

Financial Negotiations conducted or States, Counties, Towns and Cities.

JOHN C. SHORT, President.
GEO. W. DEBEVOISE, Vice President.
WM. P. WATSON, Secretary and Treasurer.

FIRST MORTGAGE

FORTY-YEAR

7 Per Cent. BONDS

(Convertible) of the

ST. LOUIS, HANNIBAL AND KEOKUK RAILWAY COMPANY,

PRINCIPAL PAYABLE Oct. 1. 1917,

at the agency of the company in the City of New York. Interest payable April 1 and Oct. 1 at the same place.

THESE BONDS are secured by a FIRST MORTGAGE on the ROAD, EQUIPMENT, PROPERTY, and FRANCHISES of the company (limited to $12,000 per mile), and convertible into stock at the option of the holder.

$1,300,000 CASH, equal to more than one-half the total cost of the road, has already been EXPENDED in construction and equipment. A LARGE PORTION of the ROAD is NOW in OPERATION, and the BALANCE WILL BE COMPLETED WITHIN SIX MONTHS.

Copies of the mortgage may be examined and full information had at the office of the undersigned, by whom the above bonds are offered for sale at 90 and accrued interest, the right being reserved to advance the price without notice.

AMERMAN & BURWELL, Bankers,

NO. 16 BROAD-ST., NEW-YORK.

INTERSTATE AND INTERNATIONAL

MECHANICAL EXCHANGE,

No. 20 East 13th Street,

(Near Union Square bet. Broadway & Fifth ave.)

NEW YORK, U. S. A.

A. S. GEAR, Manager, (late of Boston, Mass.)

An equitable purchasing and selling agency, and bureau of Practical Knowledge. Reliable information concerning Machinery and Mechanical Supplies, (any kind, style or make) Patents, and Mechanics; Purchases made, sales effected, help furnished, inventions patented, litigations carefully conducted.

☞ From 5 to 25 per cent saved in doing business through the Exchange. A large variety of meritorious mechanical devices always on exhibition, and new and novel contrivances are kept in motion. Send for explanatory circular.

Knox & Shain,

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two medals awarded by Franklin Institute, and one by Centennial.)

THEO. SUTRO,

Attorney and Counsellor at Law,

(Rooms 50 and 51.)

80 Broadway, NEW YORK.

☞ Mining Patents, Cases and Contests.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

HARLAN A. PIERCE, Editor.

New York, Friday, January 23, 1880.

Plan of Consolidating the Union and Kansas Pacifics.

The cause of the mysterious advance in the securities of the Kansas Pacific Railroad during a year past, and of the Union Pacific stock recently, proves to be what has been already stated in our money article—namely, a consolidation of the two lines both in management and ownership. It is understood that there has been strenuous opposition to this scheme on the part of some of the directors of the Union Pacific who were not interested in the Kansas Pacific. This, however, has been overcome, it is claimed, by the advantages it would bring to the former road by enabling it to make more advantageous arrangements with the Wabash system for its entire Eastern business, from Kansas City, than it can now make from Omaha, because the charter of the Union Pacific compelled it to prorate with all roads running east from the latter point, whereas the charter of the Kansas Pacific has no such stipulation. The plan of the consolidation said to have been finally agreed to by all the parties, is substantially as follows:

The stock of the joint line is to stand as at present, viz: $36,762,300 Union Pacific, and $9,689,950 Kansas Pacific, or $46,452,250 in the aggregate. The Union Pacific Company is to issue $9,689,950 of new stock to take up the stock of the Kansas Pacific Company, which is to be delivered at the ruling market rate of the Union Pacific stock and canceled.

The mortgages now existing on both roads are to remain each a lien on its particular portion of either road, as at present. The funded debt of the Union Pacific is $77,424,512. The Kansas Pacific Company defaulted on its interest in 1873, and was reorganized in May, 1879. Under that reorganization, provision was made for the issuance of a new $30,000,000 mortgage 6 per cent gold bonds to run 40 years. Of this, $24,000,000 was to be used exclusively for the conversion of the outstanding debt, except that due to the United States, which amounted to $22,130,100, exclusive of overdue interest, as follows:

On Eastern Division bonds.....	$302,400 00
On Middle Division bonds.....	548,505 00
On Leavenworth Branch bonds.....	94,500 00
On Denver Extension bonds.....	1,004,692 50
On first land grant bonds	280,000 00
On second land grant bonds.....	286,212 00
On other coupons, upwards of.....	2,000,000 00
About	$4,416,309 50

—or nearly $27,000,000 altogether. To reduce the $3,000,000 overplus, a plan of scaling was devised, as follows: The Eastern and Middle Division, Denver Extension, and first land grant bonds, and the funded interest certificates were exchanged at par. So were the funding mortgage bonds, except that no allowance was to be made for the five overdue coupons. The Leavenworth Branch bonds and the unstamped income bonds were to receive but 50 per cent of their par value without interest, the stamped income bonds 30 per cent, and the second land grant bonds 50 per cent, both the latter with interest. The holders of the second land grant and income bonds fought the scheme and hence the refusal of the Stock Exchange to admit the $30,000,000 issue to the list. It is now said, however, that all but $70,000 of the former have been conciliated, by means of a clause in the mortgage which gives the company the option to pay interest in either cash or land. The latter are still holding out for par; but it is claimed that the books of the company were kept in such a way that there are no indications that any income has been earned from those portions of the road on which the bonds are a lien, and it is hoped in this way to effect the defeat of the bondholders.

From this it will be seen that Mr. Gould and his friends regain proprietory control of the Union Pacific as well as its official management and hence will control its elections; for he is said to own about three-quarters of the Kansas Pacific stock which he began buying at 5 cents on the dollar and completed the bulk of his purchases, it is said, at under 20.

The effect of this consolidation upon the prospects of the two roads, and upon their securities will be seen from the following: The capitalization of the Kansas Pacific is about $50,000 per mile for 750 miles of road exclusive of the new $30,000,000 mortgage which is to be issued to take up the older mortgage bonds. That of the Union Pacific is about $110,000 per mile for 1,042 miles of road.

The present prices of these two stocks indicate the expectation of at least 6 per cent dividends after the consolidation. Indeed this is given out semi-officially. A comparison of net earnings and fixed charges however will show that in 1878 under separate and antagonistic

management there was a dividend of about 5 per cent earned by the two roads combined. The gross earnings of the Kansas Pacific for the first six months af 1879 showed about $500,000 increase. The last six months are not reported, but are no doubt fully $500,000 more, making $1,000,000 increase for the year. We have no report of the Union Pacific for 1879, but it is fair to estimate $1,000,000 increase in the net earnings of the two roads for 1879, which would give nearly $10,000,000 for fixed charges of about $6,850,000, exclusive of interest on the $30,000,000 new Kansas Pacific bonds issued to retire the old issues. This would leave for dividends on the consolidated stock of $46,000,000 a sum equal to about $3,150,000 or over 7 per cent.

Hence it will be seen why both stocks have been advancing of late and why both roads are likely to be benefitted by the consolidation.

Is the Hog Crop Short.

As the movement of the hog crop, and its volume, are important items in railroad traffic and a source of large revenue to most of our roads, the outcome of this great crop is of interest to our railroad as well as commercial readers. We therefore give place to the following reports from the Cincinnati *Price Current*, for the first two months of the winter packing season, that the editor prefaces with the following remarks, which, in view of the facts and figures presented, we cannot but regard as significant:

"The lateness of the hour at which we have completed the compilation of the returns precludes anything but a brief comment on our part. We shall give the facts as they have been presented to us, and if our own interpretation of the evidence seems to be at variance with others, or what appears to be the showing of the returns, it may be received with such allowance as the reader may see fit to make for it."

He then says it is probable the six large cities will show for the season a decrease of 700,000 hogs, and that the total winter packing will be 500,000 less than last year, or 6,980,000 hogs against 7,480,000. He then cautiously adds, "These figures are offered as guesses which are liable to more or less variation." As these figures were used here to bull the market, though unsuccessfully, we will briefly analyze the returns of the *Price Current* upon which they were based. We quote:

"Ohio indicates an increase of about 60,000; Indiana 20,000 increase, Illinois but little variation, Iowa about 85,000 increase, Missouri no change of consequence, Kansas 50,000 increase, Michigan 20,000 decrease, and other States varying but little, compared with last winter."

The returns, however, show by adding Louisville that Kentucky has also an increase of 41,598. The actual packing shows a total deficit of 217,937 hogs, or less by 73,000 than that of Chicago, alone, where operations have been nearly suspended for a month by the strike. It will thus be seen that the predicted deficit is based chiefly upon the *Price Current's* correspondent's estimates of the balance of the crop. As their locality and personal interests would naturally lead them to underestimate the supplies back, it will be safe to verify their estimates before accepting them. The strike, the general tendency to hold back hogs to avoid a break in the market, the exceptionally warm winter which has checked operations everywhere, the January thaw and bad roads in the country, together with the high rates of freight which make it more profitable to feed corn than to ship it, and also the increased profit in feeding later than usual by reason of the warm weather and the lighter weight and poor condition of the hogs, have all naturally combined to keep back the bulk of the supplies much later than usual. It would therefore appear to require something more than these correspondents' estimates, to establish a deficit. Indeed the editor's own statement, quoted above, showing an increase of 215,000 hogs over last year, in four States, against a decrease of only 20,000 in one State with the other States the same except Kentucky which the returns show should be added, appears to give an actual increase over last year in all the hog producing States of 236,598, or 7,616,598 head. This would bear out the *Price Current's* own estimates made in November, in these words:

"In regard to the outlook for hogs for the winter, we see no possibility of there being less than last winter, and not much probability of an increase much if any greater than half a million head, which means that our present guess would be 8,000,000 head, though there are many who expect a much larger increase."

In concluding, the editor seems to be conscious of the inconsistency of the results of his correspondents' estimates, when he says:

The weather for some weeks has been so very warm as to suspend packing operations generally where the use of ice cannot be resorted to. The labor strikes at Chicago have checked the movement of hogs to that market, and there is a generally unsettled feeling there, and somewhat so elsewhere, so that the healthful course of the trade is being seriously interfered with. We believe there are enough hogs in the West, * * * but they are being held back, for reasons above cited and in hope of better prices, in many sections."

Hence we apprehend there need be no fear that the roads will not get as much traffic from this source as last year, though Keene's speculations may delay it. Should this be the case, or should hogs be kept back for any of the other reasons named until too late to appear in the winter packing it will make no difference in the final result for there will be just so many more to be packed in the spring and summer, as was the case last year, though from other causes. This cannot be otherwise, for the number of hogs by official returns this crop were about 3,000,000 more than for preceding crop, and the *Price Current* is authority for saying that never were so few hogs lost by cholera as during the past season. The hogs are therefore in the country and must come forward this year sometime.

Another Trunk Line to the Atlantic Seaboard, and one from the Lakes to the Gulf.

We learn from one of the officials of the Central Railroad of Georgia that the recent consolidation of the interests of the Nashville and Chattanooga and of the Louisville and Nashville Railroads under one management, secures another trunk line from the West to the Atlantic seaboard over the Central of Georgia from St. Louis and the Mississippi River to Savannah, Ga.; and another to the Gulf of Mexico over the Louisville, New Albany and Chicago and other roads named below from Chicago and the Lakes to both Mobile and New Orleans thus securing the West India trade. There has been an active contest going on for over a year between the Nashville and Chattanooga and the Louisville and Nashville directors for the control of the lines now secured by the Louisville and Nashville which controls every outlet from Tennessee, Kentucky, Georgia, Alabama, below Cincinnati on the Ohio and Memphis on the Mississippi—as there were several smaller roads leased or bought up by these rival interests during the contest for supreme control. Among these, in addition to those above named, were the Mobile and Montgomery road, the Kentucky Division of the St. Louis and Southeastern road from Nashville, Tenn., to Evansville, Indiana; the Western and Atlantic from Chattanooga to Atlanta, which was controlled by the State of Georgia; the Owensboro and Russellville road; the Georgia Western road and franchises, extending when completed from Atlanta to Decatur and probably the New Orleans and Mobile, making a total mileage under the control of the Louisville of 3,500 miles.

This new route from St. Louis to Savannah is said to be the shortest of the trunk lines from St. Louis and that the running passenger time will be 32 hours and freight correspondingly, the distance being about 900 miles. At Savannah two grain elevators are already being built, and also two steamers larger than those now in use to run between Savannah and New York for through business. Another line of steamers is also contemplated from Savannah for the through business to Europe.

The sale was completed by the transfer of the Nashville and Chattanooga stock held by Messrs. Stevenson, Evans and Baldwin. The payment involved $3,000,000, of which $1,000,000 is in cash, and for the remainder the Louisville and Nashville issues $2,000,000 debenture bonds at par, payable in four years and bearing 6 per cent interest payable semi-annually.

Col. E. M. Cole, President of the Nashville and Chattanooga Railroad, however, is opposing the new combination, and has ordered Suderintendent Culonhouse, of the Nashville,

Chattanooga and St. Louis road, to continue the work on the Evansville and Owensboro sections of that road and push the line through to completion as speedily as possible. It is claimed that Cole retains control of the St. Louis and Southeastern road, extending from St. Louis to Evansville, and that when the road to Nashville is completed he will have Southern connections, which will give him as complete a line as before the Louisville and Nashville road's purchase of a majority of the Nashville and Chattanooga road's stock.

The new combination now lack only an outlet North and East and are treating for this with the Penn. Railroad. Mr. J. N. McCullough, of the Pennsylvania Railroad Company, and Mr. H. Victor Newcomb, of the Louisville and Nashville, had a conference during the week relative to the joint acquisition of a road which forms a connecting link between the two systems. The matter will not be settled until a further conference has been held with President Scott and Vice President Cassatt, of the Pennsylvania Railroad.

Steel Rails in the United States.

Prices of steel rails, as of almost all other manufactured products, have steadily risen during the past few months in Europe and America, because of the revival of all business. The manufacturing industries of the United States and of Europe had been so long depressed that they were unprepared for the sudden and unexampled revival in trade and commerce which occurred last summer, and has since been maintained with constantly increasing activity. The world's supply of steel rails is to-day unequal to the demand, and in the United States the supply of iron rails, bar iron, pig iron, iron ore, and even of cars on the railroads for their transportation has been unequal to the demand since last July. Nor have the prices of steel rails advanced more rapidly than the prices of other articles—in fact, they did not advance so rapidly in 1879 as did various leading iron products. The following table will make this fact plain. The prices are Eastern Pennsylvania quotations:

	Jan. 1, 1879.	Jan. 1, 1880.	Percentage of increase.
No. 1 Anthracite foundry pig iron	$17 00	$35 00	106
Bessemer pig iron	20 00	40 00	100
Best refined bar iron	42 56	71 68	68
Bessemer steel rails at works	42 00	70 00	67
Best iron rails	34 00	57 00	68
Cut nails by the keg	2 10	4 25	102
Old iron rails	19 00	36 00	89
No. 1 wrought scrap	20 00	34 00	70

Since the 1st of January there has been an advance in the above prices, and it has been uniform. We may remark, however, that the price of Bessemer pig iron is now $45 a ton, which is $3 a ton higher than the price of steel rails a year ago. * * *

The price of English steel rails advanced steadily from $20 a ton last summer to $40 a ton at the close of the year—exactly 100 per cent. This advance was caused by the improved demand. At the middle of January of this year the price had advanced at a single bound from $40 to $52 50 a ton, or from £8 to £10 10s. * * *

Nor have our farmers suffered by the revived prosperity of the country. As we write a statement meets our eye that the Department of Agriculture has just published a table which shows that the staple crops of the past year have been worth nearly $416,000,000 more than those of the year before. * * * The general revival of prosperity in this country and the general advance in prices have enhanced the value of Western farms, and have furnished a market for millions of acres of Western lands held by land grant railroads. *

The railroads of the country have been very greatly benefitted by the improvement in the iron trade which has taken place during the past year. The freight carried by them for iron and steel producers, and for industries dependent upon the iron industry, has been increased millions of tons. While receiving this benefit the railroad companies have advanced their transportation charges on coal, coke, iron ore, iron and steel rails, and on freight of all classes, thus profiting twice by the revival in the iron trade. * * *

Next to agriculture, the iron and steel industries of this country supply the railroads with their heaviest tonnage. We learn from Mr. Potter, President of the North Chicago Rolling Mill Company, that the payments of his company to the Pittsburgh, Fort Wayne and Chicago Railway for freight, average $1,000 a day during the whole year, and that the payments of the company to the Chicago and Northwestern Railway for freight average $1,000 a day during six months of the year. The total payments of this one company to two Western railroads, it will be seen, aggregate almost half a million dollars annually. The Cambria Iron Company pays even a larger sum annually for freight charges. It Recently paid $84,000 in one month for freight alone to one road.

The railroads themselves have been sellers as well as buyers of rails, and we do not learn that they have ever offered to sell their old rails at less than the highest market quotations. In the table which we gave near the beginning of these remarks the price of old iron rails on the 1st of January, 1879, was $19 a ton, and on the 1st of January, 1880, it was $36 a ton, showing an advance of 89 per cent. In the same period new steel rails advanced only 67 per cent. The railroads, therefore obtained much more proportionately for the old rails they sold in 1879—and they sold a great many—than the steel rail manufacturers obtained for their product. As almost all of the steel rails that are laid down in this country are for the renewal or betterment of the tracks of old roads—an iron rail being taken up for every new steel rail that is laid down, it will be seen at a glance that the railroads which exchange old rails for new ones are not injured by the high price of steel rails. * * * * —[Bulletin of the Am. Iron and Steel Association.

Petroleum Trade.

From Stowell's Petroleum Reporter we learn that the total production in 1879 (including 4,615,299 barrels on hand at the commencement of the year) was 24,356,960 barrels; the total shipments in 1879 were 15,886,470 barrels—leaving on hand January 1, 1880, 8,470,490 barrels. It will be seen that the increase in stock during the year was 3,855,191 barrels, and that the actual production in 1879 was 19,741,661; the actual production in 1878 was 15,163,462 barrels—an increase of 4,578,199 barrels. The average price of crude at the wells for the year was 94⅜ cents per barrel, being 89⅝ cents less than for the year 1874, which has been considered heretofore the cheap oil year. The number of wells drilled during the year was 3,038, which number was not greatly in excess of former years. Only about 6¼ per cent of the wells completed proved to be dry or worthless against 11⅓ per cent of dry holes developed in 1878. The Reporter says:

"The maximum production of crude petroleum in the Pennsylvania oil fields was reached in August, 1879. Since that time the production has undoubtedly been steadily on the decline, and from present indications we may look for a continued decline, slowly but surely, until some new and unknown field shall be found which shall yield the precious fluid bountifully."

New York, New England and Western Investment Co.

Messrs. R. G. Rolston, President, and Geo. F. Talman, Vice President, of the Farmers Loan and Trust Company of New York, have been elected members of the Executive Committee of the Board of Directors of the New York, New England and Western Investment Company, Nos. 31 and 33 Pine street. The President, Vice President and Treasurer of the Investment Company are recognized as men of integrity, financial experience and conservatism. The company began business in this city about eighteen months ago, and its success has commanded the attention of moneyed people. The enterprise was original in its inception, and is said to have proved itself satisfactory to all parties in interest. One of its chief objects is to bring lenders and borrowers together; it also acts as financial agent for counties, towns, cities, railroads and other corporations. The company makes investments of capital in both Eastern and Western securities.

St. Louis, Vandalia and Terre Haute R. R.

The annual meeting of the St Louis, Vandalia and Terre Haute Railroad Company was held January 13th at Greenville, Ills. The directors report to the stockholders shows the earnings of the road the past year to have been $1,254,641 19, an an increase of $185 200 94 or 17⅛ per cent. The rental receivable by the Company from these earnings and other income amounts to $373,578 39. Against this was charged interest on bonds $315,935 and taxes and general expenses $36,397 27, total charges $351,327 27, leaving a surplus of $22,251 12. The old board was re-elected consisting as follows: Thos. A. Scott, Philadelphia; Wm. Thaw, Thos. D. Messler, Pittsburg, Pa.; W. R. McKeen, Terre Haute, Ind.; Robt. Dulaney, Marshall, Ills.; W. S. Smith, A. H. Henry, Greenville, Ills.; Chas. H. Seybt, Highland, Ills.; J. S. Piers, Collinsville, Ills. The new board subsequently organized by re-electing Thos. D. Messler, President W. H. Barnes, Treasurer, and Williamson Plant, Secretary.

☞ The favorable report of Levi C. Wade to the Sonora Railroad Company of Mexico on the Mexican grant has been accepted, and the contractors have been instructed to proceed immediately with their work, beginning construction at Guaymas. The road will run from Guaymas, which is the principal seaport of Sonora, nearly north to the northern border, a distance of about 230 or 240 miles, where it will connect with the Atchison, Topeka and Santa Fe Railroad.

☞ Grading was commenced on the 12th inst., on the Manhattan, Alma and Burlingame Railroad, a new road running from Burlingame, Kansas, on the Atchison, Topeka and Santa Fe Railroad, to Manhattan on the Kansas Pacific.

☞ Articles of incorporation have been filed in the office of the Secretary of State at Trenton, N. J., for a new railroad to run from the east end of Bergen Cut to Third street, near Phillip, Jersey City, and about one-fourth of a mile from the terminus of the Central Railroad of New Jersey. It will be three miles long, and the capital stock is $300,000, in shares of $50 each. The incorporators are Generals Wm. J. Sewell and Gershom Mott, Benjamin F. Lee, William Bettle, Jr., Ira M. Harrison, E. F. C. Young, F. O. Mathieson and J. H. Smith. This project is a substitute for the one filed some time ago for a railroad from the Point of Rocks to the Standard Oil Company's Works, and against which the Chancellor granted a permanent injunction on application of the Central Railroad Company.

Statement of the Public Debt of the United States, January 1, 1880.

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $13,520,474 19; balance of interest paid by United States, $30,191,976 39.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Finances of Philadelphia.

The annual report of the City Controller shows that the income of the city from revenue sources during 1879 was $14,539,901, of which $11,722,025 was from taxes. This income the new 4 per cent loan increased to $23,664,575. The expenditures of the year were $23,360,882, of which $10,151 611 was for payment of warrants for previous years. The Controller states that it will not be necessary to issue over $9,200,009 4s to meet the outstanding warrants, and recommends that $800,240 70 of the 4s held by the sinking fund be canceled and the City Treasurer pay that amount in money into the sinking fund. The city debt consists of $61,092,641 6s and $10,000,000 4s, there having been $220,600 6s paid off for 1879. If the above recommendation is carried out the total bonded city debt will be $70,169,801, and, with the warrants still outstanding computed in, the funded and unfunded debt will be $1,665,800 less than at the beginning of 1879. Deducting the value of the sinking fund assets, $25,718,373, the net funded and floating debt is $46 546,222. The annual charge of the city debt is $4,140,000 for interest and $807,155 for sinking fund appropriations, a total of $1,947,155.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, January 22, 1880.

The markets have been irregular and unsettled the past week, with an upward tendency in all stocks and bonds, and sharp advances in general securities, owing to new combinations and syndicates in railroad ownership and control, while the markets outside of Wall Street have had the reverse tendency, without activity, closing lower in most cases for speculative articles, except in the iron market. Money has ruled steady and in good demand at about old quotations, ranging from 4 to 6 per cent. The bank statement shows a steady increase in surplus reserve, equal to over $3,000,000, while foreign exchange has been quiet at about the closing rates of last week, there having been no increase in the supply of commercial bills as the speculation in all the export staples at this port has kept the prices above a shipping basis notwithstanding the decline, because the foreign markets are oversupplied and have fallen off as fast as this.

There has been more doing at the Southern Ports beginning at Philadelphia, however, and this has in a measure counterbalanced the light supply of commercial bills here. The placing of the Syndicate stock of the New York Central road on the London Market has also no doubt affected exchange somewhat.

The return of money from the interior continues as shown by the bank statement, and yet Keene had to send $2,000,000 from Wall Street to Chicago to keep up his margins there on wheat and lard, in which there has been such shrinkage and accumulation of stocks that the banks west

and here are calling in their loans and reducing their advances on these staples largely, for fear of a collapse in the whole speculation. This compelled Keene to realize on his Wall street securities and the break in stocks late last week was due to this fact, and to rumors on the street that some of the large Wall street bulls in breadstuffs and provisions were in a tight place. With this exception however the stock market has been slowly but steadily upward since our last, while as above noted there has been a decided activity and advance in several stocks under the stimulus of combinations and syndicates. Of these the most important is that of the Louisville and Nashville which has absorbed the Southern system of railways West of the Alleghanies to the Mississippi River and from the Ohio River to the Gulf of Mexico, with an outlet through Georgia to the South Atlantic Seaboard, through Indiana to the Lakes, and is about completing running arrangements with the Pennsylvania Railroad, for an outlet over its lines to the North Atlantic Seaports.

Fuller particulars of this will be found in our editorial columns, as well as of the next most important consolidation of the Union and Kansas Pacific, followed by the purchase of 100,000 shares of the Central Pacific stock by a Wabash Syndicate under Gould. These comprise the new combinations and consolidation of lines and interests for the week, though several more are in contemplation, among which the proposed lease of the Louisville, Cincinnati and Lexington jointly by the Pennsylvania Railroad and the new Louisville and Nashville consolidation by which these two interests will exchange east and west bound traffic to their mutual advantage and thus secure new outlets for both, instead of the Pennsylvania Railroad leasing the whole as wrongly reported. Another proposed consolidation is that of the Illinois Central with the Chicago, St. Louis and New Orleans, which was incorrectly announced as effected. We are informed by the Illinois Central officers that no change in their ownership of a controlling interest in said road has been made, but that they are improving it, having one-half laid with steel rails and ballasted, and arrangements made for completing it.

The effect of all these changes on the stocks and bonds of the several companies interested will be seen from our tables of quotations of the daily prices of the Stock Exchange.

The next most important feature in railroad circles are the indications of another more or less extended railroad war on freight rates consequent upon the reduced volume of business owing to the speculation in breadstuffs and provisions which is unnaturally keeping back these supplies which are enormous, and will be carried forward to the opening of Lake navigation and loose this traffic to the roads which they naturally would get at this season. The Northwest pool is already broken up by the action of the Northwest in retaliation for the Wabash monopoly at Kansas City.

The Trunk lines have also been in conference to consider a reduction in rates, but they adjourned without effecting it, owing in great part, it is said, to the strenuous opposition of the big speculators in breadstuffs and provisions whose interest require their products to be kept back as long as possible.

A dispatch from Springfield, Ill., January 21, states: "A final decree was to-day entered in the United States Circuit Court foreclosing the mortgage upon the Chicago and Paducah Railroad, fixing the amount due for principal and interest at $3,710,509, and ordering the road to be sold at Chicago by John A. Jones, Master in Chancery, after sixty days' notice."

The subscriptions opened by Messrs. Woerishoffer & Co. for the $5,000,000 first mortgage bonds of the Texas Pacific Railway Company closed to-day. They amounted to $10,049,000.

The demand for investment continues active and there are but few undoubted securities selling below par, where known and bearing 6@7 per cent interest. The most active stocks beside those named above were the Kansas and Texas and the Iron Mountain, supposed to be also the result of said combinations.

The Mining stock market has been quite active but prices have been lower both for Pacific Coast and Eastern mines. The former fell off with the North End mines of the Comstocks in San Francisco, and with that market this market has sympathized and Eastern stocks fallen off with the Pacific shares.

Imports and exports were about $6,000,000 each. The returns of railroads so far reported, show an increase of 27 per cent in their December earnings over same time last year, and of 8 per cent for the whole year. The Central Pacific shares sold here after the syndicate sale at 85 @87 or at 10@12 per cent advance over the Syndicate price in one day.

The closing quotations on Thursday were: Adams Express, 107@108; American Express, 56@57; Atlantic and Pacific Telegraph, 41@42; Canada Southern, 70¾@71; Central of New Jersey, 80⅛@80¾; Chesapeake and Ohio, 22¼@22½; do. 1st pref., 30¾@31½; do. 2d pref., 24¼@25; Chicago, Burlington and Quincy, 142½@142¾; Chicago and Alton, 108⅛@108⅜; do. pref., 120@—; Chicago and Northwestern, 90¼@90⅜; do. pref., 105½@106; Chicago, Milwaukee and St. Paul, 76⅜@76¾; do. pref., 101¾@102; Chicago, Rock Island and Pacific, 150@152; Cleveland, Columbus, Cincinnati and Ind., —@78¾; Columbus, Chicago and Indiana Central, 23⅞@24; Delaware and Hudson Canal, 74⅞@75⅛; Delaware, Lackawanna and Western, 84⅜@84½; Erie, 43⅜@43½; do. pref., —@68⅞; Hannibal and St. Joseph, 37¾@38; do. pref., 67¾@68; Illinois Central, 105@105¼; Kansas Pacific, 90@97; Lake Shore and Michigan Southern, 100⅝@100¾; Michigan Central, 89¾@90¼; Morris and Essex, 104@104½; Manhattan Railway, 51½@52; Metropolitan Elevated, 116½@118; New York Elevated, 124@125; N. Y. Sale of 100,000 Shares Central Pacific Stock.

ARE THE UNION AND CENTRAL PACIFIC TO BE CONSOLIDATED?

The announcement on Wednesday of the sale of 50,000 shares of the Central Pacific stock with an option of 50,000 more at 75 and 80 respectively, by C. P. Huntington and his associates to a syndicate of bankers and capitalists including Jay Gould, was as much of a suprise to the street and in railroad circles as was Vanderbilt's sale some months ago ; only that it was of far less magnitude and does not carry the same control as did the latter sale, nor does it change the directory of the Road. The stock is to be placed at once upon the New York Stock Exchange and the sale leaves the old managers of the road in control of the proprietory interest as before. That it is a part of the consummation of Gould's dream of a complete transcontinental line from ocean to ocean virtually under his control, cannot be doubted however ; for by his control of the Eastern connections he can have a voice in the Central Pacific at one end as with Vanderbilt at the other. Hence we ask if this is the first step toward a consolidation of these two roads, as was done with the Kansas Pacific. Virtually this was done before as to running arrangements, and as this purchase can give Gould no greater advantage unless he seeks eventually to control this management also by ownership, we cannot but regard this sale as a step in that direction.

The syndicate is composed as follows : R. P. Flower & Co., Prince & Whitely, Hatch & Foote, Kuhn, Loeb & Co., Hallgarten & Co., May & King, Marx & Co., I. & S. Wormser, Philip Speyer & Co., Fisk & Hatch, Brewster, Sweet & Co. of Boston, William R. Travers, August Rutten, Morton, Bliss & Co., Speyer Brothers & Co. of Holland, Russell Sage and Jay Gould. An Executive Committee, consisting of R. P. Flower, J. D. Prince and J. D. Probst, has been chosen to conduct the affairs of the syndicate. The stock will not be sold by subscription, but a portion of it will be offered early next week on the Stock Exchange. The length of the main line and of the branches operated with it is a little over 1,213 miles. The capital stock is $54,275,500, and the funded debt, exclusive of United States Subsidy bonds, is $56,-391,000. In recent years the company has paid dividends on its stock of 8 per cent which have been reduced since the passage of the Thurman bill to 6 per cent. In 1875 dividends amounting to 10 per cent were paid.

☞ The Miami Valley and Columbus (Ohio) Railroad has been graded to near Harveysburg.

Philadelphia and Reading Railroad.

We gave in our last a portion of the Report of the Philadelphia and Reading Railroad Company for the year ending November 30, 1879, including the income account, etc., of the Philadelphia and Reading Coal and Iron Co. The following is a continuation of the report:

The report of the Chief Engineer of the Coal and Iron Company, and the usual tables of statistics, will be found in the appendix to this report, which also contains the report of the Superintendent of the Rolling Mill, including with other data the usual annual table showing the life of the iron rails of the company's own manufacture in the tracks of the railroad, and exhibiting the gratifying result, that with an average annual tonnage of about ten millions of tons for the period embraced, but 22.7 per cent, or 38,949¼ tons, have been worn out and removed, out of 171,182 tons of rails made and laid in the track during the last twelve years.

In the month of May last, this company took possession, as lessees for 990 years, of the railroads, properties, and plant of the North Pennsylvania Railroad Company and the Delaware and Bound Brook Railroad Company, under leases which provide for the payment of an annual rental equal to the fixed charges of the lessors, and annual dividends to their shareholders of 6 per cent for the next two years, and 8 per cent for the remainder of the term.

By these leases the company not only secures to itself the future growth of the valuable local and suburban traffic of the North Pennsylvania Railroad, which, in connection with improved terminal facilities in Philadelphia, is capable of great expansion, but obtains by the Bound Brook Route, in connection with the Central Railroad of New Jersey, an independent and valuable line for the transportation of passengers, merchandise and coal to the city and harbor of New York. It was expected that when the leases were taken that the first year's business might show a loss of from $60,000 to $100,000, and that after the coal traffic of the company was turned upon the new line, all subsequent years would show a profit. Instead of this loss, however, the actual loss in working both lines for the first seven months of the lease has been but $6708.15, after payments of all rentals, and against this loss there is to be credited a profit of $91,796.07 represented by that amount of value of railway supplies and materials turned over to the company at the date of the leases without charge, but included in the items of the cost of working the roads as if paid for.

In order to provide at once for the shipment of coal over the new lines, the wharves of the Delaware, Lackawanna and Western Railroad Company at Elizabethport, formerly used by that company for its coal shipments over the Central Railroad of New Jersey, have been leased for three years and put into order, and the company is now prepared to transport direct, by its own cars and engines, to the harbor of New York the large amount of coal tonnage which heretofore, at a cash cost of fully 85 cents per ton, had to be transported over lines of other companies. As the actual cost of moving this coal from Philadelphia to New York over the new line (the entire expenses of which are already provided for by its own business) cannot exceed 40 cents per ton, the difference of 45 cents per ton on a yearly tonnage of about a million tons, amounting to $450,000 per annum, will represent the saving to the company by the acquisition of the new lines, in addition to the profit which will undoubtedly be made upon them from traffic other than that of through coal to New York.

During the year the Berks County Railroad, extending from a point below Reading through the latter city to Slatington, on the Lehigh, was sold under foreclosure of a mortgage debt of $1,590,000, of which debt this company already held $444,000 of bonds. The road was bought for the bondholders under an agreement by which it becomes the property of this company, in consideration of bonds dated May 1st, 1878, payable in twenty years, bearing interest at the rate of 3, 4, 5 and 6 per cent, for the first, second, third and subsequent years respectively, issued at the rate of $600 for $1000 of the Berks County Railroad Company bonds, or $900,000 for the entire $1,500,000 of the latter. As will be seen by reference to the balance sheet, $586,600 of the new bonds have already been issued. An agreement has been entered into with the Wilmington and Northern Railroad Company, which formerly ran in connection with the Berks County Railroad, whereby the latter obtains entrance into Reading over either of the lines of this company, under traffic arrangements which, it is believed, will be advantageous to both companies.

The line of the Philadelphia, Newtown and New York Railroad has been connected with the tracks of the North Pennsylvania Branch, and run in connection with the latter line since November 20th last. The company has agreed to guarantee the only debt of the former company—$700,000 of 6 per cent mortgage bonds—upon receiving $120,000 out of the $700,000, and securing an effectual union of interests between the two lines. Whatever deficiency of earning power, if any there may be, in the line to earn its interest upon the debt, will be much more than made up by increase of earnings upon the lines of the Reading Company from the coal traffic to the new line.

* * * * * * * * *

The bad result of the year's business just closed is due entirely to the low price of coal and the low rates of transportation. As compared with the last few years of depression, the average rates and price realized are shown in the following table:

Year.	Average Rate of Transportation per ton received by the Railroad Company.	Average Price of Coal received by the Coal and Iron Company at Schuylkill Haven.
1876....	$1 19.9	$2 10
1877....	1 03.4	1 30.8
1878....	1 22	1 53.4
1979....	88.2	1 33.5

If the views of the future of the trade above given are correct, the period of low prices, either for transportation or for coal, has passed, and with the admitted fact of a present consumption and demand fully greater than the present power of production, the company will be enabled to realize fair prices both for transportation and for coal, and to earn large revenues for its shareholders and readily to extricate itself from all financial difficulties.

The following table shows the average receipts for transportation per ton of coal carried by the company during the seven years preceding those shown in the first list:

1869	$1 58	1873	$1 39.1
1870	1 40.3	1874	1 40 5
1871	1 38.1	1875	1 38.7
1872	1 21.5		

The average rate for the seven years is $1 39, and there is no reason whatever to doubt that with the improved prospects of the coal trade, and the greatly increased prosperity of the iron trade, the company will be able to realize, in the present year, a rate of transportation equal to the above average, although in the detailed estimates hereafter given $1 35 per ton is assumed as the average gross receipts per ton of coal to be transported during the coming year. Roughly stated, the total net earnings of the railroad company for the past year were equal to 50 cents per ton for each ton of coal transported, and the losses of the Coal and Iron Company were 17 cents per ton for each ton mined. At the average price of coal at tidewater for 1880 will undoubtedly be $1 50 per ton higher than it was in 1879, as the railroad company will move about 9,000,000 of tons, and the Coal and Iron Company will mine nearly 5,000,000 of tons, and as the increase of merchandise and passenger business may be relied upon to cover the increased expense of working the road, the net profits of the company, after payment of all charges, except interest, may be expected to be:

For the railroad company	$8 700,000
For the Coal and Iron company	2,500,000
	$11,200,000
Deduct fixed charges and full sinking fund, say	7,000,000
	$4,200,000

Equal to 12 per cent on the share capital of the company.

The following table, showing a comparison between the actual results of 1879 and the managers' estimates for 1880, will produce the same result, and is believed to be strictly within the bounds of reasonable expectation. In the table for 1879 the total receipts, expenses, and rentals of the North Pennsylvania Railroad and the Delaware and Bound Brook Railroad for an entire year, are included, in order to facilitate comparison with 1880:

	1870.	1880.
Coal transportation	$7,291,989	$12,150,000
Merchandise transp.	4,156 055	5,000,000
Passenger transportation	2,233,656	2,500,000
Miscellaneous receipts	118,263	150,000
For shipping coal at Port Richmond and Elizabethport		400,000
	$13,799,963	$20,200,000
All expenses, except interest on debt	9,810,351	11,500,000
	$3,989,612	$8,700,000
	Loss.	Profit.
Coal and Iron Company.	699,450	2,500,000
	$3,290,162	$11,200,000
Interest account, including full sinking funds for 1879 on all sinking fund debts		$7,000,000
Net earnings		$4,200,000

No account is taken in the above of profit on steam colliers and barges, or of loss on canals, as the former may be expected to cover the latter. With such an earning power properly established and demonstrated, the company will be able to command money upon the most reasonable terms, and to extricate itself from all financial difficulty by funding into some proper, permanent security all of such indebtedness as must be removed before cash dividends are resumed. Assuming that the option to take the $5,000,000 of general mortgage bonds will be exercised during the next few months, there will then remain the following indebtedness, which must be paid or funded before cash dividends are made:

Floating debt, say	$4,500,000 00
Income mortgage bonds	2,218,000 00
Coupon scrip	5,305,733 10
	$12,023,733 10

To pay this out of net earnings would require from two to three years of prosperous times, and the shareholders would then be entitled to a distribution of share capital to represent the earnings devoted to the payment of indebtedness, first deducting therefrom the present debt balance of profit and loss of $2,104,862 72. If however, the improved credit of the company enables the managers to pay off the entire $12,023,733 10 out of the proceeds of any new security, the issue of which would not increase the fixed charges of the company, they would consider it their duty to do so; first giving to each shareholder the option of taking his pro rata portion of such new issue, and in the event of the success of such a scheme (which may be considered highly probable), reasonable cash dividends could be resumed. The managers have reason to congratulate the shareholders upon the advent of better times, and to

thank them for the great confidence shown in the management during the four years of adversity and disaster through which the company has safely passed.

It is gratifying to be able to record the fact that during all the vicissitudes of the last few years, the great majority of the shareholders have held on to their property, and that nearly three-quarters of the entire share capital of the company is still held by those who were shareholders at the date of the last dividend.

All of which is respectfully submitted. By order of the Board of Managers.

FRANKLIN B. GOWEN, President.

Philadelphia, Jan. 12th, 1880.

New York Central and Hudson River R. R.

The balance sheet of the New York Central and Hudson River Railroad Company, October 1, 1879, is as follows:

ASSETS.

Railroad and equipment:		
Cash expended by former companies and by this company to this date		$100,773,416 74
Certificates issued at consolidation in 1869 (and since converted into stock), representing additional cost of road and equipment to the new (this) company		31,157,904 00
Lines owned, but the organizations not technically absorbed into this company		5,825,830 90
		$137,757,151 64
Fuel and supplies		1,322,565 72
Land in New York outside of road	$1,066,216 52	
Land in Troy, outside of road	57,351 81	
		1,123,568 33
Stock and bonds		1,603,920 12
Cash	301,309 93	
Cash assets	1,859,109 68	
		2,160 419 61
Sundry open accounts		101,771 56
Total		$144,069,396 98

LIABILITIES.

Capital stock	$89,428,300 00
Funded debt	39,733,333 33
Bonds and mortgages assumed	685,174 61
	$129,846,807 94
Operating expenses unpaid	$2,878,591 76
Connecting lines	2,201,650 30
	5,080,242 06
Sundry open accounts	41,807 57
"Income account" (balance)	9,100,539 41
Total, as above	$144,069,396 98

Railways In Central America.

The London Times says that the utmost activity is being shown in pushing forward the preparations for the new line across the Isthmus of Tehuantepec, for which the Mexican Government have granted a 99 years' concession. The chief engineer, Mr. Van Brocklin, is already on the spot at the mouth of the Goatzacoalcos river, levelling and grading, preparatory to laying the rails. In Costa Rica, Messrs. Keith and Co. have concluded a contract for the completion of the line between Port Limon, on the Atlantic seaboard, and San Jose, the capital. A portion of this railway, from Alajuela and Cartago, 42 miles long has been open since 1878. It is eventually intended to extend it to the port of Caledras, on the Gulf of Nicoya, on the Pacific side, and this makes a second railway communication between the two seas. In Nicaragua the works on the railway between Corinta and Monbila, on the Lake Managua, are progressing rapidly; eight miles have been already completed. Convict labor is largely employed, and is found to be very advantageous. It is intended shortly to commence the section between Chinandeza and Leon.

Burlington and Missouri River Railroad in Nebraska.

The earnings, expenses, etc., of the Burlington and Missouri River Railroad in Nebraska and leased lines for the years ending December 31, 1878 and 1879 were as follows:

	1878.	1879.
Earnings	$1,909,518 84	$2,160,926 36
Expenses and taxes	664,689 18	743,835 23
Net earnings	$1,244,829 66	$1,417,091 13

—showing an increase in earnings of $251,407 52, or 13.17 per cent, in expenses and taxes of $79,146 05, or 11.91 per cent, and in net earnings of $172,261 47, or 13.84 per cent. The taxes, which are included in above, were in 1878 $72,345 59, and in 1879, $82,036 94, an increase of $9,691 35. The operating expenses, exclusive of taxes, were in 1878, $592,343 59, and in 1879 $661,798 29, an increase of $69,454 70. The per cent of earnings to operate were in 1878, 31.02; in 1879, 30.62, a decrease of 0.40 per cent. The per cent of earnings to operate and pay taxes were in 1878, 34.80; in 1879, 34.42, a decrease of 0.38 per cent. The average mileage of 1878 was 376.31; in 1879, 442.03, an increase of 17.46 per cent. The earnings per mile in 1878 were $5,074 32, and the expenses, $1,766 33; in 1879 the earnings per mile were $4,888 64, and the expenses $1,682 77. The tonnage was in 1878 879,879 48; and in 1879, 487,105 50, an increase of 28.20 per cent

The land sales were as follows: 177,095.11 acres South Platte lands for $1,266,458.68; 192,336 79 North Platte lands for $321,053.01—total, 369,431.90 acres for $1,587,511 69. Average per acre of total sales, $4 30.

Lands on hand: South Platte, 382,532.45; North Platte, 508,499.58; due from United States, 8,337.23.

TRIAL BALANCE, December 31, 1879.

Lands sold—1,574,392.06 acres		8,556,782 42
Interest to accrue on contracts		2,495,788 50
Forfeited payments		495,817 58
Special deposits		96,201 52
Extra interest and rent of lands		62,673 49
Town lots		2,941 04
		$11,710,204 55
Expenses:		
Taxes, commissions, and all other disbursements		$2,091,904 19
Discounts allowed		191,900 48
Premiums for improvements		264,230 61
Assets:		
Due of principal on 9574 sales—1,138,164.17 acres		5,816 528 13
Due of interet on 9574 sales—1,138,164.17 acres		1,260,875 87
Other good assets		44,382 73
Paid assistant treasurer		2,040,383 04
		$11,710,204 55

☞ A certificate has been filed with the Secretary of State of Ohio for the incorporation of the Lake Erie and Shenango Valley Railroad Company, terminus Connaut, in Ashtabula county, and near Vernon Center, in Trumbull county, passing through the counties of Ashtabula and Trumbull. Capital, $1,000,000, by S. Hayward and others.

New York and Texas Land Co.

In November, 1878, the bondholders of the International and Great Northern Railroad Company agreed upon a plan of reorganization under which the holders of the second mortgage bonds of the International and the Houston and Great Northern Railroads, previously consolidated into the International and Great Northern Railroad Company, were to receive as their share of the proceeds of the sale of the road certain lands, town sites, stock, and scrip of other companies, &c., then among the general assets, in lieu of all claims upon the reorganized company. The second mortgage bondholders, having accepted these terms, appointed a Purchasing Committee to look after their interests. At a meeting held in the office of J. S. Kennedy & Co., on the 19th inst., the committee reported that they had succeeded in acquiring title to all the property named in the plan of reoganization, and that they held it in trust for the bondholders. They also submitted a plan for the organization of a new company, separate and distinct from the reorganized railroad company, to be known as the New-York and Texas Land Company, for the purpose of holding and managing the property in the interest of the bondholders; stock to be issued and distributed to the latter in proportion to their holdings of second mortgage bonds in the above named corporation. The plan was unanimously ratified, and the Purchasing Committee were authorized to proceed with the organization of the proposed company, and with the transfer to it of the property now in their keeping.

Grand Trunk Railway of Canada.

The gross receipts, working expenses, etc., of the Grand Trunk Railway Company for the month of November, 1879, were:

	1879.	1878.
Gross receipts	£174,088	£165 530
Working, expenses	122,671	123,460
Net profit	£51,417	£42,070

—showing an increase in receipts of £8,558, a decrease in expenses of £789, and an increase in net profit of £9,347.

The aggregate for five months from July 1 to Nov. 30, 1879 is as follows:

	1879.	1878.
Gross receipts	£815,446	£785,429
Working expenses	592,769	690,705
Net profit	£222,677	£194,724

—showing an increase in receipts of £30,017, in expenses of £2,064, and in net profit of £27,953.

New York, Lake Erie and Western R. R.

The following is a comparative statement of earnings and working expenses of the New York, Lake Erie and Western Railroad for the month of Nov., 1878 and 1879.

	1878.	1879.
Gross earnings	$1,381,391 25	$1 515,884 84
Working expenses	863,309 83	957,687 53
Net earnings	$518,081 42	$558,197 31

—showing an increase in net earnings for the second month of $40,115 89. The net earnings of the first two months of the present financial year, compared with those of the same period last year, show an increase of $136,351 27.

Product of Our Mines for 1879.

WELLS, FARGO & COMPANY,
Exchange, Banking and Express,
San Francisco, Dec. 31, 1879.

DEAR SIR: The following is a copy of our annual statement of precious metals produced in the States and Territories west of the Missouri River, including British Columbia, (and receipts in San Francisco by express from the West Coast of Mexico) during 1879, which shows aggregate products as follows: Gold, $32,539,920; Silver, $38,623,812; Lead, $4,185,769. Total gross result, $75,349,501; being less by $5,805,121 than for 1878.

California shows a decrease in gold of $140,342, and in silver of $589,146—a decrease of $729,488. Nevada shows a total falling off of $13,184,235, the yield from the Comstock being only $8,830,562, as against $21,295,043 for 1878—a decrease of $12,464,481 from that locality. The product of Eureka District is $5,859,261, as against $6,981,406 for 1878—a decrease of $1,122,145. Utah shows a falling off of $595,734. Colorado shows an increase of over $8,000,000, chiefly from Leadville District. It has been exceedingly difficult to arrive at the actual production of Leadville, the two most reliable reports varying more than $2,000,000. We have adopted an average based upon the conflicting figures. Dakota shows an increase of $993,183.

Statement of the amount of precious metals produced in the States and Territories west of the Missouri River, including British Columbia, (and receipts in San Francisco by express from the West Coast of Mexico,) during the year 1879.

	Gold dust and bullion by express.	Gold dust and bullion by other conveyances.	Silver bullion by express.	Ores and base bullion by freight.	Total.
California	$16,348,730	$817,486	$739,440	$285,367	$18,190,973
Nevada	168,847	.....	16,622,472	5,206,395	21,997,714
Oregon	943,601	$4,360	.....	.....	1,037,961
Washington	77,579	7,757	.....	.....	85,336
Idaho	1,035,804	207,160	578,336	270,000	2,091,300
Montana	1,907,053	95,352	1,194,889	482,226	3,629,020
Utah	211,640	21,164	2,559,042	2,677,033	5,468,879
Colorado	3,144,697	314,469	1,594,349	9,360,000	14,413,515
New Mexico	19,800	.....	603,000	.....	622,800
Arizona	212,722	21,272	1,046,038	662,373	1,942,403
Dakota	2,674,155	534,831	.....	.....	3,208,987
Mexico (West Coast)	92,916	.....	1,249,965	341,000	1,683,871
British Columbia	976,742	.....	.....	.....	976,742
	$27,814,287	$2,113,801	$26,187,019	$19,234,394	$75,349,501

The bullion from the Comstock Lode contains 41.2 per cent gold and 58.8 per cent silver. Of the so-called base bullion from Nevada, 27 per cent was gold, and of the whole product of the State, 27.5 per cent was gold.

The gross yield for 1879, shown above, segregated, is, approximately, as follows:

Gold, 43.2 per cent	$32,539,920
Silver, 51.25 per cent	38,623,812
Lead, 5.55 per cent	4,185,769
	$75,349,501

The outlook for 1880 does not indicate a greater product than for 1879.

Annual products of lead, silver and gold in the States and Territories west of the Missouri River, 1870–'79.

	Products as per W., F. & Co.'s Statements, including Amounts British Columbia and West Coast of Mexico.	Product after deducting Amounts from British Columbia and West Coast of Mexico.
1870	$54,000,000	$52,150,000
1871	58,284,000	55,784,000
1872	62,236,959	60,351 824
1873	72,258,693	70,139,860
1874	74,401,045	71,965,610
1875	80,889,057	76,703,433
1876	90,875,173	87,219,859
1877	98,421,754	95 811,582
1878	81,154,622	78,276,167
1879	75,349,501	72,688,888

The net product of the States and Territories west of the Missouri River, exclusive of British Columbia and West Coast of Mexico, divided, is as follows:

	Lead.	Silver.	Gold.
1870	$1,080,000	$17,320,000	$33,750,000
1871	2,100,000	19,286,000	34,398,000
1872	2,250,000	19,924,429	38,177,395
1873	3,450,000	27,483,302	39 206,558
1874	3,800,000	29,699,122	38,466,488
1875	5,100,000	31,635,239	39,968,194
1876	5,040,000	39,292,924	42,886,935
1877	5,085,250	45,846 109	44,880,223
1878	2,452,000	37 248,137	37,576,030
1879	4,185,769	37,032,857	31,470,262

The exports of silver during the present year to Japan, China, India, the Straits, etc., have been as follows: From Southampton, $33,000,000; Marseilles and Venice, $5 000,000; San Francisco, $8,000,000. Total, $46,000,000, as against $39,000,000 from the same places in 1878.

JNO. J. VALENTINE,
Gen'l Superintendent.

Western County Bonds.

The Supreme Court of the United States has just rendered a decision of great importance to all holders of Western county bonds. It seems that in 1868 Gallatin county, Ill., voted a donation of $100,000 of the bonds of that county, in aid of a railroad company, though the bonds were not issued until October, 1870. In the meantime the new constitution of Illinois went into operation in August, 1870. The constitution contained a provision that no county should ever become a subscriber to the capital stock of any railroad, "or make donation or loan its credit" in aid of any such corporation; provided, that the adoption of this prohibition should not effect the right of the county "to make such subscription" when the same had been authorized by a vote of the people prior to such adoption. It had already been held, by the Supreme Court of the United States, in a previous case, that the above proviso should not be construed to extend to a "donation," being confined to a "subscription," and that therefore the donation, being made after the adoption of the constitution, was void.

In a suit on these bonds issued by Gallatin county, the District Court of Illinois followed this decision, and gave judgment for the county. In the meantime the Supreme Court of Illinois had in two cases decided that the proviso included donations as well as subscriptions, and that therefore such donations were legal.

In an appeal from the District Court of Southern Illinois, the Supreme Court of the United States now reverses their previous decision, and accept that of the Supreme Court of the State, and direct judgment against Gallatin county. At the time the Supreme Court of the United States rendered its first decision it had not heard of the contrary decisions by the State court.

This decision is of importance for two reasons, principally. In the first place it affords another evidence that the courts are refusing to lend countenance to repudiating communities that try to avoid the payment of their just debts through legal technicalities. In the second place it lays down the doctrine that in the interpretation of State laws and State constitutions the Supreme Court of the United States will adopt the construction of the Supreme Court of the State, whenever that court does not itself make conflicting decisions.

Ocean Steam Navigation.

The man to whom England chiefly owes the establishment of her oceanic steam navigation was Isambard Kingdom Brunel. To his original genius, and to the honorable rivalry between him and the younger Stephenson, we are indebted for the broad-gauge railway, and, in no small degree, for the high speed of the locomotive. In 1819 an American ship of 500 tons burden, with engines of small power, and paddles made to ship and unship, actually made two voyages across the Atlantic. But no serious steps thus to link together the two hemispheres were made until October, 1835, when, at a meeting of the Directors of the Great Western Railway, one of the party spoke of the enormous length, as it then appeared, of the proposed railway from London to Bristol. Mr. Brunel exclaimed, "Why not make it longer, and have a steamboat to go from Bristol to New York, and call it the Great Western?" The suggestion, treated at first as a joke, soon engaged the serious attention of three of the leading members of the board. A tour of the great shipbuilding ports of the Kingdom was made in order to collect information. In the report of the result of the inquiry, Mr. Brunel inserted a paragraph which laid down the principles on which the success of oceanic steam navigation wholly depends. It was simply this, that the resistance to the passage of vessels through the water increases at a lower rate of progression than their tonnage. At equal speeds, a vessel twice the size of another will encounter four times the resistance. But its capacity or tonnage will be eightfold that of the smaller vessel. By a well-proportioned increase of size, therefore, it is possible to employ far more powerful engines to carry enough coal for the consumption of a long voyage, and at the same time to have ample accommodation for passengers and goods. So true is this principle, that it is now admitted that the economical limit to the size of vessels is imposed rather by the dimensions of ports and harbors than by the exigencies of the shipwright. Speed, also, may be considerably increased by the employment of more powerful engines; the limit to ocean speed being imposed by another physical law, to the effect that the resistance increases as the cube of the velocity. The logical soundness of Mr. Brunel's position was impugned by these scientific men of the day who were not engineers. At a crowded meeting of the mechanical section of the British Association at Bristol, in August, 1836, Dr. Lardner declared that a vessel of 1600 tons, provided with 400-horse power engines for a voyage to New York, must carry 1348 tons of coal, besides the weight of the engines, which he puts at 400 tons. He thought it would be a waste of time, under these circumstances, to say much more to convince them of the inexpediency of attempting a direct voyage to New York.—[Edinburgh Review.

☞ The Quebec Government took possession on the 16th inst. of the Eastern Division of the Quebec, Montreal, Ottawa and Occidental railway, which will be run by the Department of Public Works in the same manner as the Intercolonial railway is by the Dominion Government.

Old Scrap Iron.

Although the latest statistics show that the number of iron furnaces in blast January 1, 1880, was 384 as compared with 257 in blast January 1, 1879, and although only 293 furnaces were out of blast Jan. 1, 1880, as against 433 Jan. 1, 1879, pig iron and its subalterns, so to speak, are advancing. The last move is caused by the threatened labor troubles, which may throw many furnaces out of blast, and at any rate tend to make the furnace men very cautious in contracting ahead. A Pittsburg manufacturer was in town at the close of last week buying old scrap iron to send to Pittsburgh, and we hear of sales as high as $1 75, when a week ago the price was $1 55, and even Friday $1 65. Old rails, which we recorded as having moved up to $43, are now $45, and a cable from the other side reports a price so that to lay them down here they would cost about $48. Pittsburgh makers of sheet iron have put up the price to 5¾ cents for Nos. 23 and 24, which is an advance of ¾ of a cent. Pig is up to $40 to $41 at shipping port. In regard to the Pittsburgh buyer in this market, it ought to be said that this is not the first time this season of such visits, and such buyers can ship a carload of scrap iron to Pittsburgh at $3 per ton, while to Nashua N. H., the rate is $2 per ton. A customer in the latter place, hearing of the statement of $3 per ton, at once complained of the rate charged for the short distance, which is a discrimination that exists all over New England. When Pittsburgh can buy scrap iron and send it all the way to the great iron metropolis to be worked over, it also shows an apparent scarcity which is hard to discredit, in spite of the immensely increased production.—[Boston Journal, Jan. 19.

☞ The receipts into the New Jersey State Treasury during the year 1879, from taxes on railroads were $577,785 73, constituting the largest item of State revenue. The State holds $1,161,487 11 securities, principally Camden and Amboy Railroad stock. The total receipts of the State fund were $1,895,393 35, and the total disbursements $1,079,548 95.

☞ The Board of Trustees of the Chrysolite Silver Mining Company have declared a dividend (No. 3) of Two per cent on the $10,000,000 capital stock, amounting to $200,000 or $1 per share, out of the third month's net earnings, payable at the Central Trust Company, on the 26th inst.

☞ The St. Albans (Vt.) Messenger says that the Vermont and Massachusetts branch of 21 miles of railroad between Brattleboro' and Millers Falls has been purchased by the New London Northern Railroad Company.

☞ George B. Roberts, Vice President of the Pennsylvania Railroad Company, has been elected President of the Pennsylvania Company. J. N. Du Barry has been elected President of the Pittsburg, Virginia and Charleston Railroad.

☞ The Governor of Illinois has appointed Robert T. Lincoln, of Chicago, as one of the Trustees of the Illinois Central Railroad Company, to succeed Morris Ketchum, of New York, recently deceased.

☞ The debt of the State of Mississippi is $2,618,900. During the last two years the debt has been reduced $220,000. The cash balance in the treasury Dec. 31, 1879, was $800,757.

☞ Best & Co., contractors for grading the extension of the Shenandoah railroad from Shepherdstown, W. Va., to Hagerstown, have commenced work on the north side of the Potomac.

The investigation of frauds on Railway Companies a specialty.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

Cincinnati Southern Railroad.

At the annual meeting of the stockholders of the Cincinnati Railroad Company, lessees of the Cincinnati Southern Railway, held in Cincinnati on the 19th inst., a report was submitted showing that for a fraction of a year, beginning May 28 and ending Dec 31, 1879, the receipts from the road between Cincinnati and Somerset, a distance of 157 miles, were $461,263. The operating expenses proper were $248,000, to which should be added $20,500 interest on the capital, leaving a net profit of $192,763. The company expects to have the entire road to Chattanooga in operation by Feb. 1st. The old Board of Directors was re-elected.

☞ The report and decree of the court examiner and master, in Philadelphia, in the matter of the fraudulent issue of the stock of the West Philadelphia (Market Street) Railway Company, declares that the genuine shares of the company amount to 8,000 and the over issue to 11,401 shares; that the company shall give 7,000 shares of genuine stock in exchange for 7,000 shares of over issued stock, and that of the balance of 4,401 over issued stock the company shall pay to the holders $75 per share. The amount drawn out of the bank deposit of the company by John S. Morton, the defaulting president of the company, and perverted to his own use, was $93,957.

☞ The preliminary measures for building a railroad from Haddonfield to Medford, N. J., to connect with the Camden and Atlantic track at Haddonfield, have been completed, the route located, and the survey and specifications of detail and costs finished. The company is organized, and the papers required by law will soon be filed with the Secretary of State, at Trenton. The enterprise is under the management of the Camden and Atlantic Railroad Company, who intend having it in readiness for use by the first of June.

☞ The Wytheville (Va.) Enterprise says that upwards of $100,000 worth of furnaces and mineral lands have changed hands in Wythe county within the last few weeks, Messrs. Lobdell & Co. of Delaware, and Messrs. Hendricks & Co. of New York, being the principal purchasers. Negotiations are pending also for other valuable mineral properties, which will no doubt be disposed of in a short time.

☞ The Board of Trustees of the La Plata Mining and Smelting Company, of Leadville, Col., have declared a dividend of Seven and a half cents per share (par value $10) on the capital stock, payable on Saturday Jan. 31, at the office of the company, No. 58 Broadway. The statement of the financial condition of the company will be found in our advertising columns.

☞ The Toledo, Peoria and Warsaw Railway was sold at Chicago on the 20th inst. under a decree of foreclosure entered in the United States Circuit Court for the Northern District of Illinois. The sale was made by Henry W. Bishop, Master in Chancery, and the road was purchased by a committee of bondholders representing bonds amounting to $6,000,000.

☞ The eleventh annual report of the Railroad Service in Massachusetts shows that during the year ending September 30 last only eleven miles of additional railroads were completed in the State.

☞ According to the biennial message of Gov. Gear, the state debt of Iowa amounts to $545,345, payment of which he recommends at maturity, July 1, 1881, to free the State entirely of debt.

☞ At a special meeting of the stockholders of the Texas and Pacific Railway Company, held in Philadelphia on the 20th inst., the mortgage on the Rio Grande division was affirmed.

☞ The Hanover Branch (Mass.) Railroad Company have declared an annual dividend of three per cent.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, Jan. 15, 1880.

DIVIDEND NO. 5.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Saturday, Jan. 31, inst., at the office of the company. Transfer books will close on Wednesday, January 21, and reopen Monday, February 2, 1880.

Statement of the financial condition of the company:

Cash capital	$100,000 00
December 1, 1879.—Balance surplus account	35,651 80
January 1, 1880.—Net earnings for month of December	16,027 78
	$151,679 58
Dividend of 7½ cents per Share, 200,000 Shares	15,000 00
Leaving cash balance January 1, 1880	$136,679 58

W. B. ALLEN, Assistant Secretary.

CHRYSOLITE SILVER MINING CO.,

ROOMS NOS. 51 TO 57 BOREEL BUILDING, No. 115 BROADWAY, NEW YORK, Jan. 16, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 3) of TWO Per Cent. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000,) or ONE DOLLAR PER SHARE ($1), out of the third month's net earnings, payable at the Central Trust Company, on the 26th inst.

Transfer-books will close January 22, and re-open January 27.

DRAKE DE KAY, Secretary.

OFFICE GREEN MOUNTAIN GOLD MINING CO., OF CALIFORNIA, No. 54 BROAD-ST., NEW YORK, January 12, 1880.

DIVIDEND NO. 7.

THE BOARD OF TRUSTEES HAVE THIS DAY declared the seventh monthly dividend of FIVE CENTS PER SHARE on the Capital Stock of this Company for the month of DECEMBER, and an extra dividend of TWO AND A HALF CENTS PER SHARE from the accumulated surplus of the company, both payable on the 26th instant.

Transfer-books close on the 20th and re-open on the 28th of January.

L. D. CORTRIGHT, Secretary.

OFFICE OF THE HOMESTAKE MINING COMPANY, No. 31 BROAD-ST., NEW YORK, Jan. 12, 1880.

DIVIDEND NO. 13.

THE REGULAR MONTHLY DIVIDEND OF Thirty Cents per share has been declared for December, payable at the office of Wells, Fargo & Co., No. 65 Broadway, on the 26th inst. Transfer-books close on the 20th inst.

H. B. PARSONS, Assistant Secretary.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY, 9 NASSAU STREET, NEW YORK, Jan. 8, 1880.—THREE DOLLARS PER SHARE will be paid on presentation of Dividend Warrant No. 9, on or after February 1, at this office, or at the company's office in San Francisco.

C. P. HUNTINGTON, Vice-President.

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

Railroad Investigating Committee's Report.

The conclusions of the committee upon the evidence taken in the late railroad investigation, as made public in their report to the Assembly, put at rest the doubt that has recently been thrown upon the opinions and action of its members. This report is accompanied by recommendations, which are endorsed by every member of the committee, except one, of a remedy for abuses which the committee declare have been proven to exist in the railroad management of this State.

The alleged bill of the committee, which surreptitiously got into print recently, is thus shown to have been a gross exaggeration, and is supposed to have been thus put forth by the friends of the roads to prejudice public opinion in advance against any legislation. Six separate bills are presented to effect the committee's recommendations for remedial legislation, as they find the main charges of discrimination fully sustained, as also the evils of the proxy system. It is found that the abuses in this respect are so great that prompt legislation is rendered necessary to prevent the same in future. Stock watering was also found to be a prolific source of abuse in railroad management, and it is severely criticised. More complete annual reports to the State Engineer are also required.

To any one who followed the investigation it is not necessary to say that the committee's conclusions are abundantly sustained by the evidence before it. It is not to be expected therefore that there will be resistance to the legislation proposed from any intelligent disinterested sources. That the railroads and their organs will misrepresent the committee and allege ulterior motives for their action is to be expected, and should be regarded by the public as the efforts of any attorney for his clients; but public opinion should not be swerved from the ends proposed by the committee to meet the demands of this opinion as expressed in the unanimous call for this investigation. Otherwise the whole trouble and expense will have been lost, and this question remanded to the future when this whole ground will have to be fought over again; for there is no doubt that such legislation must come to protect both stockholders and the public, each of whom are now at the mercy of boards of irresponsible capitalist directors who can elect themselves and continue in office in spite of either to manage these vast properties in the interest of Rings who thus fasten themselves upon both corporations and the public and fatten on both. These bills also provide for the appointment by the Governor of three Railroad Commissioners, one chief and two associates, to hold office five, four and three years respectively, with a salary of $5,000 and $4,000. There seems to be something lacking in this provision in that it leaves the composition of the commission at the mercy of the Governor who may be but the creature of corporations as we fear has been the case before in this State. It would appear that the appointing power ought to be more distributed, for proper safeguards, between the Executive and Representatives of the people, or be delegated to the people themselves by suffrage like other State officers.

The Railroads and the Grain Blockade.

There is no law, statute or moral and no public opinion to prevent vast combinations of capital to control staples of commerce for speculation. Hence we must look to the natural laws of trade, which means simply the opposing of one selfish interest against another, for a remedy to the evils of the gigantic speculations in staples of commerce which have come into fashion the past two years, or since Wall Street tactics were introduced into the produce markets by Keene. In our issue of October 4, 1879, under the caption of "Evils of Speculation in Staples of Commerce," we showed that the cause of the ruinously low rates of freight for the first six months of 1879 were due to the speculation in wheat and provisions by Keene which held back the stocks of those articles in Chicago unnaturally, and until the opening of navigation in the Spring when by controlling the vast supplies on which both water and rail routes were dependent for traffic, he was able to dictate terms, at which he contracted for their shipment.

Now, in 1880 we have a repetition of these same tactics only in a doubly aggravated form, for the reason that the speculation and hence the locking up of stock is on a doubly extended scale, with crops so large that all our transportation routes would be fully employed the whole year at remunerative rates to bring them forward. While therefore our railroads were unable to move the old and new crops of

1878-'79 together as fast as offered in the last six months of 1879, they are now unable to get freight in the first month of 1880 and will be, so long as this speculative blockade lasts, with the prospect of being unable to move the crops of 1879-'80 as fast as offered in the last six months in the year, thus repeating the experience of last season with the lowest rates in the history of our railroads for the first half of the year and the highest for several years for the last half of 1879. We here touch this question only from a railroad point of view, although the results are equally disastrous upon the ocean carrying trade and the mercantile community, which interests are almost wholly dependent upon the railroads for their employment. What then can control our trunk line managers to cause them to take the suicidal action they did at their recent Conference in refusing to reduce the present prohibitory freight rates from the West in order to get freight? Are they controlled by the grain and provision speculators, or are they interested in these speculations with them, to an extent that they will thus sacrifice these stockholders' interests to hold up their speculations? It is openly asserted at the Produce Exchange that heavy pressure was brought to bear upon the trunk line managers at their recent conference by the grain combination as well as that in provisions, and that this was why the reduction was not made as it would break the markets for these staples by letting out the vast stocks back in the interior as well as points of accumulation. If this is true then Mr. Keene and his associates in these huge speculations, who are also directors in our great railroads, ought to be compelled by their stockholders to resign; and Mr. Vanderbilt ought to be taught by the English investing and consuming public that he cannot play fast and loose with their interests in this manner, and then expect them to take his stock recently offered in London and leave him in control to injure their property for the purpose of helping a lot of speculators who are at the same time endeavoring to force England to pay more for our breadstuffs than they are naturally worth. If there were not ample proof already that railroad legislation is needed in this State, this action will furnish it and should be taken into account in the remedies proposed. There should be a law forbidding, under penalty, a large shipper of produce or speculator therein from holding a directorship in any railroad which he is using for his legitimate business and may use for his illegitimate operations as is now apparently being done by the Trunk lines. What we have said of Vanderbilt's relations to his English stockholders, and the English public is equally applicable to Scott, Jewett and Garrett, except that their inconsistency is not quite so conspicuous as his, since he has just asked through his Syndicate, the English public to take his stock as an undoubted investment under his management. It is a good time for the English investing public to teach our railroad managers a lesson in responsibility to stockholders by refusing to take this Syndicate stock off their friends' hands.

Union Pacific Railway Co.

At a meeting of the directors of the Union Pacific Railroad Co., the Kansas Pacific Railroad Co., and the Denver Pacific Railway Co., held in this city on the 24th inst., it was voted unanimously to consolidate the three companies under the name of the Union Pacific Railway Company. The following board of directors was elected: Frederick L. Ames, Boston; Carlos S. Greeley, St. Louis; E. H. Baker, Boston; Elisha Atkins, Boston; F. Gordon Dexter, Boston; Sidney Dillon, New York; G. M. Dodge, Iowa; Russell Sage, New York; Jay Gould, New York; Solon Humphreys, New York; David Dows, New York; Wm. L. Scott, Erie, Pa.; S. H. H. Clark, Omaha, Neb.; Thomas T. Eckert, New York, and John Sharp, Salt Lake, Utah. The officers are: President, Sidney Dillon; Vice-President, Elisha Atkins; Secretary and Treasurer, Henry McFarland.

The stock and funded debt of the companies will not be changed in amount by the consolidation. The new company will issue stock to the exact amount of the combined capital of the three companies, which will amount in the aggregate to $50,452,250, and the bonded debts will remain a lien upon the several divisions of the road upon which they were originally placed.

The Union Pacific owns and operates 1,042 4 miles of road, (and controls 576.5 miles;) the Kansas Pacific, 672 miles, and the Denver Pacific, 106 miles—a total of 2.396.9 miles.

The Illinois Central's Gulf Division.

In answer to our inquiries regarding the recently reported consolidation of the Illinois Central with the Chicago, St. Louis and New Orleans Railroad, which reports we contradicted in our last, we are informed by the officers of the Illinois Central that whatever may be done in that direction lies in the future. What is being done in the present is of much more importance to the road and the public outside of Wall Street where the rumor seems to have been started for speculative purposes. The Illinois Central owns a controlling interest in the stock of the Chicago, St. Louis and New Orleans as it has for some time and is improving its entire property from Cairo to New Orleans. It has laid new steel rails and ballasted the road more than half the distance already, and has contracted at prices ruling early in the season for the material and work for the balance of the line. This line is nearly straight from Chicago and is about 200 miles shorter than the route of the new Louisville and Nashville consolidation, from which no additional competition is expected because the smaller roads embraced in the consolidation have hitherto been in the same relation as now, only that it will be easier to arrange with them under one head than formerly under many.

All the bridges and structures upon the line have been rebuilt; 30,000 tons of steel rails already purchased; large additions made to its rolling stock, and the line has been extended up to a point on the Ohio directly opposite the depot of the Illinois Central, three and three-quarter miles, and the transit is now made across the river in twenty minutes.

Missouri, Kansas and Texas Railroad.

At a meeting of the directors of this company held in this city on the 27th inst. the resignations of eight members of the board were accepted and the following persons were chosen to succeed them: Jay Gould, Russell Sage, William Bond, George J. Forrest, Sidney Dillon and G. M. Dodge, New York; F. L. Ames, Boston, and F. S. Bond, Philadelphia. These, with N. L. McCready, New York, E. D. Barbour, Sharon, Mass., H. C. Cross, Emporia, Kansas, C. H. Pratt, Humboldt, Kansas, and B. P. McDonald, Fort Scott, Kansas, who were members of the former Board, constitute the new directory. Officers were chosen as follows: Jay Gould, president; F. S. Bond, first vice president; N. L. McCready, second vice president; H. B. Hensen secretary. It is said to be the intention of the directors to consolidate the road with the Missouri Pacific Railroad, which changed hands a few months ago. Both roads are owned by substantially the same persons. The main line of the Missouri, Kansas and Texas Railroad runs from Hannibal, Mo., across that State and a corner of Kansas, thence through Indian Territory, and into Texas, terminating at Denison City. It has one branch from Holden, Mo., to Paolo, Kan., and another from Parsons, Kan., to Junction City, on the line of the Kansas Pacific Railroad. It crosses the Wabash and Pacific Railroad at Moberly, Mo., and the Missouri Pacific at Sedalia, Mo. When the Atlantic and Pacific line is built it will cross it at Vinita, Indian Territory. Its present mileage is 786. The company has authority to extend its road across Texas in the general direction of Waco and Austin to the Rio Grande, an estimated distance of 650 miles, and to build southwardly to Galveston Bay, with a branch to Sabine Bay, a distance of 350 miles. A short extension from Denison to Fort Worth will join the Missouri, Kansas and Texas road with the Texas and Pacific, which it is proposed to extend westward to the Pacific slope.

Chicago, Burlington and Quincy Railroad.

The directors of the Chicago, Burlington and Quincy and the Burlington and Missouri River Railroad Companies have decided to consolidate the two roads. A scrip dividend of 20 per cent and a cash dividend of $1 25 per share are to be paid to the holders of the stock of the former company, and the stock of the latter company, amounting to $9,390,800 is then to be retired, and new stock of the Chicago, Burlington and Quincy Railroad Company is to be issued in its stead. The main lines of the two roads connect at Plattsmouth, Neb., and the new company will have a continuous line from Chicago to Kearney City on the Union Pacific main line, with numerous branches and leased lines aggregating about 1,800

miles. The capital stock of the Chicago, Burlington and Quincy Company was $28,000,000. That of the new company will consequently be about $43,000,000. The surplus money in the treasury will be sufficient to pay the cash dividend and leave a handsome balance.

Cincinnati, Hamilton and Indianapolis Bonds.

Nine years ago the road from Hamilton to Indianapolis was sold for $1,500,000, and the Cincinnati, Hamilton and Dayton Railroad Company guaranteed the bonds and interest on them, the bonds having been issued by the Cincinnati, Hamilton and Indianapolis Company to pay for the road. The road was managed by the Cincinnati, Hamilton and Dayton Company, but did not pay, and payment on the interest ceased. Much litigation followed, and a Board of Arbitration, consisting of Jacob D. Cox, M. E. Ingalls, and Charles Francis Adams, was chosen to settle questions between the Cincinnati, Hamilton and Dayton Company, and the bondholders of the Cincinnati, Hamilton and Indianapolis Company. The arbitrators were to take into consideration all the circumstances fairly applicable to the subject, including the earning capacity of the roads. The arbitrators in their report made on the 24th inst. say the re ult of their investigation has been exceedingly favorable to the Cincinnati, Hamilton and Dayton Company, it being only one year in the past (1877) when it was not able to meet its entire maturing interest, and the prospects for the future were very assuring. In view of these facts the arbitrators suggest the conversion of the bondholders' claims for unpaid coupons into pre ferred stock of the Cincinnati, Hamilton and Indianapolis Railroad, to be entitled to dividends out of the earnings of the Cincinnati, Hamilton and Indianapolis Road whenever these more than pay the interest; the Cincinnati, Hamilton and Dayton Road to pay maturing coupons hereafter at the full rate of 7 per cent. It is understood that this award is satisfactory to all interested.

Wilmington, Columbia and Augusta R. R.

At a meeting of holders of first mortgage bonds and registered certificates of the Wilmington, Columbia and Augusta Railroad Company, held in Baltimore on the 21st inst., a plan for reorganization was adopted. Messrs. B. F. Newcomer, Thos. C. Jenkins, John S. Gilman, J. A. Tompkins and Frank P. Clark, a committee appointed November 5, 1878, and who on October 1, 1879, at a foreclosure sale at Wilmington, N. C., purchased the road for the first mortgage bondholders for $860,500, submitted the plan of reorganization. The sum paid for the road was equal to 20 per cent of the total amount of principal and interest secured by the first mortgage. The reorganized company will start with a capital stock of $960,000, and is authorized to issue $1,600,000 in thirty-year first mortgage bonds of $1,000 each, principal and interest payable in gold in New York, with the Safe Deposit and Trust Company of Baltimore as trustee. The holder of each $2,000 of old bonds and their accompanying certificates for $210 of funded coupons will be entitled to a $1,000 new bond and six shares of capital stock. In other words, every holder of old bonds, overdue coupons or certificates for funded coupons of any amount with all interest computed on the same at the rate of 7 per cent to date of purchase, will be entitled to 37½ per cent of such accumulated value in new bonds, and will receive in addition thereto six shares of capital stock for every $1,000 in new bonds to which he may be entitled. A board of directors was elected as follows: R R. Bridgers, president; Wm. T. Walters, Samuel M. Shoemaker, Benj. F. Newcomer, H. B. Short, Geo. S. Brown, George C. Jenkins, H. B. Plant, J. D. Cameron and Enoch Pratt. Mr. Bridgers, who was receiver of the road previous to its sale under foreclosure, was at the meeting. The road is 191 miles long, extending from Wilmington, N. C., to Columbia, S. C. The sale last October included the franchise, rolling stock, etc. After $20,000 in cash had been paid, the purchasers were allowed to pay in outstanding bonds or the coupons thereof. Proper steps will be taken in the Carolinas to put in operation the plan of reorganization as above recited.

Canada Southern Railway Bonds.

The case of Wm. H. Gebhard vs. the Canada Southern Railway Company, which was argued before Judge Wallace in the United States Circuit Court, this city, was decided by him on the 24th inst. The suit is brought to recover several instalments of interest due the plaintiff upon the first mortgage bonds of the company. The road is wholly in Canada, and the bonds were executed and issued there, but were made payable in the City of New-York. The company claims that it is discharged from the payment of the bonds by virtue of an act of Parliament of the Dominion, passed April, 1878, whereby the company was authorized to issue new bonds payable in thirty years in substitution of its first mortgage bonds and bearing a lower rate of interest. The act de clares that the assent of the holders of the first mortgage bonds shall be deemed to have been given to the substitution of the new bonds, but the plaintiff in fact never gave his assent to the change. Judge Wallace says:

"On first impression the defence seems an extraordinary one; it rests upon the theory that the original bonds, having been issued in Canada, are contracts controlled, as respects the obligation and its discharge, by the law of Canada, and that the Canadian Parliament, in the exercise of its unlimited powers, has discharged or modified the obligation of the contract, and that even though this be an arbitrary or unjust act it is conclusive upon the rights of the parties. * * *

The act of the Canadian Parliament is an attempt to impair and destroy the obligation of a contract. Undoubtedly it was supposed, in view of the financial embarrassment of the defendant, that the new obligations, authorized by the act would be acceptable to the holders of the original bonds, and would be of equal, if not of greater, value. But the plaintiff was entitled to the money due by the terms of his bond, and any legislative act which attempts to deprive him of it by compelling him to accept something different, violates fundamental principles of justice, and is in effect an arbitrary confiscation of the plaintiffs property.

Although by the theory of the British constitution Parliament is omnipotent, the jurists and statesmen of England have denied its right to transcend the boundaries which confine the discretion of Parliament within the ancient land-marks. * *

A contract is property; to destroy it partially is to take it, and to do this by arbitrary legislative action is to do it without due process of law.

If any of our own States had passed such an act as the one under consideration, it would have been the duty of the courts of that State to treat it as an unlawful exercise of power; and certainly it cannot be expected that this Court will tolerate legislation by a foreign State, which it would not sanction if passed here, and which, if allowed to operate, would seriously prejudice the rights of a citizen of this State. Comity can ask no recognition of such unjust foreign legislation, and the case falls under the qualification of the general rule which prescribes that when the foreign law is repugnant to the fundamental principles of the lex fori it will be ignored. Judgment for the plaintiff."

New York, Ontario and Western Railway.

The reorganization of the New-York and Oswego Midland Railroad was completed on the 22d inst. The new corporation is to be known as the New-York, Ontario and Western Railway Company. The names of the directors are as follows: C. N. Jordan, H. Amy, F. P. James, Edwin Parsons, W. C. Whitney, O. S. Williams, Theodore Houston, W. S. Bartlett, Coe F. Young, N. A. Cowdrey, W. H. Fenner, Jr., Edward Livingston and L H. Meyer. C. N. Jordan was elected President, and Theodore Houston Secretary. Under the provisions of the agreement between the first mortgage bondholders and other interests as to the reorganization of the company, the holders of the junior securities and obligations of the New York and Oswego Midland Company have 30 days in which they may participate in the benefits of the reorganization by the payment of 20 per cent. and the surrender of the obligations of the old company. The thirty days proviso will run from Jan. 22.

Texas and Pacific Railway.

A dispatch dated Dallas, Texas, January 22, says active work is going on to hasten operations on the Texas and Pacific Railway under the new contract with the construction syndicate, and then adds:

Ex-Governor John C. Brown has arrived and will be in charge of the railroad interests in Texas, Mr. F. C. Bond, the other Vice-President, having returned to Philadelphia, where he will remain in charge of the business of the office there.

Under the new arrangements, when completed the Texas and Pacific Railway will form a line 1,044 miles long, capitalized with a bonded indebtedness of $25,000 and $25,000 stock to the mile.

The road in addition owes $8,000,000 income bonds, secured on a land grant of 5,000,000 acres of Texas lands. As new construction progresses additional lands will pass to the company under the General Railroad law of Texas at the rate of sixteen sections, or over 10,000 acres, per mile.

It is supposed that negotiations are in progress to possess the link between Shreveport, La., and Vicksburg, Miss.

☞ We learn from the report of the Ontario Commissioner of Public Works for 1879, that eight new railroads, having a total length of over four hundred miles, have been in progress during 1879, viz: the Credit Valley, Huron and Erie, Georgian Bay and Wellington, Midland Extension, Prince Edward County, Canada Central extension, Stratford and Lake Huron, and Grand Junction roads. At the date of Confederation, 1867, there were 1,464 miles of railway in the province; since that date 1,947 miles have been constructed and 470 are building or under contract.

☞ Mr. Brunel and party, who have been exploring the Nipsissing district of Canada, have returned to Ottawa. They report having found a practicable route for the Sault Ste. Marie Railway on the north shore of Lake Nipsissing, between the Spanish river and the Sault.

South Carolina Railroad.

A dispatch to the Charleston News and Courier says that a syndicate of capitalists has been formed in this city for the purpose of taking control of the South Carolina Railroad, and releasing it from the litigation which now keeps it in the custody of the United States Court, with a view to making it without delay the terminal link in the chain of roads connecting the great railroad systems of the West with the Atlantic seaboard at Charleston. By the programme of this syndicate sixty miles of road are to be built immediately to connect the south Carolina railroad, via Spartanburg, Henderson and Wolf Creek, with the Cincinnati Southern Railroad. Among the members of the syndicate mentioned are Samuel Sloan, Moses Taylor and Richard Lathers.

Statement of the Public Debt of the United States, January 1, 1880.

DEBT BEARING INTEREST.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Pennsylvania Railroad.

The statement of the business of all the lines of the Pennsylvania Railroad Company east of Pittsburg and Erie, for December, 1879, as compared with the same month in 1878, shows:

An increase in gross earnings of..... $848,629
An increase in expenses of..... 268,509

An increase in net earnings of.... $580,120

The twelve months of 1879, as compared with the same period in 1878, show

An increase in gross earnings of..... $2,983,544
An increase in expenses of..... 1,913,746

An increase in net earnings of... $1,069,798

All lines west of Pittsburg and Erie for the twelve months of 1879 show a surplus over liabilities of $1,526,817, being a gain over the same period in 1878 of $1,082,836.

☞ The Norfolk Virginian urges the completion of a connecting link between Careysville, Tenn., and Danville Junction, (on the Cincinnati Southern railroad,) which would give an all rail line between Cincinnati and Norfolk, Va., via Knoxville, Tenn., and Bristol, Va., the distance being only 725 miles, against 980 miles via Chattanooga, Knoxville and Bristol.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, January 29, 1880.

There has been more activity in the Wall Street markets the past week and generally strong and higher prices have ruled and been maintained to the close. The chief activity however has been confined to a few stocks lately consolidated or affected by consolidations noted in our last issue, except Erie which has been unusually active and higher on strong buying from an unknown source though rumor has hinted that it was included in the Wabash plan for the ultimate consolidation of a through transcontinental line from New York to San Francisco. The Missouri Kansas and Texas securities of all kinds have been active and higher upon its virtual consolidation with the Wabash system, through the Missouri Pacific, since the election of Mr. Gould as President of the former during the week. In sympathy with this movement or otherwise, Wabash has been active and higher, while the other Gould stocks have continued strong but not so active as these specialties. Early in the week the Vanderbilt shares were generally depressed as compared with the balance of the market, but for what cause it is not clear unless it be the apparent inconsistency between the course of the market for New York Central and the alleged placing of 200,000 shares thereof at the close of the previous week at prices, which though kept secret, were understood to be higher than the price has been since. This has thrown some suspicion on the genuineness of the alleged subscriptions to the syndicate stock, and we have heard it intimated that the bulk of these were made by the members of the syndicate themselve

As this belief grew it seems to have been counteracted by a bull movement in Lake Shore which carried up all the other Vanderbilts in sympathy, on the report that this road would hereafter continue to pay 8 per cent dividends. Considering that the last dividend has not yet been paid it is a little early to bull the stock on the next, and we incline to the belief that it was done as a counter-movement to remove the doubts of the Central sale and of the future course of that stock, aided at the outset it is said, by a short interest in Lake Shore. The other active shares and those in which there has been such frequent and wide fluctuations as to delight the wildest operators, were those of the Louisville and Nashville combination, noted in our last, of which Nashville and Chattanooga was the most conspicuous, on the prospects of the president of the latter road contesting the consolidation arranged by the aid of his directors. A harmonious agreement of this interest is now said to be recovered. The Texas and Pacific securities have been dealt in more freely also, while the Central Pacific Syndicate's stock was placed on the Exchange with a perfect boom, on Thursday morning, by an opening sale of 6,000 shares at 82½ from which it rapidly rose to 87 and fell back to 85. This was looked upon here as a sort of fire works, on the part of the syndicate, to give their stock a big send off, and it is not likely the public was interested in these dealings. Houston and Texas Central and the coal stocks, as well as Pacific Mail, and Iron Mountain came in for a share of the activity and advance, but in a less degree. The Ohio Central securities are also coming in from an increased coal traffic. Indianapolis Bloomington and Western also attracted more attention, on some proposed new connections. Pullman Palace Car Stock also advanced as well as Chicago, St. Louis and New Orleans, and Denver and Rio Grande se-securities,

Mining shares on both boards have not been as active or as strong as expected after the New Year, and declined early in the week in sympathy with San Francisco, where more legislation is anticipated against speculation in stocks. It is said that dealings on the Mining Stock Exchange of this city are far larger than in San Francisco, and if true we do not see why our dealers should allow the "tail to wag the dog" any longer in this market. There is capital enough and holders enough of these Pacific stocks to make their value here, when not subject to the San Francisco mismanagers' assessments, and it is time this was done, in such shares, while the best remedy for stock-jobbing assessments would be to leave such shares alone in this market and isolate them with their dishonest managers in San Francisco, and leave them to the tender mercies of Kearney to fight out their war like 'Kilkeney cats', it being a good thing for the community if they succeed in destroying each other. In the meantime the public would do well to isolate a similar class of mining stocks and mine mismanagers here in the East, who are using their official position and the Mining Stock Exchange for similar stock jobbing operations. The Moose management is one of these, whose only excuse to deluded stockholders for promised dividends, unpaid, is that they are running the mine to "freeze out" some large stockholders.

Railroad bonds of all undoubted issues are getting very scarce, even at considerable premium for seven per cents, and even sixes are by no means plenty at par, while all speculative varieties have been active and advancing, in some cases sharply.

State bonds of the Southern States are beginning to grow in favor at last as low priced securities with a future based upon the improved commercial and financial condition of the South, whose honesty is justly regarded as improved with its ability to pay. Hence there has been quite a movement in Louisianas and Tennessees.

Government bonds have been in steady request for investment, as the supply is gradually growing less, and hence speculation in them is subsiding, in the absence of any recent movement at Washington in the direction of the public debt.

Sterling Exchange early in the week declined sharply, but afterwards recovered on a better demand, and a continued scarcity of commercial bills, as the decline in wheat has not been followed by a corresponding movement in exports. The decline was in anticipation of the effects of the alleged sale of Central stock in London, and the break in wheat, neither of which were realized.

The Money market has ruled a little stronger than last week on a more active demand to accommodate the activity in stocks and also to keep up the speculators' and combination's margins on wheat and other speculative staples of commerce which have been blockaded, until the accumulations of stocks have caused distrust in banking circles and a calling in and reduction of loans on these collaterals, which helped on the heavy decline in wheat and brought about the failure of several small speculators in this market who were long of this staple. Call loan rates have averaged 5@6 per cent on stocks and 4@5 on Governments.

The bank statement also favored a little closer money market as there was an unexpected reduction in the surplus reserve of over $1,000,000, which is not explained except by the withdrawal of additional amounts to Chicago by the wheat clique to hold up the market, as it will be remembered in our last we noted a shipment by Keene alone of $2,000,000 for this purpose.

Exports have not increased nor fallen off, remaining about $6,000,000. Imports of gold are insignificant, being a little over $200,000.

Breadstuffs have been heavily depressed under the sales of long wheat held by outsiders, while the clique either from inability or interest let the market go until it became panicky on the failure of several operators here and the closing out of more. At this junction they came in and bought till the decline was checked. It is thought, however, that the clique itself has lost faith in the high prices looked for a month ago, and that they will meet exporters on the present basis. Other export staples have been dull and depressed also without important changes. Ocean freights continue disastrously dull and low, and losses on charters to arrive are enormous; and damages on vessels so chartered are equally heavy and steamer rates equally low and trade dull, all owing to the blockade in export staples caused by the dogged and gigantic speculation on Europe's necessities, which are regarded as so great as to force her to take these products at our price. The break in wheat has shown in part the fallacy of this position, and it is likely to be demonstrated in provisions and cotton also, as Europe is not compelled to buy of this country or starve and lie idle as was expected.

☞ The Macon and Brunswick (Ga.) Railroad was leased at Macon on the 13th inst. to J. M. Couper of Brunswick at a yearly rental of $194,-

000, with the privilege of purchase. Couper represented a company composed of New York, Macon, Brunswick and European capitalists, headed by Chauncy Vibbard of New York. The company will extend the road to Atlanta at once.

Commerce of New York.

We give below, from the New York Journal of Commerce, a statement of the Commerce of New York for 1879, in comparison with that for the five preceding years. The following is a comparative table showing the relative totals imported at New York in each year since 1850 :

Year.	Merchandise. Dutiable.	Merchandise. Free Goods.	Specie & Bullion.	Total Imports.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556,649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024,691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165,516
1860.	201,401,693	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252,648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834
1869.	275,779,976	14,789,235	15,788,462	306,357,673
1870.	289,618,878	13,716,500	11,864,644	315,200,022
1871.	349,635,398	28,878,294	6,348,608	384,862,300
1872.	369,083,458	57,429,020	5,594,208	432,106,686
1873.	293,035,348	86,924,877	18,605,611	398,565,836
1874.	278,677,532	108,598,631	6,407,571	393,683,734
1875.	235,398,509	91,791,853	13,438,557	340,628,919
1876.	202,486,773	76,659,977	26,217,888	305,364,638
1877.	221,401,649	92,686,992	15,000,227	329,088,868
1878.	201,540,213	82,495,681	19,150,973	303,186,867
1879.	234,775,206	105,217,608	84,196,109	424,189,123

Under the head of dutiable are included the goods entered directly for consumption, and also those entered in bond for warehousing. These, with the free goods and the specie, make the total landed at the port. Including the specie, the imports for 1879 are $121,002,256 above the total in 1878 ; but deducting the specie in both years, the merchandise imports for the twelve months are only $55,957,120 more.

The following table will show the classification of imports at New York for the years—

	1877.	1878.	1879.
Dry goods.	$77,756,778	$74,863,197	$91,549,600
Gen. mdse.	236,331,863	209,172,697	248,443,414
Specie....	15,000,227	19,150,973	84,196,109
Total...	$329,088,868	$303,186,867	$424,189,123

The cash duties are collected on the goods entered directly for consumption, and also on those which, having been entered in bond, are afterward withdrawn for consumption. The imports thus marketed in 1879 amounted to $230,146,161 on which $107,448,002 60 in duties were collected, making an average of 46¾ per cent on the entire dutiable imports of the year, against 45⅜ in 1878, and 45¼ in 1877.

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named :

Quarter.	1877.	1878.	1879.
1st	$64,887,999	$87,621,214	$78,474,748
2d	69,097,489	84,237,028	79,983,231
3d	75,277,178	97,978,437	96,423,052
4th	89,671,355	85,577,621	101,337,534
Total....	$298,933,971	$349,414,300	$356,218,565

Foreign imports entered at New York during the years 1874, 1875, 1876, 1877, 1878 and 1879 :

Lehigh Valley Railroad.

At the Annual Meeting of the Lehigh Valley Railroad Company, held in Philadelphia on the 20th inst., the following Board of Directors was elected: Charles Hartshorne, President, David Thomas, Ashbel Welsh, William L. Conyngham, Ario Pardee, William A. Ingham, George B. Markle, Robert H. Sayre, Harry E. Packer, James I. Blakslee, Robt. A. Packer, Elisha P. Wilbur, Joseph Patterson. In presenting his report the President said:

The price of coal during 1879 was unprecedently low, and our business was restricted during the first four months of our fiscal year by our unwillingness to put coal into market in such quantities and at such rates as would not return cost to the producer. After some months trial it became evident, however, that other companies were supplying the demand to the prejudice of our operators, and our rates to tide were reduced so as to be equal to those charged by our competitors.

The total tonnage was as follows: Anthracite, 4,861,785 tons; bituminous, 53 499 tons; making 4,415,284 tons; being an increase of 935,691 tons over 1878, and of 23,968 tons over 1877, heretofore our year of heaviest tonnage. Of this 1 536-476 tons were caried over the New Jersey division, against 879,877 tons in 1878.

Our income from all sources, including interest received from investments, &c., amounted to $6,-540,868 74: operating expenses of the road, $2,-996,981 28; net income, $3,543,382 46, out of which there has been paid—interest on bonds, $1-557,900; dividends—January, April, July and October, two and a half per cent each, on prefered stock, $10,630; January, April, July and October, one per cent. each on common stock, $1,084.893 50. General expense, interest on floating debt, Penna. and New Jersey State taxes, loss on Morris canal and on coal operations, $866.595 66. Total, $3,520,019 16; leaving $23,363 30 to be carried to the credit of the profit and loss account.

At the close of the fiscal year our capital account was as follows: Preferred stock, $106,800; common stock, including scrip not yet converted, $27,382,555; six per cent. bonds, due in 1898 (coupon and registered), $5,000,000; seven per cent. registered bonds due in 1910, $6,000,000; consolidated mortgage bonds, sterling, $4,437,000; coupon, $2,000,000; registered, $7,500,000; annuity, $500,000; floating debt, less cash on hand, $347,359 72. Total, $53,213,214 72. 138 of the sterling bonds were drawn payable December 1, 1879, leaving outstanding, $4,804,000, bearing interest from that date.

Susquehanna and Clearfield Railroad.

A new railroad is now being located in Clinton County, Penn., to be called the Susquehanna and Clearfield Railroad. This road will start from Keating Station, on the Philadelphia and Erie Railroad, at the junction of the Sinnamahoning creek with the West Branch of the Susquehanna river, and then proceed up the West Branch, tapping the long famous Karthaus coal fields, said to contain the finest veins of bituminous coal, iron ore, fire clay and limestone in Pennsylvania. The charter members are officers of the Philadelphia and Erie and Pennsylvania Railroad Companies, who take one quarter of the stock, while prominent stockholders of the Philadelphia and Erie take most of the balance.

☞ The Union Passenger Railway Co. of Philadelphia has leased the Continental Passenger Railway for 99 years, paying to the stockholders of the leased line 2½ per cent, for the first six months, and after that 6 per cent. on the $100, the par value of the stock, or $6 a year for each share.

Chicago, Milwaukee and St. Paul Railway.

The directors of the Chicago, Milwaukee and St. Paul Railway met on the 28th inst., and have issued the following statement of the business of the company for the year ending December 31, 1879:

Gross earnings year 1879		$10,612,819 78
Operating exp. (including taxes), 1879		5,473,794 96
Equal to 54.66 per cent		$4,539,024 82
By interest received on money loaned, etc., 1879		69,066 84
		$4,608,091 66
To 3½ per cent dividend on pfd. stock in October, 1879	$429,781 90	
To 2½ per cent dividend on the common	385,106 42	
To interest on bonds in 1879	2,287,407 36	
To sinking fund	70,000 00	
		3,172,295 68
Balance		$1,435,795 98

Boston and Providence Railroad.

The earnings of this road for the years ending September 30, 1878 and 1879 were as follows:

	1878.	1879.
From passengers	$724,505 86	$695,169 78
" freight	417,302 20	424,179 43
" rents	21,377 01	19,594 73
" express	33,426 84	29,600 81
" mails	9,805 30	9,693 54
	$1,206,417 21	$1,178,238 29
Expenses, viz:

Switch and gatemen	41 868 93	42,235 38
Taxes, insurance, etc.	72,510 61	62,381 60
Oil and waste	7,493 05	6,266 04
Telegraph expenses	1,279 23	1,803 26
Interest account	65,130 80	53,249 12
Attleboro Branch rent	10,956 24	10,917 27
	$913,258 33	$846,862 16
Balance carried to income account	$293,358 88	$331,376 13
Add balance from previous year	366,127 39	
Total		$694,503 52
Dividend paid May 1, 1879, $3 per share		$120,000 00
Dividend payable November 1, 1879, $3 50 per share		140,000 00
Balance to new account		434,503 52
Total, as above		$694,503 52

Compared with the previous year, the gross earnings show a decrease of $28,178 92, with a decrease in expenses of $66,196 17, making an increase in net earnings of $38,017 25. The total net earnings of the year, after the payment of interest and taxes were $331,376 13, from which dividends of 6½ per cent amounting to $260,000, have been paid and credited, and the balance, $71,876 13, carried to credit of profit and loss. The report says:

Two dividends have been declared, one in the spring, of three per cent, and one in the fall of three and one-half per cent, making six and one-half per cent for the year, free of taxation.

The state and local taxes amounted to one dollar and fifty cents on each share.

The interest paying debt has been reduced since October 1st, 1878, from $1,000,000 to $920,000, all bearing seven per cent interest and maturing as follows:

1880	Notes January and July	$200,000
1881	"	120,000
1882	"	100,000
		$420,000
1893	Bonds	500,000
		$920,000

A dividend of $5,740, received on your investment in the Union Freight Railway, was credited to interest account.

One year's back dividend on the preferred stock of the Providence, Warren and Bristol Railroad, amounting to $8,580, was credited to the reduction of the valuation of the common stock.

This road of 13.6 miles will hereafter doubtless continue to contribute somewhat to your revenue. When its control was assumed by the Boston and Providence Railroad Corporation, in 1873, it was encumbered with a mortgage debt of $50,000, bearing eight per cent interest payable each six months in advance. The mortgage has been lifted from the property, and the debt reduced to $20,000. This debt bearing six per cent interest, is due the Boston and Providence Corporation, and appears among your notes receivable. It is available at any moment. Meanwhile, three miles of steel rails have been placed in the track, the road bed greatly improved, the rolling stock made efficient, and an iron bridge built by the Edgemoor Company, of Delaware, over the Barrington River, to replace a defective wooden structure.

The Stoughton Branch, standing at $85,400 in the balance sheet, is really an integral part of your road and is operated as such. As it represents $15,400 of your present debt, it is still stated as a separate investment.

Before the Stoughton Branch Road was fully acquired by your corporation, and there were two distinct managements, the station in Canton on the main line was known as Canton, that on the branch as South Canton. The latter represents the business centre of the town, and owing to an influential petition, and with due regard to some remonstrances, the name of Canton has been transferred to it, the station on the main road being now known as "Canton Junction," conveying to strangers and travellers a more definite meaning.

The last wooden bridge of any consequence in the main road, over Ten-mile River, at Dodgeville, is being replaced by two arches of masonry. The work is of a such nature, that if hereafter, from any cause, the dam of the mill pond just above the track should give way, it is believed that the strength of the abutments and the size of the arches, both of thirty feet span, will be able to resist and carry off any such rush of water. This work, equally a provision of safety against fire and water, has progressed slowly, and will not be completed before another summer. Over one-half of the estimated cost of eighteen thousand dollars, namely, ten thousand dollars has gone into the current expenses of the year.

One new locomotive has been built for the company by the Rhode Island Locomotive Works, and sixteen dump cars purchased. Ten miles of ties have been renewed, three miles of steel rails laid in the main track, and in the branches one and one-half miles. All the above items have been charged to expense account. The road bed was never in so good condition, nor the rolling stock in better repair.

There are in the main road, 82¼ miles, and in the several branches 6¼ miles of steel rails. The main road is now equipped with steel rails, with the exception of 5⅛ miles.

The number of miles run by trains during the year was 811,856; do. in previous year, 800,010—increase, 11,846. Number of passengers carried during the year, 3,206,488; do. previous year, 3,213,189—decrease, 6,701. Number of passengers carried one mile during the year, 37,959,303; do. previous year, 37,557,491—increase, 401,812. Tons of freight moved during the year, 593,346; do. previous year, 569,751—increase, 23,595.

Trial Balance, September 30, 1879.

Construction and equipment		$4,612,774 38

President.—Henry A. Whitney.

Directors.—Henry A. Whitney, T. P. I. Goddard, J. Huntington Wolcott, William B. Robeson, Francis M. Weld, Joseph W. Balch, Royal C. Taft.

Treasurer.—B. B. Torrey.

Superintendent.—A. A. Folsom.

Baltimore, Chesapeake Bay and Delaware Railroad.

At the annual meeting of the stockholders, held in Baltimore on the 21st inst., the following Board of Directors was elected: Dr. G. W. Goldsborough, President, Sydney C. Long and Dr. R. W. Eareckson, Baltimore; J. P. Manlove, Greensborough, Md.; Bartin H. Jenks, Philadelphia, and N. S. Gere, Syracuse, N. Y. The company was organized in August, 1873, to construct a line of railroad from Kent Island, Md., to Harrington, Del., a distance of 40 miles. From the Kent Island terminus connection would be made with Baltimore by steamers, the distance being 17 miles, and with Annapolis about 8 miles distant. At Harrington, Del., connection would be made to the breakwater at Lewes, and thence by the Old Dominion Steamship Line to Cape May, about 12 miles, and to New York. The cost of the road was estimated, with equipment, at $15,000 a mile, and the capital stock of the company was fixed at $600,000, of which about $100,000 was subscribed. A contract was made with Mr. Wm. Sperry, of Philadelphia, for the work. About one-third of the grading was finished, when, in 1874, financial troubles prevented its completion. The work has remained in that condition until the present time, but it is stated that proposals have been recently received both from the Junction and Delaware Railroad and the Old Dominion Steamship Company, which render it probable that work will be renewed. It is proposed that the construction shall be given to a new contract-

or, and that the road shall be completed by the next peach season. An offer was received some time ago from an English capitalist to advance 70 per cent on bonds of the company, but negotiations are being carried on with parties in Boston, where, it is believed, better terms can be obtained. The proposed road would go directly across the Maryland Peninsula, intersecting the Delaware railroad at Harrington, and, it is claimed, would bring to Baltimore a very large proportion of the trade of the Eastern Shore of Maryland and Delaware which now goes to Philadelphia and New York. It would also be a through line for New York, besides offering valuable facilities for transportation of Cumberland coal via the Baltimore and Ohio railroad to the coaling station at the Lewes breakwater.

Mining in Maine.

Very important mining discoveries have been made in Maine during the last few months. Companies have been organized and work is being energetically prosecuted in various parts of the State. The deposits are principally of gold and silver. The Acton lode, in York county, is reported by Professor Stewart to be one of the best defined fissure veins on the continent. It has been traced for two miles from north to south in nearly a right line, and the surface exposures show that it ranges in lateral diameter from eight to twenty feet. The Riverside Mining Company has been organized at Camden, in Knox county, with a capital of $500,000. Work was begun about six weeks ago, and is being pushed night and day. The shaft of the Fort Knox mine, at Prospect, opposite Bucksport, on the Penobscot River, is now down sixty two feet, and the ore from the bottom contains both gold and silver. A fine specimen of very rich ore from the Deer Isle mine, on Deer Island, Penobscot Bay, has just been exhibited in Bangor. An assay resulted as follows: Gold, $30; silver, $60; copper, $10; lead, $17. The Owl's head mine, seven miles below Rockland, at the mouth of Penobscot Bay, is showing specimens of quartz very rich in gold. The Hampden Mining Company has a shaft eight miles westward from Bangor, which is down sixty-five feet, and blasts throw out ore of good quality. The Atlantic mine, at Blue Hill, is equipped with steam engine and drills, and the shaft is already sunk over fifty feet. The assayer of the Blue Hill Mining and Smelting Company writes, under date of the 11th instant, that things are progressing at a lively rate. Five or six other mines report favorably, and important additions to their outfits will be made in the spring with a probable enlargement of operations.

☞ Twenty-two locomotives belonging to the Philadelphia and Reading Railroad Company were seized on the 26th inst. by a Government official, for non payment of internal revenue tax, alleged to be due the United States on the wages certificates issued by the company. A preliminary injunction has, however, been granted against the Collector, restraining him from further proceedings.

☞ The construction of the Bloomington and Fairfax railroad from Bloomington, Va., to the Elk Garden coal region will be begun early in the spring. The road will be about eight miles long, and will probably be of narrow gauge pattern.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

Liability for Acts of Employes.

In the United States Supreme Court at Washington, on the 12th inst., a question was presented against the Kansas Pacific Railroad as to what extent and under what circumstances a railroad or other corporation is liable in a suit for damages based on the accidental killing of one of its employes while in its service. In the present instance the employe's death was, it is alleged, due to the defective construction and condition of his locomotive. The railroad company maintains and the Court below charged the jury that a corporation is not liable for injuries to one of its employes when such injuries result from the careless ness of his fellow-servants.

The Supreme Court holds that although such is the general rule, it is subject to exceptions, one of which arises from the obligation of the corporation not to expose an employe to perils against which he may be guarded by proper diligence. Railroad officials who are invested with the power and duty of so guarding the safety of employes represent the personality of the corporation, and their negligence from which injury results is the negligence of the corporation. If an employe having knowledge of a defect in the machinery which he uses gives notice thereof to the proper officers and is promised by them that it shall be remedied, his subsequent use of such machinery in the belief that it will be put in proper condition within reasonable time does not necessarily make him guilty of contributory negligence.

The judgment of the lower Court was reversed and the cause remanded, with directions to satisfy the verdict and award a new trial and for such other proceedings as may be consistent with the opinion of this court. Mr. Justice Harlan delivered the opinion.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of December, 1879:

Gross receipts:	1879.	1878.
Railroad traffic.....	$1,325 780 41	$810,890 71

☞ The American Union Telegraph Company opened their offices in this city for business on the 26th inst., chiefly to accommodate the new French Cable Company, as it was not intended to open to the public before Feb. 1. The tariff is based temporarily on that of the Western Union, but reductions may be made when the line is in thorough running order. At present there is only connection with Washington, Albany, Buffalo, Baltimore, Boston, and the oil regions in Pennsylvania. There are 500 offices open now throughout the country. The lines to Chicago and Omaha will be opened in March.

☞ At the annual meeting of the New York, New Haven and Hartford Railroad Company, held at New Haven on the 14th inst., the traffic contract between that company and the Boston and New York Air Line Company by which the gross earnings are pooled and divided, was approved. The contract has been in operation since March, 1879, and continues up to October 1, 1880. The New York, New Haven and Hartford gets 94, and the Air Line 6 per cent of the earnings. After October 1, 1880, the division will be settled by arbitration.

☞ The Delaware Inquirer says that interest has been revived in the proposed railroad between Harrington and Queenstown, a distance of 40 miles, and that Boston capitalists favor the project and will invest their money in it. The building of this road would materially shorten the route to Baltimore and Washington and open up to the Junction and Breakwater road a new and large trade.

OFFICE OF LA PLATA MINING AND SMELTING CO., OF LEADVILLE, COL., No. 58 BROADWAY, ROOMS NOS. 12 AND 13, NEW YORK, Jan. 15, 1880.

DIVIDEND NO. 5.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a dividend of SEVEN AND ONE-HALF CENTS per share, (par value $10) on the capital stock, payable on Saturday, Jan. 31, inst., at the office of the company. Transfer books will close on Wednesday, January 21, and reopen Monday, February 2, 1880.

Statement of the financial condition of the company:

Cash capital	$100,000 00
December 1, 1879.—Balance surplus account	35,651 80
January 1, 1880.—Net earnings for month of December	16,027 78
	$151,679 58
Dividend of 7½ cents per Share, 200,000 Shares.....	15,000 00
Leaving cash balance January 1, 1880..	$136,679 58

W. B. ALLEN, Assistant Secretary.

CHRYSOLITE SILVER MINING CO.,

ROOMS NOS. 51 TO 57 BORREL BUILDING, No. 115 BROADWAY, NEW YORK, Jan. 16, 1880.

THE BOARD OF TRUSTEES HAVE THIS DAY declared a MONTHLY DIVIDEND (No. 3) of TWO Per Cent. on the TEN MILLION DOLLARS ($10,000,000) capital stock of this company, amounting to TWO HUNDRED THOUSAND DOLLARS ($200,000,) or ONE DOLLAR PER SHARE ($1), out of the third month's net earnings, payable at the Central Trust Company, on the 26th inst.

Transfer-books will close January 22, and re-open January 27.

DRAKE DE KAY, Secretary.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, Jan. 22, 1880.

A DIVIDEND OF THREE (3) PER CENT. has been declared by this company, payable on the 1st day of March next to the holders of its capital stock as registered at 2 p. m. on the 12th of February next, after which, and until the 4th of March, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY, 9 NASSAU STREET, NEW YORK, Jan. 8, 1880.—THREE DOLLARS PER SHARE will be paid on presentation of Dividend Warrant No. 9, on or after February 1, at this office, or at the company's office in San Francisco.

C. P. HUNTINGTON, Vice-President.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, February 6, 1880.

Sale and Reorganization of the Indianapolis, Cincinnati and Lafayette Railroad.

The sale of this road was made on Monday, the 2d inst., at Cincinnati by order of the United States Circuit Court to the Purchasing Committee of the bondholders, consisting of George Hoadley of Cincinnati, Henry Bates of Indianapolis, and George T. Bliss of Morton, Bliss & Co., New York. It was bid in for $2,500,000 and $1,000,000 in bonds deposited, until such time as the Court shall confirm the sale which is expected to be two months hence. The stock of the road was simultaneously stricken from the list at the Stock Exchange, although the stockholders claim that their rights and stock are not wiped out by this sale, but that the committee will be compelled to recognize them in the proposed reorganization under a new name, not yet decided upon.

The bondholders committee, however, assert that the stockholders' rights are forfeited since they failed to comply with their offer within the specified time which expired December 15th last. We were unable to learn either of the officers of the company or of the committee how many of the stockholders had assented to their plan, although they inform us that all but about $5,000 of one issue and $12,000 of another issue of the bonds have assented to the reorganization plan which was as follows:

The new company is to create a new consolidated mortgage for $7,500,000, of which $6,885,000 are to take up existing bonds. It is to raise $615,000—all of which has been secured but about $30,000—for the payment of back interest on 1867 First Mortgage bonds of $2,800,000 on which about $1,000,000 of coupons were overdue, of which the holders surrendered $400,000. This $615,000 was contributed in part by the 1869 bondholders who took 10 per cent of the amount of bonds of $2,087,000 of these new bonds or $208,700 and part by the funded debt bonds of 1873 of $1,419,000, to the extent of 20 per cent of their bonds or $283,800, leaving $122,500 to have been contributed by the stockholders as follows: they to take 2 per cent of their stock in consolidated new bonds and received 6 per cent in new stock when issued for 2 per cent in cash. In other words 100 shares of stock would pay $100 cash and receive $300 in new stock and $100 in new consolidated bonds. This new stock is to be $100 par value and will not be issued for three months or more. The 1869 bonds and funded debt bonds are converted into common stock which is fixed at $4,000,000, which added to the new consolidated bonds for $7,500,000 will make the total liabilities of the new company $11,500,000. When the Purchasing Committee's representatives were asked if the stockholders not assented by December 15th were now cut off from all benefits of the reorganization, they answered that they did not know how they could come in unless they opposed the scheme which has not yet been done.

Well informed parties on the street, however, assert that there is an understanding by which the stockholders are to be protected, and there has been considerable purchasing of the stock recently upon this belief. As 60 days elapse before the sale is confirmed there is no doubt the modus operandi will soon be made manifest in action of some sort on part of stockholders. In the meantime there appears to be some mystery in the proceedings that the public is not informed of, which either the controlliug stockholders or the purchasing committee might clear up without prejudicing their interests. It is confidently asserted on the Street that the old stock will yet sell at 15 to 20 by the knowing ones who are buying it. We are told by some of the outside stockholders that some action will be taken by them collectively within thirty days to protect the unassented stock.

Justice at Last.

A THREE MILLION JUDGMENT TO BE ENFORCED AGAINST THE PENNSYLVANIA RAILROAD.

Notice was given on February 2d that the United States Circuit Court at Cincinnati would issue an order on the 5th inst., to enforce its decree rendered some months ago, to compel the Pennsylvania Railroad Company to pay the back rental of nearly $3,000,000 due the Columbus, Chicago and Indiana Central Railroad Company. It is stated, but we do not hear on whose authority, that Col. Scott will appear and satisfy the judgment in question without further litigation. We hope this is true, for it is about time, after six years of default and litigation that this suit should be settled and the holders of C., C. & I. C. securities get their rights, of the justice and legality of which there has never been a shadow of doubt. It is also to be hoped this is the end of this apparently endless litigation for other and weightier reasons. This was really a test case, as it was the first in which a solvent railroad

like the Pennsylvania "laid down" on its unqualified agreement and trusted to its power and money to get rid of onerous obligations which it had voluntarily assumed for the purpose of coercing another competing road into compliance with its demands, upon the securing of which the original lease was repudiated.

Had not this agreement been sustained their would have been an end of all obligations of contract between corporations, and thereafter the stronger might abandon the weaker whenever it suited the interest of the managers of the former. There would have been nothing but honor to enforce an agreement between railroad corporations. This suit and its inexcusable history shows how little can be trusted to the honor of railroad managers. Hereafter we hope to be spared the spectacle of seeing stock and bondholders of weak and dependent corporations thus deprived of their rights without the shadow of law or excuse except in the interests or necessities of stronger corporations. It is to be regretted, however, that this example will encourage repetition for the sake of delay, for many a corporation can well afford the expense of prolonged litigation in a period of depression in order to shirk their obligations till more prosperous times as the Pennsylvania Railroad has done.

This class will also be encouraged by the scaling down of indebtedness under this "freezing out" of creditors which has been secured to the Pennsylvania Road by these six years' delay, besides the interest on this back rental which it has thus saved. The integrity of our judiciary, however, has been at last vindicated, and at a time when evidence of this was needed, in the face of the overgrowing power of these great railroad managers, whose irresponsibility to, and defiance of the public as well as of their creditors, is provoking the legislation, State and national, which these unscrupulous railroad autocrats are pleased, with an air of injured innocence, to term "hostile." It is just this sort of litigations and abuses of power that is calling down this popular retribution upon these railroad managers' heads. and Col. Scott should be the last man to complain after these six long years of wanton violation of an express contract and of the rights of bondholders, who were induced by him to purchase his indorsement of these C., C. & I. C. bonds.

Lake Superior Iron Trade.

The amount of iron ore produced in the Lake Superior Mining district in 1879, according to the Marquette Mining Journal, was 1,414,182 tons, valued at $6,423,500. Adding the 39,583 tons of pig iron produced, the value amounts to $7,413,115, against $6,884,432 in 1878. There were 289,089 tons more ore produced in 1879 than in 1878. The output in 1879 was 246,803 tons greater than in 1873, the largest previous year, notwithstanding the fact that two of the largest mines show largely diminished figures, as compared with those of 1878. Of the output for 1879, 1,145,093 tons came from the mines of Marquette county, and 269,089 tons from the Menominee range—the increase from the first being 118,245, and from the latter 170,844. It is yet too early to predict with any degree of accuracy the probable output of the present year. It is safe to say, however, that nearly all the mines are in a position to enlarge upon last year's figures; whether they will do so depends altogether upon the demand, to which there at present appears to be no end within the utmost possible limit of production. Should this demand take on a positive form in the shape of contracts for the season's delivery, a product of two million tons in 1880 is not to be considered among the impossibilities.

Atlantic and Pacific Railway Company.

The agreement between the Atchison, Topeka and Santa Fe and St. Louis and San Francisco Companies to jointly build a transcontinental extension over the route for which the latter, under the name of the Atlantic and Pacific Railroad Company, held the franchise, to the Pacific coast, was formally signed by the directors of both companies at a meeting held in this city on the 31st ult., and the following gentlemen were elected directors of the new company, which is to be known as the "Atlantic and Pacific Railway Company:" Thomas Nickerson, E. F. Winslow, James D. Fish, Jesse Seligman, Frederick Butterfield. James Baker, Francis B. Hayes, William F. Buckley, T. J. Coolidge, George B. Wilbur, Isaac T. Burr, Charles T. Paine, and George C. Lord. The board subsequently elected Thomas Nickerson President, and E. F. Winslow Vice-President and General Manager. Messrs. J. & W. Seligman were appointed fiscal agents.

The St. Louis and San Francisco Company succeeded the original Atlantic and Pacific Company, which was organized under an act of Congress approved July 27, 1866, granting them a charter to build a road from St. Louis to the California coast. They surveyed a route through Missouri, the Indian Territory, New Mexico, and Arizona between the thiry-fifth and thirty-sixth parallels, and in California between the thirty-fourth and thirty-fifth parallels to within a short distance of the coast, along which it ran upward to San Francisco. The road was constructed, however, only as far as Vinita, Indian Territory. The South Pacific Railroad—originally the southwest branch of the Missouri Pacific—was consolidated with the Atlantic and Pacific Railroad October 25, 1870. It runs from Atchison, Kan., to Kansas City. In 1875 default was made in interest, and after sale by foreclosure the reorganized company took its present name. Its capital stock is $21,642,100, and its funded debt $5,292,000. The Atchison, Topeka and Santa Fe Company was originally organized Feb. 11, 1859, and was reorganized March 3, 1863. Its road extends from Atchison, Kan., to Albuquerque, in New Mexico, on the Rio Grande, and it has numerous branches and leased lines running in every direction, including a branch to Leadville from Pueblo, now being constructed. Its capital, according to the latest report, was $8,615,000, and its funded debt $14,588,500.

Under the terms of the recent contract, the two companies continue to preserve a separate identity, under separate management, but the St. Louis and San Francisco Company cedes to the Atchison, Topeka and Santa Fe Company one-half its rights under the Atlantic and Pacific franchise from Albuquerque to San Francisco, the latter agreeing to furnish half the funds necessary to build the line between those points, and a new company, composed half of directors of one company and half of those of the other, has been formed to manage this in the interests of both. There are, consequently, three separate companies in the scheme, all working in harmony together, for the purpose of securing a share of the transcontinental traffic now monopolized by the Union and Central Pacific Companies. If either has any advantage, it may be said to be the Atchison, Topeka and Santa Fe, which has secured the presidency of the new company in the person of one of its directors.

It is the purpose of the St. Louis and San Francisco Company to build an extension at once from Pierce City, Mo., to Wichita, Kan., 230 miles long, and thus avoid passing through the Indian Territory. The Atlantic and Pacific extension will be begun at both ends on March 1. The contracts are already given out. As about 1,000 miles of road will have to be constructed, it is expected that the work will require from two to three years to complete. The combination will then have about 2,250 miles of road under their joint control, with ample Eastern connections via the Chicago and Alton, Chicago, Rock Island and Pacific and other lines to the western termini of the Baltimore and Ohio, New York, Lake Erie and Western, and Pennsylvania trunk lines. The money needed—$25,000,000—has all been provided for. New stock to this amount is to be issued, which is to be placed in the hands of Trustees to hold until the completion of the line. One of these Trustees has already been selected in the person of Mr. John A. Stuart, President of the United States Trust Company. The other will be chosen hereafter. Both roads have large land grants from the General and State Governments.

Three More Railroads Added to the Wabash System.

The reported purchase by the Wabash, St. Louis and Pacific Railroad Company of the East St. Louis and Carondelet, Sycamore and Cortland, and Chicago and Iowa Railroads has been confirmed by one of the directors of the former company.

The East St. Louis and Carondelet Railroad, which is better known as the "Conlogue Road," runs from East St. Louis to a point on the Illinois shore of the Mississippi opposite Carondelet—nine miles—where it connects, by means of a steam ferry, with the Vulcan Iron Works, and via the Iron Mountain and Atlantic and Pacific Roads, with the speculum ore region of Southeast Missouri, and the hematite ore region of Southwest Missouri. The "Conlogue Road" has been feeding the Wabash system with iron ore for some time past, and vast quantities have already been shipped over it eastward to Pittsburg and other points.

The Sycamore and Cortland Railroad runs between the towns which give the company its name—a fraction over four miles. It is intended to extend it northwardly to Portage City, Wis., by way of the Chicago and Iowa Railroad, which runs from Aurora, to Foreston, 80 miles, and to build southwardly from Aurora

to Joliet, and thence to Logansport, where it will tap the Wabash Railroad. At Portage City connection will be made with the Wisconsin Central lines, thus opening to the Wabash system the mines of the Lake Superior region and the granaries of Minnesota. The money has already been set apart to build from Aurora to Joliet, and work is to begin on this section at once. The real and only object of the purchases is, it is said, to complete the Wabash system as originally projected.

The capital stock of the Chicago and Iowa Railroad Company was, at last report, $1,328,000; its funded debt $1,750,000, and its floating debt $100,000. The capital stock of the Sycamore and Cortland Company was $40,000, and its funded debt $20,000. The capital stock of the East St. Louis and Carondelet Company was $300,000, its funded debt $200,000, and its floating debt $30,000.

Death of an Eminent Banker.

The death of the late Stewart Brown, of the great banking house of Brown, Brothers & Co., occurred on Friday last at his residence in this city in the 79th year of his age. His funeral was largely attended on Monday by the most prominent bankers and merchants in New York. The banking house of the firm was closed for his death and burial, so far as it is possible in the nature of their business. In this connection the history of this house which has come to be known the world over by its extended business, is of general interest.

About 1798 Alexander Brown, a linen merchant, came to this country and settled in Baltimore, where he established a linen house. As his sons became of age they were taken into their father's business, and the firm was changed to Alexander Brown & Sons. In order to extend their business branch houses were established. William Brown, the oldest son went to Liverpool in 1809, and attained great success there. Soon afterwards, the next two sons, George and John A., established houses in Philadelphia and Boston. James, who died in November, 1877, came to New York to establish the present house in this city, although at first the linen business was continued. The intention from the start was to change it to the present system of banking. This occurred about 1827.

From the time the house was established it has been one of the most prominent firms of the city. During the panic of 1837 the firm held American bills for a very large amount. This included £800,000 of protested paper, and engagements were to be met in England amounting to nearly $10,000,000. The resources of the firm were largely invested in American securities which were not available at that time. This rendered it almost impossible to draw bills or remit specie to England, while the panic prevailed in Europe as well as in this country. At this crisis the English branch of the firm succeeded in securing a loan from the Bank of England sufficient to meet all the engagements in this country. Securities to the amount of $25,000,000 were deposited. In six months' time the whole sum was returned to the Bank of England. This gave the firm a reputation for business ability and integrity which has enabled it since to overcome every obstacle, and extend its business until it has its correspondents in every commercial center of the globe. Among the main features of its business was the purchasing of bills of cotton, and thus the Southern cotton trade was stimulated enormously in its infancy.

Compromise of a Railroad Suit.

The contest between the Denver and Rio Grande and the Atchison, Topeka and Sante Fe Railroads, for right of way through certain canons leading to Leadville as the objective point, has been settled both by a decision of the Supreme Court of the United States, and by a compromise between the companies, which will be affirmed it is understood by the Court in question.

The decision was rendered in favor of the Denver and Rio Grande Railway Company against the Canon City and San Juan Railway Company upon a petition for a writ of mandamus.

The compromise is as follows: first the lease is to be abrogated and the papers canceled, and the stocks of the two companies are to be re-exchanged; second, the receivership into which the Denver and Rio Grande Company was thrown during the litigation is to be terminated; third, all litigation is to stop, and each company is to pay its own bills for counsel fees and costs of court; fourth, the Leadville line throughout is to become the property of the Denver and Rio Grande Company on payment of the original cost of construction and equipment, plus $400,000 in cash; fifth, all unused material provided for the Leadville line is to be taken by the Denver and Rio Grande Company at a fair present price; sixth, the Denver and Rio Grande Company is to stop its Pueblo and St. Louis line altogether, and its extension in New Mexico about half way between Conejos and Santa Fe; seventh, the Atchison, Topeka and Santa Fe Company is not to build to Denver or Leadville, or to any other point on or west of the Denver and Rio Grande Road, but is to stop at Pueblo. In consideration thereof it is to receive one-half of the Leadville, San Juan, and other southern business from the Denver and Rio Grande Road at that point, and also at the same point and-fourth of the Denver trade with the Missouri River and eastern points. The Atchison, Topeka and Santa Fe Company, however, reserve the right to build a line of about 33 miles to their coal mines in Colorado, for coal trains only for their own use and sale down the Arkansas Valley; eighth, the agreement is to last ten years, and a decree of court is to be entered forthwith by Judge McCrary to protect the settlement; ninth, the decision of the Supreme Court is not to affect the agreement one way or the other.

St, Louis, Alton and Terre Haute Railroad.

The final decree of the United States Circuit Court in the case of the St. Louis, Alton and Terre Haute Railroad Company against Samuel J. Tilden and others was filed on the 31st ult. in the office of the clerk of the court. The order of settlement is dated January 2, 1880, and Judge Blatchford's decree affirming it is dated January 20th. The order says:

"Now, therefore, this agreement witnesseth that for and in consideration of the terms and for the purpose of carrying into effect the proposed settlement, the said railroad company, complainant herein, waives an accounting on the part of the defendants, and the defendants, on their part accept indemnification by the complainants, and reduce the amount of their claim for compensation, and the defendants, Butler and Tilden, having transfered and delivered to said company $200,000 in amount of said securities, or an equivalent, and the defendants, Sage and Bayard, having heretofore transferred a similar amount, the said company hereby accepts the said delivery in full satisfaction of such claims and for an accounting, and hereby releases and discharges the said defendants from and of all claims and demands by reason of the matters alleged in the said bill of complaint herein and hereinabove recited.

Wall Street Notes.

We call attention to the advertisement of Messrs. Sheldon & Wadsworth in our column of bankers, from which it will be seen that they are offering several first class first mortgage bonds of railroads at prices which are inducements to investors. Among them are the Utah and Pleasant Valley first 7 per cents, due in 23 years, upon a completed coal road and mines already developed and operated, at the rate of $15,000 per mile only, the stock of which is selling at 75, while the bonds are nearly taken, a few only, remaining, at 90 and interest.

Messrs. Amerman & Burwell, fiscal agents of the St. Louis, Hannibal and Keokuk Railroad, are understood to have refused an offer from a German banking house of 87½ for the entire issue, remaining unsold, of the first mortgage bonds of said road, as they will accept nothing less than 90 and interest, and will soon advance the price to 95 and interest.

The old and well known banking house of Messrs. Sheldon & Wadsworth, No 10 Wall Street, admitted Mr. George R. Sheldon, son of the senior partner, to the firm on February 1st. The younger Mr. Sheldon has lately graduated from college and thus enters business for the first time.

Mr. John W. Amerman, senior member of the firm of Messrs. Amerman & Burwell, 16 Broad Street, was admitted to the Stock Exchange as a member, on Friday last, upon the payment of $1,000 initiation fee and the purchase of a seat for $16,000. This is said to be the highest price yet paid for a seat in the Stock Exchange.

The new line of steamers lately established between this City and Leith, have made a contract with one iron firm in the latter city to bring 100,000 tons of pig iron and rails to New York the coming season.

☞ The West Conshohocken Stone Quarry Co., Pa., are doing a large business, and have found it necessary to have erected a large Track Scale of Rieble Bros., Phila., make capacity 80,000 lbs. This scale takes the place of one of an eastern make, and is the same as erected at the Warwick Iron Co., Pennsylvania Railroad Co. Elevators, I. P. Morris Co., Phœnix Iron Co., and others, where they have been in use several years and it is claimed they work as accurately as when first put up. This firm is very busy.

☞ The Wilmington (Del.) Every Evening says that the Worthington pump at the City Mill ran 24 days, making 409½ hours and raising to Cool Spring Reservoir 102,835,840 gallons, which shows an increase of 4,829,000 gallons over the corresponding period of last year. The Worthington pump No. 2 at Cool Spring, ran 27 days, making 201¾ hours and raising 7,795,709 gallons to Rodney street reservoir.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Bryan and Baltimore Railroad Company running from Delaware Bend in Defiance county, thence into Williams county to Bryan; capital, $100,000, in shares of $25 each, by A. C. Ashton and others.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Marked thus (*) are leased roads.	Par	Stock outstanding.	Dividend Periods.	Last Dividend Payable.

Indiana Southern Railway.

A decree was issued in the United States Circuit Court at Indianapolis on the 29th ult. ordering the sale of the right of way and real estate belonging to the Indiana Southern Railway. The suit was brought by the Liverpool, London and Globe Insurance Company, which corporation had become the possessors of most of the bonds of the Southern Railway to the amount of three and a half million dollars. The decree protects the rights of the Ohio and Mississippi and the Fort Wayne, Muncie and Cincinnati Companies, each of which have built their line over a portion of the route of the Indiana Southern.

Mobile and Montgomery Railroad.

At a meeting of the stockholders of the Mobile and Montgomery Railroad Company held at Montgomery, Ala, on the 4th inst., the following board of directors was elected: E. H. Green, of New York, president; E. D. Standiford, H. Victor Newcomb, Henry G. Murrell, W. D. Caldwell of Louisville; General O. Clarke, Henry Anthon, jr., J. P. Girard Foster, of New York; and George A. Washington, of Tennessee. This effects an entire change in the management of the Mobile and Montgomery Railroad in the interest of the Louisville and Nashville Railroad, the latter company taking control from this date. President Standiford, Vice President Newcomb, General Manager Defunia's, and several directors of the Louisville and Nashville Railroad had a conference with D. F. Sullivan, owner of the road from Pensacola to Selma, which resulted in the sale and transfer of the entire line of the latter road to the Louisville and Nashville Company. The sale will not interfere with the construction of a road north of Pensacola Junction.

☞ At an election held at Cheyenne on the 30th ult. it was voted almost unanimously to issue $400,000 in bonds by the county to the Union Pacific railroad, to build a railroad north toward the Black Hills and Big Horn country.

☞ A company has been formed to construct and work a loop line between the Grand Trunk and Quebec, Montreal, Ottawa and Occidental Railway, the divergent point being Point Au Claire.

☞ The first engine has been put on the Bangor and Portland Railroad. This is a short road running between the places above named, which are in Northampton county, Penn. It traverses a fine slate region.

☞ The Standard Consolidated Mining Company has declared its regular monthly dividend of 50 cents per share, payable on the 12th inst. The transfers will close on the 6th and reopen on the 13th inst.

☞ A third rail is to be laid on the Atlantic and Great Western Railroad, from Leavitsburg to Salamanca, and a narrow gauge from Leavitsburg to Dayton, making the entire line a narrow gauge. It will probably be completed by the 1st of June.

☞ The Montreal and Champlain Junction Railway was organized at Montreal, Ca., on the 27th ult. with a capital of $100,000. Hon. James Ferrier was elected President; Joseph Hickson, Vice President; Charles Drinkwater, Secretary, and E. P. Hunnaford, Engineer. A survey of the line was ordered.

Asbestos.—Its Fire Proof Qualities.

A correspondent, writing from Maxwell, Colusa county, Cal., says that the ancient amianthus, or asbestos, is being unearthed in large quantities near Wilbur's Springs, in the western part of Colusa county. It is of the gray variety, has a very good fiber, and improves fast in quality as they get further from the surface. The corrospondent adds:

For the benefit of those who may not be familiar with this strange formation, I would state that it is a fibrous, fire proof mineral, capable of being spun and woven into cloth, very useful for firemen, as the material, though much like cotton, is emphatically incombustible. You would be astonished to lay a handful of the light fiber on coals or in a flame and see that not a particle of it is consumed. It is a perfect non conductor, and therefore is not surpassed for roofing, packing, ceiling, etc. A safe lined with it is as good for ten fires as for one. The Greeks and Romans cleansed their napkins made of it by casting them into the fire. They also used it for making shrouds for their dead, preparatory for the funeral-pile. I make no conjecture as to the quantity and quality of this find in Colusa county, but I have taken pains to examine both. Up here we would be glad to find it in such quantities as to enable all to wear fire-proof clothing if they desired.

Houston and Texas Central Railway.

The Houston and Texas Central Railway Company reports its business for the month of December and for the year as follows:

December.	1878.	1879.
Gross earnings	$380,477	$382,230
Operating expenses	168,032	163,540
Net earnings	$212,445	$218 690

—showing an increase in gross earnings of $1 753, with a decrease in the operating expenses of $4,-498—making the increase in net earnings $6,245.

Years.	1878.	1879.
Gross earnings	$2,920,997	$3,205,685
Operating expenses	1,752,039	1,773,772
Net earnings	$1,168,958	$1,431,913

—showing an increase in gross earnings of $284,-688, in expenses of $21,733, and in net earnings of $262,955.

☞ The new company proposing to build a railroad from Haddonfield, N. J., to Medford via Marlton have filed articles of association with the Secretary of State, and have elected a board of directors with Charles D. Freeman as President and D. M. Zimmerman as Secretary and Treasurer.

☞ The product of the Bessemer department of the Pennsylvania steel works for the month of January was 9,774 tons steel ingots. The rail mill for the same time turned out 7,623 tons finished rails.

☞ N. S. Leonard has been elected President of the Connecticut River Railroad company, vice Chester W. Chapin, resigned.

☞ The Sussex Journal says that the extension of the Delaware railroad from Dover to Milford via Frederica is regarded as a certainty.

American Railroad Journal.

Financial and Commercial Review.

THURSDAY EVENING, February 5, 1880.

The Stock market has shown general weakness and dullness the past week, the activity of the previous week having been lost, and much of the advance, for which there does not appear to be any general or special cause except in the indifference of the large operators, apparently to the course of prices. The outside markets have been depressed, breadstuffs and provisions having been heavy and lower as a rule throughout in the continued absence of export demand.

Early in the week the stock market began to grow heavy and a disposition to realize sent down the prices of all stocks, but a heavy decline was averted by a vigorous bull movement in Erie and the Wabash group of roads and the strength of the coal roads, partly due to the comparatively favorable figures of the D., L. & Western Company. The St. Paul stocks were helped by the company's brief statement for 1879, given in our last issue. New York Central has been lower bearing out our theory that the syndicate sale was to its own members. Lake Shore has been very active, on rumors both of a syndicate in its stock and of an agreement for business with Erie, advancing nearly 4 per cent, to 104⅜, and closing 104⅛ bid. with the accompaniment of Michigan Central selling from 89¾ to 92¾, and closing 91¾ @ 92; but Canada Southern and N. Y. Central make no improvement for the week, and the unsold 50,000 shares of the latter remaining after the syndicate sale of 200,000.

There was early in the week a noticeable recovery in Nashville & Chattanooga, which sold at

78@77⅛@88⅝@85. Union Pacific and Kansas Pacific, for each of which the Consolidated Union Pacific certificates were ready on Thursday, came together in price early in the week by a decline of 1⅛ and 3 per cent respectively. Pacific Mail is lower, in consequence of the company's determination to reduce rates and seek the development of its own business rather than continue longer to depend upon agreements with the Pacific railroads, which have been broken off.

The market for stocks outside the list has shown considerable activity in Denver and Rio Grande, Central Colorado Improvement 36 bid, California Pacific 23, Missouri Pacific (old stock) from 12 down to 10, Flint and Pere Marquette 21, Atlantic & Great Western 13⅛, seller 30 days, with 6 per cent. interest; Cairo & St. Louis 8, bid; B., H. & Erie, 2⅝, and New Jersey Northern old stock, 2⅝. Indiana Cincinnati & Lafayette, which was sold under forclosure, as noted in editorial columns, and ruled off the list, has sold at 3½@4 and their are rumors of action by the holders of the stock which will advance it sharply, but we cannot learn what is proposed to be done or how the purpose of reinstating the stock is to be accomplished.

Among the influences that have effected the stock market are the folloiwng, the Purchasing Committee of the International and Great Northern Railroad Company opened bids on Saturday for $600,000 of the first mortgage 6 per cent. gold bonds of said company, amounting to $2 588,000 and the bonds were awarded to the highest bidders at prices ranging from 95½ to 97 per cent.

The Atchison, Topeka and Santa Fe, and Pueblo & Arkansas Valley will consolidate on Monday, on the basis of two-fifths for the Pueblo and three-fifths for the Topeka line.

The Board of Directors elected for the new Atlantic & Pacific road includes two active directors of the Chicago, Burlington & Quincy road, Messrs. Coolidge and Paine. The construction of the new line is to begin in March. This consolidation advanced the stock of both companies in Boston 3@4 per cent. The contract by which the St. Louis & San Francisco road unites on even terms with the Atchison, Topeka & Santa Fe to build the Atlantic & Pacific road to San Francisco was signed last Saturday.

Sterling Exchange opened dull and lower on a moderate supply of commercial and bankers bills and a light demand from importers, at the close however this was changed and the market strengthened.

Imports of specie have almost ceased and small exports were made the past week. Importations of merchandize have been larger while exports have remained about stationary at a little over $6,000,000 in value.

Money was stringent on the opening of the week but grew easy later. The bank statement shows a loss of $1,519 400 specie and an increase of $1,442,500 in legal tenders, the payments into the Sub-Treasury being large enough to prevent the return of money from the interior from showing in the returns. The loans are increased $3,125,900, while the circulation is decreased $133,000. The change in deposits is an increase of $2,192,200, which results in a loss in surplus reserve, reducing it to $8,979,825.

The lawful money reserve shown by this statement is 26.53 per cent of the deposits, against 26.79 a week earlier.

The position compares as follows with last year:

	Feb. 1, 1879.	Jan. 31, 1880.	Increase.
Loans....	$238,241,400	$283,194,500	$44,953,100
Specie....	18,633,300	50,312,800	31,679,500
Legal ten.	54,048,800	18,586,000	*35,462,800
Deposits..	219,219,200	259,675,900	40,456,700
Circulation	19,486 600	21,529,900	2,048,300
Reserve...	33.15	26.53	*6.62
Surplus...	17,877,300	3,979,825	*13,897,475

Money on call, with stock collateral, was 5@6 per cent throughout the week, except that on Friday when the rate reached 1-64@1-32 bonus in addition to the legal 6 per cent, in consequence of payments for 50,000 shares of Central Pacific stock and large payments into the Sub-Treasury. On Saturday 5@6 per cent was in force all day. On Governments the rate was about 4 per cent, with the bonds lending at 2½@3 per cent carrying on call and on time. Time-loans on stocks have become rather dearer, and are quoted 6 per cent for 30 days and 5½ for 60 days to to four months. On Governments, with 10 per cent margin, money can be had for 3 months at 3½ per cent. Prime commercial discounts are apparently a shade easier, quoted at 5@5½ per cent. Exchange on New York is steady at the South and lower at the West and in Boston.

The Syndicate which bought 50,000 shares of Central Pacific last week are said to have sold the entire lot at 84@85, suddenly placing new securities worth $4,250,000 upon the market, and the rates for money showed traces of it on Friday last.

Government bonds have been irregular, as the investment demand has been light for a week or ten days past, and some speculation arisen on possible action of Congress. The quarterly interest on fives of 1881, say 6¼ millions, was paid at the Treasury on Monday, and a call for $11,000,000 of bonds for the Sinking Fund was made later in the week.

State bonds have lost some of their animation, and District of Columbia 3.65s were also lower.

Railroad bonds continue firm for first-class varities, and the speculative descriptions have shown less activity, excepting Missouri, Kansas and Texas issues, which are materially better, and Erie second consols, which advancing under large purchases to 90 early in the week, but afterwards reacted somewhat with the stock market.

Messrs. Sheldon & Wadsworth, fiscal agents of the Utah and Pleasant Valley Railroad have advanced the price of the First Mortgage 7 per cent bonds to 90, and interest May and November, as the issue has nearly all been taken by New York capitalists familiar with the prospects of the road.

Messrs. Amerman & Burwell inform us that they expect to advance the price of the First Mortgage 7 per cent bonds of the St. Louis, Hannibal and Keokuk Railroad on or about February 15th to 95 and interest.

Mr. Wm. R. Utley is in immediate want of a number of miscellaneous railroad bonds and stocks, the different kinds of which will be noted by referring to his card in another column.

Mining stocks have been quiet and without important change for the better or worse.

Mr. H. Osterberg's plan for a Stock Clearing-House, which has secured the provisional approval of a number of prominent firms, will commence its experimental operations soon. The plan involves the handling by the Clearing-House of neither stocks nor money. The experiment is to be conducted for one week without charge to those who use it.

The closing quotations on Thursday were: Adams Express, 108@108½; American Express, 56@57; Atlantic and Pacific Telegraph, 42@42⅛; Canada Southern, 67@67¼; Central of New Jersey, 81¾@82; Central Pacific, 81¼@81½; Chesapeake and Ohio, 22@22⅛; do. 1st pref., 30@32; do. 2d pref., 24@24¾; Chicago, and Alton, 107¾@108; do. pref., 120@122; Chicago and Northwestern, 89¾@89⅞; do. pref., 104⅜@105¼; Chicago, Milwaukee and St. Paul, 78¼@78⅜; do. pref., 102¼@102½; Chicago, Rock Island and Pacific, 149¾@150; Cleveland, Columbus, Cincinnati and Ind., 77⅜@78; Cleveland and Pittsburg, 112@113; Columbus, Chicago and Indiana Central, 22⅝@22⅞; Delaware and Hudson Canal, 74½@74¾; Delaware, Lackawanna and Western, 85⅞@86; Hannibal and St Joseph, 40@40¼; do. pref., 70⅝@70⅞; Illinois Central, 103¾@104; Lake Shore and Michigan Southern, 104⅛@104¼; Louisville and Nashville, 116@120; Michigan Central, 90¾@91⅛ Morris and Essex, 102½@103¼; Manhattan Railway, 50⅛@50½; Metropolitan Elevated, 113@114; New York Elevated, 120@121; N. One of our best Fire Insurance Companies.

The statement of the Home Fire Insurance company of New York, printed in another column, shows that the past year, which has been so unprofitable to most companies and disastrous to some, has not affected the standing of this company which has long ranked among the first of our home fire companies and stands second to none of the foreign Insurance Companies doing business here. Its surplus is large, being over one and one quarter million dollars, while its cash assetts are nearly six and one half millions. These are carefully invested, as will be seen, over $3,000,000 being in United States bonds which can be immediately converted into cash in an emergency, while nearly $2 000,000 are invested in first mortgages on real estate, making five-sixths of its assets in the safest securities in the market. This is a showing that speaks for itself, and it is needless to say to insurers that when their premiums are paid to such a company, their property is as safe as it can be made.

☞ The Ontario Silver Mining Company has declared its fifty-second dividend (for January) of 50 cents per share, payable at Wells, Fargo & Company's on the 16th. Transfers close on the 10th.

North Shore and Northern Colonization Railways.

The North Shore Railway has at length passed out of the hands of the contractor, Hon. Thos. McGreevey, to the local Government of Quebec. It cannot be much less than a quarter of a century since the first promoters of this work began to put forth their energies. In the end it was found possible to build it only by the credit of the Local Government; and if there had been no Local Government it is probable that the North Shore Railway would not have been built. Indeed the development of the railway system of Quebec has been owing almost entirely to the energy of the Local Government.

The expenditure on this class of public works has been greater than the revenue of the province would properly warrant; and now, the roads having been built, the Government is anxious to dispossess itself of some of them, this among the number. The Dominion Government is looked to as a possible purchaser. It is obvious that the Dominion Government is, without this road, burthening its resources with as great a weight as they can bear.

The contract price of the North Shore Railway from Quebec to Montreal was $4,732,387 55; but as the contractors carried the work only to St. Martins, where it joins the Northern Colonization road, which is continued westward to Ottawa, the amount he received was probably not more than $3,332,387 55. The contract price of the Northern Colonization Railway from Montreal to Aylmer was $3,601,649 95, the total for the two roads being $7,934,037 50. But the amount actually paid for the whole line of railways from Quebec to Aylmer is $9,821,546 17, which is $1,887,508 67 more than the original contract stipulation. And yet there remain works to be completed at an estimated cost of $1,887,508 67; so that the total amount required in excess of the stipulations of the original contract is $3,065,597 94.

To ask the Dominion Government to purchase these roads is to ask it to incur an additional obligation of some ten millions of dollars. It is well to understand, at this early day, what the new fiscal policy of the Quebec Government means; and this is its meaning, as near as it is possible to make out at present. Of course it might be willing to take considerably less than cost price rather than operate the roads at a loss, and this would make a difference.—[Monetary Times.

Columbus, Findlay and Northwestern R. R.

Columbus has been noted for some time as a great railroad center, but it is still adding to these facilities in a remarkable degree. The past season saw the successful completion of the Sunday Creek Valley road, and now, with the Northwestern extension, a line across the State is promised, under the name of the Ohio Central Company. There are at the same time some three or four narrow gauge roads building into the city. But there is now a project forming for a northwestern extension of the Scioto Valley road, which will make it a trunk line across the State and give an outlet to the great grain and mineral resources of the Valley.

A certificate of incorporation of the Columbus, Findlay and Northwestern Railroad Company has been filed with the Secretary of State. The road passes through the counties of Franklin, Delaware, Union, Marion, Hardin, Wyandot, Hancock, Wood, Henry, Fulton and Williams, with the termini Columbus and the north line of Williams county. The capital stock to construct the road is one million dollars in shares of $50 each, and the offices of the company are to be located in Columbus. The following are the incorporators: E. T. Dunn, John M. Hamlin, W. E. Snyder, N. M. Adams, D. Joy, Peter Hosler, Robert Scott, W. B. Huffman, F. M. Rummell, D. Houpt, H. E. Cary, H. F. Winders, L. G. Randall, Samuel D. Frey, J. W. Miller, W. R. Carrehan and McManne.

Besides this Northwestern road, the Scioto Valley is to have an extension or branch into the coal fields, and Mr. Chapman is now in the East to consummate this part of the project. Much of the route is laid out and the company is organized and ready for construction. It promises to be an enterprise of considerable importance to Columbus. It is the intention, in the future, to extend the road into Michigan and secure lake points for coal.—[Ohio State Journal.

Canada Southern Railway.

From the report of this company, recently issued, we learn that the total gross earnings for the year ending December 31, 1879, were $2,995,365 68, the total operating expenses $2,448,090 41, and the net earnings $547,275 27. Deducting from this $391,452 50 as the accrued interest on new first mortgage bonds, a surplus for the year of $155,822 77 is left as against $57,187 18 in 1878. The length of the main line and branches is given at 467.55 miles. The construction account for the year amounted to $310,128 57, and the equipment account to $748,593 75. A large addition has been made to the rolling stock out of the proceeds of the new first mortgage bonds of 1878.

The following statement shows the disposition of the new first mortgage guaranteed bonds of the year, these being the only mortgage liability of the company:

Authorized issue		$14,000,000 00
Used in refunding old issues and in purchase of bonds of other companies in accordance with the "Arrangement Scheme"		$11,272,050 04
Used for construction and purchase of equipments, &c., and in settlement of old floating debt		2,225,261 67
Held for further refunding and further purchases of bonds		311,104 99
Total		$13,808,416 70
Balance of company's reserve		$191,583 30

The assets and liabilities are as follows:

ASSETS.

Construction and equipment		$23,777,145 14
Capital stock Canada Southern Bridge Co.	$450,000 00	
Capital stock Toledo, Canada Southern & Detroit Railway Co.	855,000 00	
Capital stock Erie and Niagara Railway Co.	100,000 00	
Capital stock Michigan Midland and Canada Railroad Co.	204,125 00	1,612,125 00
1st mortgage bonds Canada Southern Bridge Co.	973,000 80	
1st mort. bonds Toledo, Canada Southern & Detroit Railway Co.	1,492,506 25	
1st mortgage bonds Erie and Niagara Railway Co.	600,000 00	
1st mortgage bonds Michigan Midland and Canada Railway Co.	216,495 00	3,283,001 25
Capital stock New York Central Sleeping Car Co.		25,000 00
Capital stock International Br. Co.		100 00
Materials and supplies on hand		226,824 32
Bills and accounts receivable		921,588 13
Uncollected balances in hands of agents, &c.	$348,000 78	
Cash	137,484 14	485,484 92
Total		$30,370,268 76

LIABILITIES.

Capital stock		$15,000,000 00
New 1st mortgage bonds issued		13,497,311 71
New 1st mort. bonds held against Old 1st and 2d mortgage bonds not yet refunded—		
For $239,000 1sts at par.		239,000 00
For $16,216 19 2ds at 31½		5,108 10
Coupons payable		194,793 71
Bills and accounts payable		1,153,548 14
Income account		280,507 10
Total, as above		$30,370,268 76

Western Maryland Railroad.

The following statement of the bonded debt of the Western Maryland Railroad Company January 1, 1880, is from the Message of the Mayor of Baltimore:

First mortgage		$600,000 00
First mortgage coupons held by city		71,742 00
Interest on coupons to Jan. 1, 1880		17,857 45
Second preferred mortgage		600,000 00
Second mortgage		600,000 00
Interest to Jan. 1, 1880		396,000 06
Third mortgage		875,000 00
Interest to Jan. 1, 1880		472,500 00
Fourth mortgage		1,000,000 00
Interest to Jan. 1, 1880		450,000 00
Funded coupons of 1870		177,596 00
Funded coupons of 1879		365,160 00
		$5,625,855 45
Less sinking fund in hands of city		184,501 59
		$6,441,353 86

The Western Maryland railroad, under its able and efficient management, is now in a prosperous condition, with a steady increase in its receipts. A junction has been made with the Baltimore and Hanover railroad, which promises to add largely to its revenue. The connection with Waynesboro', which will be completed within the next sixty days, will also prove a valuable feeder. The road is now paying the interest on the first and second preferred mortgage bonds, of which latter the commissioners of finance hold $178,500. I have no doubt that the city will eventually realize a return from a large portion of its investments in this corporation.

Blast Furnace Industry.

The relative condition of the blast furnace industry in the United States for the past six years is shown by the Iron Age in the following table of furnaces in and out of blast on the first days of January, 1875' 80.

FURNACES IN BLAST JANUARY 1.

	1875.	1876.	1877.	1878.	1879.	1880.
Charcoal	152	95	73	79	79	93
Anthracite	130	100	87	98	96	165
Bituminous	81	98	84	86	82	126
Total	363	293	244	263	257	384

FURNACES OUT OF BLAST JANUARY 1.

	1875.	1876.	1877.	1878.	1879.	1880.
Charcoal	145	186	209	189	180	146
Anthracite	87	125	136	128	130	67
Bituminous	96	109	123	132	123	80
Total	328	420	468	449	433	293

The capacity of furnaces in blast, or likely to be in a short time is 81,622 tons per week, or 4,244,344 tons per year. Of those out of blast the capacity is 2,146,820. Consumption of pig iron during 1880 is not estimated at over 5,000,000 tons. With this productive capacity, and the enormous importations of all descriptions of iron and steel, there seems to be good basis for considering present high prices as artificial to no little extent, particularly so, considering the fact

that there are large amounts of stock withheld from the market for effect.

Brooklyn and Long Island City Elevated Railroad.

The Brooklyn and Long Island City Elevated Railroad Company has been organized in Brooklyn, with a capital of $5,000,000. The officers of the company are: President, Richard G. Phelps; Vice-President, Ludwig Semler; Treasurer, Job Corbin; Secretary, Mortimer C. Earl; Attorney, J. R. Allaben. The route of the proposed road is from the junction of Twenty-first street and Ninth avenue, along Ninth avenue to Flatbush avenue, Flatbush to Fulton, Fulton to Pearl, Pearl to Tillary, Tillary to Hudson and Park avenues, crossing private property, and through the slaughter house situated there; thence along the route of the Brooklyn Elevated road on Park avenue, Clason to Kent, Kent avenue to First street, First to Franklin, Franklin to Commercial, Commercial street to Manhattan avenue, and over Newtown Creek Bridge to Long Island City; thence along Franklin street to Prospect street by the Court House, and thence to the easterly terminus of the New York and Long Island Bridge over Blackwell's Island, and along said bridge to the water front. A branch is provided for from the main line at the corner of Tillary and Bridge streets, running through Bridge to Water, and Water street to Fulton Ferry, with a spur running through Sands or York street to the East River Bridge.

The Duty on Steel Rails.

AN ARGUMENT BY H. V. POOR IN BEHALF OF A REDUCTION OF THE DUTY.

WASHINGTON, Feb. 3.—The Committee on Ways and Means began this morning the hearing of arguments on the subject of the duty on steel rails. The bill under consideration before the committee is one introduced by Mr. Covert, of New York, fixing the duty on steel rails at $10 per ton—the present duty being $28.

Mr. Henry V. Poor, of New York, editor of the "Railway Manual," appeared for the Illinois Central and a number of other railroad companies, and submitted an argument in favor of the bill. It is said that Mr. Poor has lately opened a bureau in New York City for the purpose of agitating for a reduction of this duty, and that he has been sending out circulars to the railroad companies of the country, inviting them to join with him in the crusade.

Mr. Poor began by making an elaborate statement of the origin and growth of the railroad system of the country, and then said that in the great depression which followed the panic of 1873 there were only 1,712 miles of railroad constructed, as against 7,379 miles in 1871; and that the price of steel rails in this country fell to $40 a ton, only $12 more than the duty. In 1879 a new impetus was given to railroad construction, and 4,445 miles were built in that year. Mr. Poor estimated that 7,000 miles would be built in 1880 if the needed amount of rails can be had. Mr. Poor claimed that an ample supply of rails can be obtained only by promoting the importation of foreign rails by reducing the duty. Mr. Poor said that the steel rails needed during the year for renewals would be at least 1,000,000 tons; so that for the old and new roads combined there would be an annual demand for 1,600,000 tons—double the capacity of all the American works, whether producing steel or iron rails. Unless rails can be had from other than American sources, a vast mileage of railroad lines now projected, and for which money can be readily provided, would remain in abeyance indefinitely.

Mr. Poor said that American steel makers, it might be supposed, would willingly consent to a return to lower duties, but they were deaf to all appeals. If action on the subject was to be had at all, that action should be immediate. The difference in price of steel rails, between $50 and $80 a ton, was a difference which would apply this year to 2,000 or 3,000 miles of railroad, each mile requiring about 100 tons of steel rails. In Texas alone more than 1,500 miles of line are awaiting construction, provided rails can be had. It was for Congress to say whether or not such an extent of mileage shall be constructed this year.

Mr. Poor quoted a letter published in the New York Tribune on the 16th of April last, from Mr. D. J. Morrell, president of the American Iron and Steel Association, commenting severely on Mr. Vanderbilt's purchase of 12,000 tons of English steel rails.

Mr. Poor asked the committee how long that great monopoly (the American Iron and Steel Association) would be allowed to bully, not only quiet and respectable citizens acting within the scope of their rights and duties, but Congress itself.

Mr. Poor was subjected to a close examination by Mr. Kelley and other members of the committee, particularly as to the effect of the American steel rail production on the market price.

Mr. Poor gave it as his opinion in general terms that if there had been no American production of steel rails the competition of English manufacturers among themselves would have kept the prices just as low.

The London and Lancashire Fire Insurance Company.

About six months ago, when the London and Lancashire Fire Insurance Company of Liverpool, England, first opened a branch in this city with Mr. James Yereance as manager, it ventured to predict—from a reference to Mr. Yereance's previous record in the Insurance business—that the new English company would show a good balance sheet at the close of the year.

A glance at the company's first statement covering about six months business up to January 1st of this year, published in another column of this issue, shows how thoroughly Mr. Yereance has justified the strongest expectations that had been formed for the results of his management. The company's exhibit may truly be said to be remarkable when contrasted with the results shown by the aggregate of the whole insurance business of the country for 1879.

Taking 64 New York State Insurance Companies we find the aggregate of their receipts exceeded their expenditures—exclusive of dividends—by $4,095,000, giving an average net gain of $64,000 for each company. Making the same calculation for the 22 Foreign Insurance associations domiciled in this city, the average net income of each is found to be less than $73,000. By the same process the London and Lancashire Company is seen to have established a clear gain of over $218,000 after allowing for the large additional expense necessarily incurred in establishing a new business.

These figures carry an argument with them which insurers will not fail to appreciate, as it is the result of prudent and conservative management, qualities which are too often lacking in companies whose competition for business has led to results painfully manifested in the annual balance sheets our Insurance laws wisely compel them to publish. It will further be noticed that the whole of the assets of the company are in a form which many of our domestic companies may well envy, unsaleable and uncollectable Real Estate items being conspicuously absent. Both the company and its able manager may well feel proud of such an exhibit.

FIRST MORTGAGE
FORTY-YEAR
7 Per Cent. BONDS
(Convertible) of the
ST. LOUIS, HANNIBAL AND KEOKUK
RAILWAY COMPANY,
PRINCIPAL PAYABLE Oct. 1. 1917,

at the agency of the company in the City of New York. Interest payable April 1 and Oct. 1 at the same place.

THESE BONDS are secured by a FIRST MORTGAGE on the ROAD, EQUIPMENT, PROPERTY, and FRANCHISES of the company (limited to $12,000 per mile), and convertible into stock at the option of the holder.

$1,300,000 CASH, equal to more than one-half the total cost of the road, has already been EXPENDED in construction and equipment. A LARGE PORTION of the ROAD is NOW in OPERATION, and the BALANCE WILL BE COMPLETED WITHIN SIX MONTHS.

Copies of the mortgage may be examined and full information had at the office of the undersigned, by whom the above bonds are offered for sale at 90 and accrued interest, the right being reserved to advance the price without notice.

AMERMAN & BURWELL, Bankers,
NO. 16 BROAD-ST., NEW-YORK.

New Sleeping Car for the Boston, Hoosac Tunnel and western Railroad.

The Boston Journal gives the following description of a new sleeping car recently constructed to run between Boston and the West through the Hoosac Tunnel and over the Erie Railway :

The car is named the Manhattan, and is furnished with all the latest improvements that the past experience of the Pullman Company has found worthy of adoption. The outside ornamentation of these cars is of an Eastlake style, and of a standard lately adopted for this company's cars. A new feature consists of 42-inch paper wheels, with patent " Mulley," Collenly's journal, and with patent stop wedge bearings, besides the usual Miller platform and Westinghouse automatic brake. The interior of the coach is fitted up with unusual elegance, even for this company, which is noted for the superb fittings of its palaces upon wheels. The ceilings are of oak, elaborately decorated with designs of flowers. The berth fronts are inlaid with different varieties of wood, such as satin wood, teak, French walnut, amyrinth, &c., in new designs. The seats are upholstered with the standard crimson plush used by the company. The gentlemen's toilet compartment and the smoking rooms at one end of the car, and the ladies toilet compartment at the other, are finished in solid mahogany. The interior of the car is divided into twelve sections, which, with four berths in a section, gives sleeping accommodations for 48 persons. Another new feature adopted for this car is what is called the Hicks & Smith hurricane lamp, for which is claimed the merit that no smoke from it can get into the car, and that even a hurricane cannot extinguish it. Altogether it is claimed for this car and its companions which are to run in the line that they are the finest that have ever been turned out from the hands of the Pullman Car Company at their works in Detroit, where nearly a thousand of their sleeping and dining room cars have been constructed.

Riot Losses.

In the U. S. Court, at Philadelphia on the 23d ult, Judge McKennan delivered an opinion in the case of John Sherman Hall against the Pennsylvania Railroad Company. This is a test suit tried in 1878 to fix the responsibility for loss by the Pittsburgh riot. A jury was dispensed with and evidence submitted to the Judge to ascertain the facts and apply the law. After reviewing the testimony Judge McKennan concluded his opinion as follows :

" Upon the whole case I am of the opinion, and so find that the loss complained of was caused by fire while the plaintiff's goods were in transit by the defendant, within the meaning of the exception in the bill of lading ; that the defendant is not shown to have been guilty of any negligence by which the efficiency of the exception is in any way impaired, and henceforth the plaintiff is not entitled to recover."

It was admitted at the trial that the plaintiff's goods were destroyed by fire during the riot, and the bill of lading offered in evidence contained a clause excepting the liability of the railroad company for freight loss by fire.

☞ At a meeting of the Charleston (S. C.) Chamber of Commerce, held on the 31st ult., to promote the completion of the Western railroad connections of Charleston, resolutions, tendering support to the present movement to unite the Northwest with the Atlantic seaboard and favoring the formation of a committee to prepare an address, showing the advantages of Charleston as a terminal port to railroad lines seeking an outlet to the ocean, were adopted. Resolutions were also adopted declaring Charleston's continued interest in the Blue Ridge Railroad, on which several millions of dollars have already been expended.

Flint and Marquette Railroad.

The annual report of the business of this road for the past year shows to some extent the work that is being done through its agency in opening up the large tract of country in Northern Michigan through which it passes. The land sales for the year, which also includes timber and several villiage lots sold, amounted to $783,691 12, and the number of acres to 38,642. The sales of land were at an average of $19 25 per acre. The cash collections of the land department were $331,544-65, and the outstanding and unpaid notes received for land sales amounted to $793,243 08. An important feature in the development of this road is the extension of spur tracks for logging purposes From one branch extending 15 miles, near Farwell, 40,000,000 feet of logs will be handled the next five months.

The business of the road also shows a marked improvement over the previous year, the gross earnings during 1879 being $1,170,900 47 against $1,081,148 66 in 1878. The increase of earnings in 1879 over 1878 was $89,752 81, and the increase since the year 1880 opened is still greater, the earnings for the first two weeks of January being $46,203 40, a gain of $13,028 75 for 12 days—over $1,000 a day.

During the year the Company purchased 10 000 tons of steel rails at the low price of $44 85 per ton, which at the present price effects a saving of $200,000. Twenty-two miles of steel rails were laid the past six weeks, and by the first of July the road will have 200 miles of steel track.—[Detroit Price Current.

Delaware, Lackawanna and Western R. R.

The Delaware, Lackawanna and Western Railroad Company has made its annual report for the year 1879, of which the following is a condensed statement :

Gross earnings from all sources...	$19,941,290 93
Less expenses..	16,131,839 20
Balance net earning.....	$3,810,451 73
Deduct interest on the bonds and rentals leased roads.....	3,624,430 66
Actual profit for year ending December 30, 1879.....	$186,021 07
Add surplus income to December 31, 1878.....	4,346,125 01
	$4,532,146 08

By order of the Board of Managers the entire cost of the change of gauge, heretofore kept as an asset, and, consequently, included in the surplus income of past years, has been entirely written off the books of the company, namely, $873,809 03, leaving income account surplus, December 31, 1879, $3,658,337 05. The coal tonnage moved in 1879 was 3,968,101 tons.

New York, Connecticut and Eastern R. R.

The New York, Connecticut and Eastern Railroad Company has been organized by the election of the following directors and officers : President, George L. Clark, of Providence ; Vice President, Amos. M. Kidder, of New York ; Treasurer, Cornelius V. Sidell, of New York ; Directors : B. Lands, Francis W. Ford, Sheldon Collins, H. Walter Webb, James S. Leeds, Charles D. Ingersoll, H. C. Hepburn, H. R. McElligatt and David Lydig. The object of the company is to build a road from this City to New Haven, through the towns of Greenwich, Stamford, Darien, Norwalk, Westport, Fairfield, Bridgeport, Stratford, Huntington, Milford, Orange, and others. A union will be made with the Derby Road at Allingtowr, two miles from New Haven. The total length of the road will be somewhat over 48 miles, and its estimated cost, exclusive of rolling stock, is $6,-000,000. The capital of the company is $4,000,-000. It is organized under the general railroad act passed by the Connecticut Legislature. According to the survey the projected line runs far enough in the interior of Connecticut to avoid crossing any navigable streams, and there will consequently be no necessity to apply to that State for permission to erect bridges. It is intended to proceed with the construction of the road as soon as possible.

☞ The hull of the mammoth iron ferry boat for the Philadelphia, Wilmington and Baltimore and Baltimore and Ohio Railroad Companies is approaching completion at the Harlan & Hollingsworth Company's works, at Wilmington, Delaware, and will be ready to launch in a few weeks. The boat is about 325 feet long, and designed to transport a full train of passenger or twenty-seven freight cars across Baltimore harbor, between Canton and Locust Point. The same company are to build a new ferry boat, of wood, to ply between Washington and Alexandria, Va.

☞ The gross earnings of the railroads of Wisconsin for the year 1879, amounted to $26,965,-435 81; operating expenses, $14,274,429 21 (52 per cent); excess of earnings over expenses, $12,-691,006 60, a gain in earnings of $510,604 19, and a decrease in expenses of $276,465 47 over the previous year, making an increase in earnings of $786,070 53. The present railroad mileage of Wisconsin is 2,896 miles.

☞ The Governing Committee of the New York Stock Exchange have placed on the regular list the following bonds of the Wabash, St. Louis and Pacific Railway Company : $500,000 Hannibal and Naples first mortgage 7 per cent bonds, and $264,000 Clarinda Branch or Omaha extension (St. Louis, Kansas City and Northern issue) first mortgage 6 per cent gold bonds.

☞ Messrs. Fisk & Hatch have issued the seventh edition of their pamphlet entitled " Memoranda Concerning Government Bonds," which brings all information of interest to investors respecting these securities down to date. This little book is valuable for reference to all concerned in the securities of the Government.

☞ In the Court of Common Pleas, at Akron, Ohio, on the 3d inst., Judge Tibbals overruled the objections of the United States Rolling Stock Company and other parties, and issued an order confirming the recent sale of the Atlantic and Great Western Railroad. This removes the last hindrance to the reorganization of the road.

☞ Connection was made on the 3d inst. between the eastern and western sections of the Grand Trunk Company's western road, and an engine was run over the new track. The company's system now extends from Chicago to the Atlantic Ocean.

☞ The City Council of Petersburg, Va., have voted to sell 3,235 shares of Petersburg and Weldon Railroad stock held by the city and valued

at $165,000, which was subscribed when the road was built.

Imports and Exports.

The chief of the bureau of statistics, in his sixth monthly statement for the current fiscal year of the imports and exports of the United States, shows that the excess of exports over imports of merchandise, stated in specie values, was as follows:

Month ended Dec. 31, 1879	$21,040,734
Month ended Dec. 31, 1878	35,965,051
Six months ended Dec. 31, 1879	136,813,866
Six months ended Dec. 31, 1878	149,625,055
Twelve months ended Dec. 31, 1879	251,350,477
Twelve months ended Dec. 31, 1878	305,279,590

The excess of imports over exports of gold and silver coin and bullion was as follows:

Month ended Dec. 31, 1879	$5,878,754
Month ended Dec. 31, 1878	252,337
Six months ended Dec. 31, 1879	75,016,997
Six months ended Dec. 31, 1878	2,942,164
Twelve months ended Dec. 31, 1879	67,372,392
Twelve months ended Dec. 31, 1878	2,002,543

☞ The control of the New York and Oswego Midland Railway was transferred, at 12 o'clock last Saturday night, by Receiver Abram S. Hewitt and John G. Stevens to the New York, Ontario and Western Railroad Company. C. N. Jordan, President of the new company, has appointed the Secretary of the company, Theodore Houston, General Manager of the road.

☞ The report of the trustees of the sale of the Eastern Shore (Md.) Railroad as made some months ago, was finally ratified and confirmed in the United States Circuit Court on the 30th ult.

☞ Track laying commenced on the Ohio and West Virginia Railroad, at Logan, Ohio, on the 27th ult.

☞ The last rail of the Indianapolis, Decatur and Springfield Railroad was laid at a point eighteen miles west of Indianapolis on the 29th ult.

☞ Passenger and freight trains are now running regularly on the Pittsburgh and Western Railroad.

The investigation of frauds on Railway Companies a specialty.

THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY CO., TREASURER'S OFFICE, ROOM NO. 47, GRAND CENTRAL DEPOT, NEW YORK, Dec. 16, 1879.

THE DIRECTORS OF THIS COMPANY HAVE this day declared a dividend of Four Per Cent. upon its Capital Stock, payable on the 2d day of February next, at this office.

The transfer books will be closed at 3 o'clock P. M. on Saturday, the 27th inst., and will be reopened on the morning of Friday, the 6th day of February next.

E. D. WORCESTER, Treasurer.

Speculative Inflation on the Paris Bourse.

This country has not been an exception in the speculative mania of 1879, as will be seen below:

The course of values in Paris is illustrated by the following statement of the market value of about one hundred of the principal stocks dealt in on the Paris Bourse at the prices of the 31st December last compared with the same date of the previous year.

	Decrease, Francs.	Increase. Francs.
French rente	.....	803,641,687
French credit compani's	.....	275,418,750
French railway shares..	27,000 000	127,181,250
Divers French shares..	4,332,970	71,111,000
French railway bonds.	.....	516,709,000
Divers French bonds..	6 977,269	15,122 559
Foreign Gov. funds....	35,402,065	689,983 830
Foreign railway shares	6,375,000	96,579.000
Foreign railway bonds.	8,131,500	152,725.700
Foreign credit co.'s....	....	78,575,000
Total	88,218,384	2,827,047,776
Net increase.....	2,738,829,442	

The decrease of 27 millions in the value of French railway shares represents the depreciation in those of the Orleans Company, from apprehensions of the purchase of the entire system by the State. In Germany the result of the prospect of State purchase has been directly opposite, the Berlin Bourse having run into the wildest of "bull" speculations upon that prospect.

☞ The Bradford (Penn.) Era says that during the month of January 220 wells, with a production of 5,944 barrels, were completed in the Bradford region alone, five of them being dry holes. In the entire oil regions, including Bradford, 1,889 wells are in progress, and 245 have been completed during the month, nine of them being dry holes. The increase over the December showing is very marked, and may result in a lower price for oil during the coming two months.

☞ The Piedmont and Potomac Coal and Railroad Company has been organized on a charter obtained some years ago, with Hon. H. G. Davis, president, and Alex. Shaw, John Shaw, N. B. Holt, T. B. Davis and U. B. McCandlish, directors. This is a road to be built as a feeder to the Baltimore and Ohio railroad from some point near Bloomington to the Elk Garden coal region.

☞ The Ontario Silver Mining Company produced $89,863 73 silver, assay value, for the first 23 days of January, during which time the mill was stopped for 3 days. The following is the ascertained gold product of three of the Black Hills mines for the first clear up of January, about one-third of the month: Homestake, $37,045 39; Deadwood, $12,260 15, and Golden Terra, $19,-257 84.

☞ The Wilkesbarre (Penn.) Leader says that the Lehigh and Eastern Railroad Company are constructing a railroad from Tombicken, in Southern Luzerne county, to Port Jervis, N. Y., where it will connect directly for New York. This will be an additional outlet for lower Luzerne coal to the New York market.

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of December, 1879, were $304,055 83; expenses, $187,-587 91; net earnings, $116,467 92. The net earnings for the year 1879 were $961,549 74; do, for the year 1878, $876,111 66—increase for 1879, $85,438 08.

Providence and Worcester Railroad.

From the report of this company for the year ending September 30, 1879, we learn that the income during that time was $919,852 25, the expenses $569,507 05, and the net earnings $350,-345 20. It has been decided to remove the repair shops to Valley Falls. The estimated cost of the removal and construction of the necessary buildings and machinery, and the necessary alterations of the premises in Providence (now occupied by the machine and repair shops), to make them available for freight purposes, will amount to about $100,000, which expenditure may cover a period of three years, or a shorter period, if, in the opinion of the Board the removal and construction can be, with a due regard to economy and convenience, perfected sooner. This removal of the machine and repair shops will add greatly to the facilities in handling freight at the Providence terminus. During the year over $50,000 has been expended in improvements on the road, including the laying of 750 tons of steel rails, and 2050 tons are to be laid the coming year. Contemplated improvements to be made during the coming fiscal year will require a large outlay of money, and in order to make them without in any way increasing the debt of the company, it is the purpose of the Board of Directors to pay the cost thereof out of the earnings of the road and charge them to operating expenses.

OFFICE OF THE ONTARIO SILVER MINING CO., 31 BROAD ST., NEW YORK, Feb. 5, 1880.

DIVIDEND NO. 52.

THE REGULAR MONTHLY DIVIDEND OF FIFTY CENTS per share has been declared for January, payable at the office of the Transfer Agents, Wells, Fargo & Co., No. 65 Broadway, on the 16th inst. Transfer books close on the 10th inst.

H. B. PARSONS, Assistant Secretary.

NEW YORK, February 2, 1880.

THE STANDARD CONSOLIDATED MINING COMPANY, have this day declared their regular monthly dividend of

FIFTY CENTS PER SHARE,

payable February 12th, at the Agency of the Nevada Bank, No. 62 Wall-st., New York.

Transfer-books close on the 6th inst., and re-open on the 13th inst.

M. R. COOK, Vice-President.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, Jan. 22. 1880.

A DIVIDEND OF THREE (3) PER CENT. has been declared by this company, payable on the 1st day of March next to the holders of its capital stock as registered at 2 p. m. on the 12th of February next, after which, and until the 4th of March, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.

American Railroad Journal.

HARLAN A. PIERCE, Editor.

New York, Friday, February 13, 1880.

The Indianapolis, Cincinnati and Lafayette Foreclosure Sale to be Contested as Irregular.

We have found it a most difficult task to solve the mystery hanging about the foreclosure sale and reorganization of the Indianapolis, Cincinnati and Lafayette Railroad Company noted in our last, together with the proposition which the stockholders had rejected, as it gave them the right to come into the reorganization only on terms that would have been virtual confiscation of their stock, or the alternative of being wiped out altogether. Upon inquiry of the proper sources, however, we find that the stockholders' rights and creditors are protected by the laws of the State of Indiana, which cannot be set aside by the "Reconstruction Committee," while there is doubt if it was ever intended to reorganize the road, the scheme being a sort of legal threat, it is said, to get rid of indebtedness to a canal by compromise, on penalty of wiping out both the lease and back rental to the amount of $250,000, including interest due the White Water Canal Co., on which the road was originally built.

We are told by those who represent the stockholders that very little of the stock has assented to the scheme, as the holders were advised not to do so on the ground that the reorganization proceedings are irregular and the sale will be contested both by them and the canal company, and possibly be set aside. To this end there is a movement planning on the part of the stockholders conjointly with the canal company. There is also a law of the State of Indiana giving a year's right of redemption on the foreclosure of a mortgage, until which time the reorganization cannot be completed. Indeed the unusual haste and manner in which this stock was dropped from the Stock Exchange list, almost before the sale of the road had become public, gives color to the charge on the Street that the reorganization interest desired to break down the price of the stock, in order to buy it in, and, after compromising with the canal company, and getting rid of its obligations to it, go on under the old I., C. & L. charter, rather than incur the expense of defending the reorganization scheme, in which they might be defeated in the end.

While the above is necessarily unofficial, in the present state of the proceedings, yet it is the opinion of those best informed, who are not in the reorganization scheme, which is said to be in the interest of the Wabash system. Hence we would advise the holders of the stock to wait, as their stock may not be so worthless as the "reorganizers" and officials of the company individually and officially have gone out of their way to proclaim. On the other hand the figures set by the Street to which the stock will go, are no doubt an extreme view on the other side, and represent the wishes rather than the judgment of the holders of the stock, just as the "worthless" views of the inside managers are possibly the result of their desire to purchase it at as much below its true value. It will be remembered this stock sold last fall at 16. As to the real condition of the road, it is not such as should make the stock valueless by any means. It has 166 miles of road, 51 miles of sidings, 52 engines, 41 passenger coaches, 16 baggage, mail and express cars and 1,084 freight cars, costing about $17,000,000, against a capital stock of $5,500,000 and a bonded debt of $10,000,000, including $1,600,000 overdue coupons of 1867, In 1878 it earned $1,309,000 gross, and $494,000 net. Since then the business of the railroads of the country has increased 8 to 10 per cent, which would make net earnings for 1879 $40,000 to $50,000 more. Now the interest on its $10,000,000 of bonds at 7 per cent is $700,000, against $534,000 to $544,000 net earnings. In other words the road is now earning more than 5 per cent interest on its total bonded debt. What need then, the reader will ask, was there of foreclosure, and why should the stock be selling at 1¼ a 2 per cent?

Since writing the above we have met Mr. M. E. Ingalls, the receiver of the road who gave us the following facts. As he was the former president of the road he is familiar with its history. He says that the reason default was made on the interest on $2,869,000 of the First Mortgage bonds when the net earnings were more than sufficient to meet it, was by order of the court to apply the same to the payment of overdue debts for wages and supplies.

We find that in 1876, the year in which the receiver was appointed, the payments of interest fell from $654,000 in 1875 to $363,000 for 1876-1877, and to $394,000 in 1877-1878 and about the same for 1878-1879 — making a reduction of about $300,000 which

would thus appear to have been applied to payment for overdue supplies and wages, if we understand Mr. Ingalls rightly. He also says the right of redemption does not apply to railroads, and also that about one-half the stock has assented, that the canal was not leased but condemned, and that the claim is only $250,000 instead of $1,500,000 as reported.

It is to be presumed, however, that this $100,000 per year is not to be applied to overdue bills continuously, and, as we have shown, when applied to pay interest the net earnings are nearly equal to the fixed charges. Mr. Ingalls says that the debt is now $11,500,000, including $1,000,000 overdue coupons; but we showed in our last that $400,000 of these have been surrendered. He also says that the effort to convert $1,500,000 of junior bonds into preferred stock failed, and that hence that much should be taken from their capital stock, making it $5,587,000 and added to their bonds.

Mr. Ingalls and Judge Hoadley were in this city Wednesday looking after the affairs of the company.

The Inter-State Commerce Bill.

As the hearing on the Reagan Inter-State Commerce Bill, now before the Congressional Committee on Railroads, is closed, we propose, in another article, to review the arguments of opposing interests in order to arrive at a just conclusion of the merits and defects of said bill. We wish first, however, to call attention to the purposes of the bill. Representatives of nearly all the leading railroads in the country, of the mercantile interests and the trunk line commissioners and arbitrators have in turn placed themselves and their arguments, pro and con, upon record, until the subject appears to have been exhausted, so far as these interests are concerned. It will now be the duty of the Committee and the Press to ascertain, from all that has been presented, what are the *public* interests, to preserve which the bill in question was prepared, as a remedy for abuses in railroad management which have been shown to be so general and so great as to render the public, for which common carriers were chartered, dependent upon these creatures of their own power.

It must not be lost sight of, therefore, in determining this question, that said bill is in the nature of such remedy for evils that have been amply proven to exist. While giving all due consideration to the arguments of interested parties on either side of the question, they must not be accepted unless true, nor binding upon the committee, only so far as it is necessary to protect their property and interests, under the law, as they would those of the individual, upon a parity with whom railroad managers must be brought. This is the purpose for which this legislation is demanded; in order to compel these powerful and irresponsible corporations—controlled by a dozen men—to manage the highways of travel and commerce for 50,000,000 people, in the interest of these 50,000,000 people, from whom they obtain their charters and rights as common carriers, instead of in the interests of these dozen railroad managers as now. This is the whole point at issue and must not be lost sight of, belittled nor obscured by the ingenuity of the legal talent which the railroads commanded before the committee and keep in their service by enormous retainers, for which the commerce of the country is taxed. The purpose of this bill is to abolish this American aristocracy of "railroad kings," or feudal lords of the nineteenth century, who hold the highways of trade and levy tribute at will upon the unlucky merchantman who is obliged to cross their domain; just as was done in the Dark Ages, except that we are despoiled by forms of laws, made and executed by the retainers of these railroad kings instead of by force of arms as then; and that their retainers are legal gentlemen, instead of the rude and bloody clans who founded the ancient peerages of Europe.

The discussion has brought out among other things a new proposition from the railroads that appears on its face to be just, providing that water carriers be included in the proposed legislation for regulating commerce between the States, as it would be manifestly unjust to restrict competition snd liberty of action on the part of the railroads and then leave competing water routes free to secure business at such rates as would ruin the railroad traffic.

Since the above was written the Committee on Commerce has voted "8 to 7" not to report the Reagan bill, although this vote may be reconsidered.

Regulating Live Stock Transportation by Congress.

The bill introduced in the United States Senate to prevent cruelty to animals in transit, is one which deserves careful consideration in the cause of humanity to protect animals from inhumanity by man, induced by the overgrown greed of gain. While directly affecting the railroad companies as the responsible agents of the drovers and shippers of live stock in transit, the bill does not really affect the transportation companies in the end, as all necessary expenses incurred by the provisions of such a bill would fall upon the drovers and shippers themselves, who are the guilty parties to be reached. It is not a matter of great difference to the railroad companies how often stock is unloaded, watered, fed and rested, nor how closely they shall be stowed in their cars. It is by the car they charge, and the extra cost of unloading and reloading would naturally fall on shippers. It is the cupidity of these owners of stock that causes them to overcrowd cars and ship stock for long distances without the food, water and rest which nature imperatively demands, and without which as great distress follows to the animal as would to a human being deprived from one to two days of food, water and rest. Besides, it engenders disease which renders these amaimals' meat unhealthy food on arrival at their destination. The treatment of animals, is a question deserving of much wider and more general attention and legislation than simply the manner of their transportation. Cruelty to animals from their birth to their death is the rule, and kindness and humane treatment the exception. Scarcely has an animal been born before mutilation in one form or another is practiced upon it in the interest of civilization. It is not permitted to grow and mature without one or more annual inquisitions of brutality, that in most cases are wholly needless and revolting; the only excuse for which is that it is necessary, to adapt the brute creation to the uses of man. This is strangely inconsistent with the accepted belief that the animals were created for man's use. If so, then any use for which they are not in nature fitted, is not the use for which they were created, and hence is an abuse of the brute, which should be forbidden by law. The cynical may smile at any such plea for the mute and defenseless, yet faithful animals whose lives are spent in the service of man; so does the hangman smile at the writhings of his victims, and like the butcher needlessly tortures them if left to his own perverted instincts. Our slaughtering establishments and methods of killing animals, are also a proper subject of legislation and should be conducted by law upon scientific principles, the least painful and most humane, as is done in France. The custom in any of our abattoirs of huddling animals in slaughter pens to witness one by one their fellows dragged from their midst, hung up by the heels and butchered before their eyes, is enough to make one's blood run cold, is needless and should be stopped. It is heartless or ignorant to say that they are animals and have little feeling. Their instincts of life and dread of death are as strong as those of the human being, and their bodily sufferings as well as terror of blood and death are the same as ours. To poohpooh such arguments and such legislation as is needed to protect domestic animals is therefore heartless, and to resist it is brutal, though we doubt not in most cases such action is the result of thoughtlessness, rather than cruelty. A good way to realize the truth of the case and the need of a remedy is to put oneself in the animal's place, and suppose him to be the "lord of creation" and man his subject.

The *Railway World* of Philadelphia, in commenting upon the bill before Congress said:

"The debate indicated an unexpectedly strong feeling of hostility to any measure that tended to extend, in a questionable manner, the authority of the General Government over questions relating to inter-State commerce."

We are surprised that this question of humanity, strictly, should thus be dragged by a railroad journal into this contest between the railroads and the public, with which it has no more to do than with railroading in the moon, in order to help one faction or the other, at the expense of the poor animals which are un-

doubtedly treated with systematic and unnecessary cruelty while in transit from the West.

Railroads of Maine.

The Railroad Commissioners of the State of Maine have made their annual report to the Legislature in accordance with the requirements of law. In regard to examinations the Commissioners say:

"Upon most of the roads we have observed the same marked improvement and progress that have characterized them in the years immediately preceding, on the main through lines particularly, a completeness and perfection that may well challenge comparison with the best and most approved railroads of any State in the nation."

During the year 1879, three new railroad companies have been organized under the general railroad law of 1876, and roads located and built by the same, over which trains now run regularly, viz: the Sandy River Railroad, leading from Farmington to Phillips, a distance of eighteen miles; the St. Croix Railroad, leading from the European and North American Railroad station, in Vanceboro', to the centre of the St. Croix River (the eastern boundary of the State), a distance of about three-fourths of a mile, to connect with a branch of the Canada and New Brunswick Railroad; and the Norway Branch Railroad, leading from Norway village to the Grand Trunk Railway, at South Paris, a distance of about one and a half miles. The first-named road, from Farmington to Phillips, is a narrow gauge of but two feet, the others standard gauge of four feet eight and a half inches.

There are 31 distinct railroads in Maine, with a total length of rail in operation of 1,027.08 miles, being about one mile of railroad in the State to each 33 square miles of territory, to each $230,000 of property and to 644 of population. This large number of lines of road is, however, operated by less than one-half of that number of corporations by consolidation and leases.

Of the consolidated Maine Central Railroad and its branches, amounting to 307½ miles of consolidated and 47½ miles of leased roads, the Commissioners write:

"The road has been operated this year very satisfactorily to the public, and successfully by the management. Trains have been run with great regularity and promptness, and thus far no accident has occurred to mar or interfere with the general prosperity of the road. The business of the road is constantly increasing, and must continue to do so if the improvement in the industries of the country is maintained and enlarged, and the same liberal and enlightened policy now characterizing and controlling the interests of this road is adopted and perpetuated in the future. Railroads are chartered and built, not that the companies or a few individual bond or stockholders may be enriched by large dividends and the tricks of speculation, but on the contrary for the benefit of the people, and the development of the resources of the country through which they pass; for the building up, not the destruction of business centres, and giving increased facilities to enterprise and industry. Such are the understood and accepted conditions upon which our general and State government confer upon corporations the privileges of chartered rights, and upon no other ground could they be justified in conferring these rights; and when a road fails to accomplish these purposes, or by oppressive tariffs and narrow contracted policy distresses and oppresses the people, it fails to accomplish the design for which it was created, and becomes a cheat and fraud, and its iron rails an obstruction and binding chain upon the prosperity of the communities they were intended to benefit. But we have no complaints to make or charges to prefer against the Maine Central Road, for we believe that, as the longest and most extensive railway in the State, its example is worthy of commendation and imitation."

Among the improvements on the road they note the laying of 2,112 tons of new steel rails, equal to 23 miles; the repair of old rails equal to 11 miles of track, the laying of 101,800 new sleepers, a new iron bridge 107 feet long at Cathance, a new iron bridge 474 feet long across the Androscoggin River, a new overhead bridge at Winthrop, a new bridge at Livermore Falls 112 feet long, and one at East Wilton 400 feet in length, besides several smaller structures and extensive repairs on other bridges. It is a satisfaction to the people of Maine to know that this very important road, which reaches nine of the fourteen cities of the State and a dozen of the largest villages and manufacturing towns, and in which two thirds of the population of the State is vitally interested, is so well managed and that it so thoroughly, promptly and economically serves the public. This is not intended as a discrimination against any other corporation. The Maine Central is given greater prominence because its operations affect a greater number of people and a wider range of interests in the State than those of any other company.

Profits of the Elevated Railroads.

In his report to the Hon. Charles S. Baker, chairman of the Sub-Committee on Elevated Railroads, Mr. Sweet, Jr., shows that the cost, including equipment, of the Ninth, Bowery and Third Avenue lines constructed by the New York Elevated Railway Company was up to September 30, 1879, $9,092,948. This included the construction of the road as far as 129th street. It appears from the returns for the year ended October 30, 1879, that the capital of this company was $6,500,000 and the funded debt $8,498,000. The earnings were $2,239,489 08. The operating expenses, including $27,819 paid to the Corporation, were $1,199,158 86. The sum available for interest and dividend was $1,011,640, divided as follows: interest, $477,715; dividend, $532,925. In round numbers the company earned $1,000,000 on an expenditure of $9,000,000.

In regard to the Metropolitan Elevated Railroad, the report shows that the cost of the line from Morris-st. to Eighty-third-st. was $3,058,524 34. This includes the equipment. The returns of this road for the year ended October 1, 1879, show that its gross receipts were $1,285,980; its operating expenses $709,524 47, leaving as net earnings $576,455 62. Seven miles of the road were operated. Regarding the profits of the lines Mr. Sweet says:

"The Ninth Avenue line has been run as a single track road nearly all the time, the rebuilding of the old structure, now nearly completed, having been begun soon after the second track was finished. Notwithstanding this fact, and the want of proper facilities for economical operation, the net earnings for the year ending October 30, 1879, were 15 per cent of the total cost to that time, including the large expenditures for construction made during that year."

The Metropolitan road, from its opening, June 5, to October 30, 1878, less than four months, had made $227,000 net, or 7 per cent of all the cost to that time, nearly all which had been expended during that year. During the next year, with only about a third of its road completed, and utterly without shops or terminal facilities, its net earnings were nearly 7 per cent on the amount expended for construction, though two-thirds of this sum were represented by incomplete and unproductive property. The earnings for the last four months show a large increase in earnings, and operating expenses reduced to 31 per cent.

Blast Furnace Slag and Mineral Wool.

We reprint in another column a correspondence on the above subject, published in the *American Manufacturer and Iron World* of Pittsburgh. The correspondent, Mr. Elbers, will be remembered by many railroad men of ten years ago as the American agent of several Prussian Steel and Iron Works.

The welded puddled steel rails which he used to sell are out of the market, and their manufacture here and abroad has been superseded by the Bessemer process; but the F & E rail-sections which he introduced on many railroads in this country as far back as 1868 are widely known and appreciated—especially on account of their straight bearings for the fish-bars, which allow of using the latter "up side down" or on either side of the rail.

Mr. Elbers left the railroad supply business in 1873; but his Mineral Wool—as the sequel shows—bids fair to bring him again into closer contact with railroad men, among whom he has retained many friends.

—We have received from the publishers—the *Railroad Gazette*—a very interesting and useful pamphlet, upon Taxation of Railroads and Railroad Securities, compiled and edited by Messrs. C. F. Adams, Jr., W. B. Williams and J. H. Oberley, who composed a committee appointed by a convention of State Railroad Commissioners, to report the methods of taxation of railroads and their securities in the different States and in foreign countries; and to devise some uniform system for such taxation which should be equitable to the public and the roads, which we shall refer to hereafter.

—As we feared, we were hasty in giving Col. Scott credit in our last issue for doing justice at last to the Columbus, Chicago and Indiana Central Railroad bondholders by satisfying the judgment of the United States Court in favor of the latter for rental overdue seven years to the amount of about $3,000,000. It is announced instead that he has appealed to the U. S. Supreme Court and will continue to fight these bondholders with their own money to the end of the law, for the purpose of delay.

☞ At a public meeting on the 9th inst. in West Hoboken, N. J., resolutions were adopted in favor of granting the right of way to any responsible company that will construct an elevated railroad from Hoboken to the Palisades, trains to be run at intervals of 10 minutes and the fare to be 5 cents.
